Classics Of Philosophy:

Classics of Philosophy 3rd Edition Pojman, 2010-07-02 **Classics of Philosophy** Louis P. Pojman, 1997-10-01

Classics of Philosophy is the most comprehensive anthology of writings in western philosophy in print. Spanning 2 500 years of thought, it is ideal for introduction to philosophy and history of philosophy courses. Over seventy-five works by forty-two philosophers, as well as fragments from the Pre-Socratics, are included, offering students and general readers alike an extensive and economical collection of the major works of the western tradition. This anthology contains the most important writings from Thales to Rawls; twenty-four of these are complete works, including such classics as Plato's Republic, Descartes' Meditations on First Philosophy, Leibniz's The Monadology, Hume's An Enquiry Concerning Human Understanding, Kant's Foundation for the Metaphysics of Morals, Mill's Utilitarianism, Russell's The Problems of Philosophy, Sartre's Existentialism and Humanism, and Rawls's Justice as Fairness, while the others are judiciously abridged so that little of value to the student is lost. The book provides a broad view of the most significant stages of growth in western philosophy, including its birth with the Pre-Socratics, as well as its contemporary developments. A lucid introduction, including a brief biographical sketch, accompanies each of the featured philosophers. Classics of Philosophy is available in this single-volume edition and in two split volumes: Volume I, Ancient and Medieval, covers philosophers from the Pre-Socratics to William of Ockham, and Volume II, Modern and Contemporary, begins with Descartes and ends with Rawls.

Philosophy: The Classics Nigel Warburton, 2014-02-03

Now in its fourth edition, Philosophy: The Classics is a brisk and invigorating tour through the great books of western philosophy. In his exemplary clear style, Nigel Warburton introduces and assesses thirty-two philosophical classics, from Plato's Republic to Rawls's A Theory of Justice. The fourth edition includes new material on Montaigne's Essays, Thomas Paine's Rights of Man, R. G. Collingwood's The Principles of Art, Karl Popper's The Open Society and Its Enemies, Thomas Kuhn's The Structure of Scientific Revolutions. With a glossary and suggestions for further reading at the end of each chapter, this is an ideal starting point for anyone interested in philosophy.

50 Classic Philosophy Books Golgotha Press, 2011

An anthology of 50 classic philosophy works with an active table of contents to make it easy to quickly find the book you are looking for.
