Commemorating the Polish Renaissance Child Jeannie Labno,2016-05-23 The study of funeral monuments is a growing field but monuments erected to commemorate children have so far received little attention Whilst the practice of erecting monuments to the dead was widespread across Renaissance Europe the vast majority of these commemorated adults with children generally only appearing as part of their parents' memorials However as this study reveals in Poland there developed a very different tradition of funerary monuments designed for and dedicated to individual children daughters as well as sons The book consists of five major parts which could be read in any order though the overall sequencing is based on the premise that an understanding of the context and background will enhance a reading of these fascinating child monuments Consequently there is a progression of knowledge presented from the broader context of the earlier parts towards the final parts where the actual child monuments are discussed in detail Thus the book begins with an overview of the wider cultural contexts of funerary monuments and where children fitted into this It then moves on to look at the forgotten Renaissance of central Europe and specifically the situation in Poland The middle part addresses the culture of memory examining the role of funerary monuments in reinforcing social religious and familial continuity The last parts deal with the physical monuments empirical data iconography and iconology Through this illuminating consideration of children's monuments the book raises a host of fascinating questions relating to Polish social and cultural life family structure attitudes to children and gender It also addresses the issue of why Poland witnessed this unusual development and what this tells us

about the transmission of cultural and artistic ideas across Renaissance Europe Drawing upon social and cultural history visual and gender studies the work not only asks important new questions but provides a fresh perspective on some familiar topics and themes within Renaissance history *Billboard* ,2003-05-31 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Performance Pluså": Jazzy, Bluesy, Cool, Book 4 Alfred Music, Titles The Boogie Man A Change in Scenery Chattanooga Choo Choo Don't Fence Me In Embraceable You Fire and Ice New Orleans Blues No More Blues The Pink Panther Rock n Roll Boogie Spots Before My Eyes Three Swingy Boatmen
