The Traveling Artist in the Italian Renaissance David Young Kim, 2014-12-23 This important and innovative book examines artists' mobility as a critical aspect of Italian Renaissance art. It is well known that many eminent artists such as Cimabue, Giotto, Donatello, Lotto, Michelangelo, Raphael, and Titian traveled. This book is the first to consider the sixteenth-century literary descriptions of their journeys in relation to the larger Renaissance discourse concerning mobility, geography, the act of creation, and selfhood. David Young Kim carefully explores relevant themes in Giorgio Vasari's monumental Lives of the Artists in particular how style was understood to register an artist's encounter with place. Through new readings of critical ideas, long-standing regional prejudices, and entire biographies, The Traveling Artist in the Italian Renaissance provides a groundbreaking case for the significance of mobility in the interpretation of art and the wider discipline of art history.

Social Entrepreneurship in Art Therapy Jennifer Marie DeLucia, 2025-09-19 This book explores social entrepreneurship in art therapy through case studies presented by contributing authors highlighting the work of art therapists who have used innovative and collaborative approaches to increase access to art therapy services and promote system-level changes within the communities and institutions where they practice. As creative changemakers, art therapists are often developing innovative solutions to address social problems impacting the communities they serve. This book reveals practical aspects of these initiatives by offering strategies, skills, and practice-based examples. By addressing issues related to equity, inclusion, and access through innovative programming, grassroots advocacy, and policy development, the authors demonstrate how their entrepreneurial initiatives in art therapy produce social impact. Practitioners in art therapy and allied mental health professions will be inspired to seek and embrace opportunities for innovation.

A Social History of Modern Art, Volume 2 Albert Boime, 1993-05-15 In this second volume, Albert Boime continues his work on the social history of Western art in the Modern epoch. This volume offers a major critique and revisionist interpretation of Western European culture, history, and society from Napoleon's seizure of power to 1815. Boime argues that Napoleon manipulated the production of images as well as information generally in order to maintain his political hegemony. He examines the works of French painters such as Jacques-Louis David and Jean-Auguste-Dominique Ingres to illustrate how the art of the time helped to further the emperor's propagandistic goals. He also explores the work of contemporaneous English genre painters, Spain's Francisco de Goya, the German Romantics Philipp Otto Runge and Caspar David Friedrich, and the emergence of a national Italian art. Heavily illustrated, this volume is an invaluable social history of modern art during the Napoleonic era. Stimulating and informative, this volume will become a valuable resource for faculty and undergraduates. R W
