Italian Crime Fiction in the Era of the Anti-Mafia Movement William Farina, 2020-03-03 Over the last three decades Italian crime fiction has demonstrated a trend toward a much higher level of realism and complexity The origins of the New Italian Epic as it has been coined by some of its proponents can be found in the widespread backlash against the Mafia sponsored murders of Sicilian magistrates which culminated with the assassinations of Judges Giovanni Falcone and Paolo Borsellino in 1992 Though beginning in the Italian language this prolific popular movement has more recently found its way into the English language and hence it has found a much wider international audience Following a brief yet detailed history of the cultural and economic development of Sicily this book provides a multilayered look into the evolution of the New Italian Epic genre The works of ten prominent contemporary writers including Andrea Camilleri Michael Dibdin Elena Ferrante and Massimo Carlotto are examined against the backdrop of various historical periods This past is prologue approach to contemporary crime fiction provides context for the creation of these recent novels and enhances understanding of the complex moral ambiguity that is characteristic of anti mafia Italian crime fiction

Gerhard Werle, Florian Jessberger, 2014 *Principles of International Criminal Law* is one of the leading textbooks in the field. On Theocratic Criminal Law Bahman Khodadadi, 2024-09-25 *On Theocratic Criminal Law* explores the roots and structures of the criminal law system of the world's most prominent constitutional theocracy, the Islamic Republic of Iran. While discussing the processes of forced de-westernization and de-modernization which occurred in the wake of the Islamic Revolution, this work examines how the Islamic conception of civil order and polity has been established within the legal and theological framework of the Iranian Constitution. The book engages in a process of rational reconstruction of Iranian theocratic criminal law and offers a critical analysis of the way criminal law functions as the centrepiece of this mode of political domination. It illuminates how this revelation-based punitive ideology functions, how the current Islamic Penal Code (IPC) mirrors prevailing Shiite jurisprudence, and ultimately from what sort of fundamental defects theocratic criminal law in Iran is suffering. This work provides a critical assessment of the criminalization and sentencing theories that have stemmed from the shariatization/Islamization of all law in the wake of the Islamic Revolution of 1979. By embarking upon a typology of punishment in Shiite Islamic jurisprudence and the Iranian Islamic Penal Code, the book then provides a systematic critical analysis of the three types of punishment stipulated in the Iranian Penal Code, namely *ta'zir*, *hadd*, and *qisas*. It also explores the jurisprudential principles and dynamic power of Shiite Islam, not only as a driving force behind political and social change, but as a force that has been capable of forging a whole theocratic legal system.

The International Criminal Court William A. Schabas, 2017-01-19 Established as one of the main sources for the study of the Rome Statute of the International Criminal Court, this volume provides an article-by-article analysis of the Statute. The detailed analysis draws upon relevant case law from the Court itself as well as from other international and national criminal tribunals, academic commentary, and related instruments such as the Elements of Crimes, the Rules of Procedure and Evidence, and the Relationship Agreement with the United Nations. Each of the 128 articles is accompanied by an overview of the drafting history as well as a bibliography of academic literature relevant to the provision. Written by a single author, the Commentary avoids duplication and inconsistency, providing a comprehensive presentation to assist those who must understand, interpret, and apply the complex provisions of the Rome Statute. This volume has been well received in the academic community and has become a trusted reference for those who work at the Court, even judges. The fully updated second edition of *The International Criminal Court* incorporates new developments in the law, including discussions of recent judicial activity and the amendments to the Rome Statute adopted at the Kampala conference.

Crimes of Passion Since Shakespeare Adrian Howe, 2023-04-28 Bringing key Shakespeare texts into dialogue with feminist socio-legal research, this book investigates the notion of a crime of passion, indicatively wife-killing.
