**Impressionist Painting Its Genesis and Development** Wynford Dewhurst, 2023-02-09

Excerpt It may perhaps be interesting to the readers of this book to give a short account of its origin From the earliest days of my pupilage to art I had been instinctively drawn towards the paintings of Turner Corot Constable Bonington and Watts with an intense admiration for their manner in viewing and methods of recreating nature upon their canvases and in later years I had been fascinated by the works of more modern artists such as La Thangue George Clausen Edward Stott and Robert Meyerheim In 1891 a student in Paris I found myself face to face with a beautiful development of landscape painting

which was quite new to me Impressionism together with its numerous progeny of eccentric offshoots was at the time causing a great furore in the schools Curiously enough I had been charged with copying Monet s style long before I had seen his actual work so that my conversion into an enthusiastic Impressionist was short in fact an instantaneous process *Planet Aqua* Jeremy Rifkin,2024-07-09 What would happen if we were to awaken one day and suddenly realize that the world we live in appeared eerily alien as if we d been teleported to some other distant world That frightening prospect is now Our planetary hydrosphere which animates all of life on Earth is rebelling in the wake of a global warming climate spurring biblical spring floods devastating summer droughts heatwaves and wildfires and powerful autumn hurricanes and typhoons wreaking havoc on ecosystems and society For too long we have misjudged the very nature of our existence and to what we owe our lifeline We have come to believe that we live on a land planet when the reality is that we live on a water planet and now the Earth s hydrosphere is rewilding in the throes of a changing climate taking our species and our fellow creatures into a mass extinction event as it searches for a new equilibrium Jeremy Rifkin calls on us to rethink our place in the universe and realize that we live on Planet Aqua He takes us on a new journey into the future where we will need to reassess every aspect of the way we live how we engage nature govern society conceptualize economic life educate our children and even orient ourselves in time and space The next stage in the human journey is to rebrand our home Planet Aqua and learn how to readapt to the waters of life Underpinned by robust research this major new work by one of the world s leading public intellectuals aims to redefine the very core of our existence on Planet Aqua *Handbook of Research on Children's and Young Adult Literature* Shelby Wolf,Karen Coats,Patricia Enciso,Christine Jenkins,2011-04-27 This multidisciplinary handbook pulls together in one volume the research on children s and young adult literature which is currently scattered across three intersecting disciplines education English and library and information science **Text and Image** Richard Smith,2017-07-28 Expanding upon longstanding concerns in cultural history about the relation of text and image this book explores how ideas move across and between expressive forms The contributions draw from art and architectural history film theater performance studies and social and cultural history to identify and dissect the role that the visual and performing arts can play in the experience and understanding of the past The essays highlight the role of oral history in the documentation of the visual and performing arts They share a common set of questions as they explore firmly grounded in their distinctive disciplinary standpoints the circuit of word gesture object in the formation and reproduction of knowledge identity and community Blending theory and case study they cover subjects such as the response of artists to the South African Truth and Reconciliation Commission violence in Columbia and Mexico and the Balkan Wars the circuit of sexual desire in contemporary art and photography and sites of collective and personal memory including the Internet the urban landscape family photographs and hip hop Stressing the relationship of media to the formation of collective memory the volume explores how media intertextuality creates overlapping repertoires for understanding the past and the present Scholars of art
