Mad Professor Rudy Rucker,2007 Much cyberpunk SF is grimly noir in depicting future shocked people trapped by their limitations but in this collection of 19 laid back yarns Rucker finds human dilemmas much too important to take seriously Jenna and Me for example co written with his son Rudy Rucker Jr shows President Bush s daughter brain wiped by agents of the conspiracy elite but eventually becoming the unwitting focus for an alien invasion that may remake humanity for the better Journals: 1990 - 2014 Rudy Rucker,2015-04-10 Ride the wave with Rudy Rucker author programmer mathematician professor cyberpunk hipster transrealist and family man A writer s journey Rucker composed Journals 1990 2014 over twenty five years A long running adventure Entries include Introspection and philosophizing sketches of daily life descriptions of Rucker s travels and notes on writing The Ware Tetralogy Rudy Rucker,2019-04-02 Rucker s four Ware novels Software Wetware Freeware and Realware form an extraordinary cyberweird future history with the heft of an epic fantasy novel and the speed of a quantum processor Still exuberantly fresh despite their age they primarily follow two

characters and their descendants Cobb Anderson who instigated the first robot revolution and is offered immortality by his grateful children and stoner Sta Hi Mooney who against his impaired better judgment becomes an important figure in robot human relations Over several generations humans robots drugs and society evolve but even weird drugs and the wisdom gathered from interstellar signals won't stop them from making the same old mistakes in new ways Rucker is both witty and serious as he combines hard science and sociology with unrelentingly sharp observations of all self-replicating beings This classic series well deserves its omnibus repackaging particularly suitable for libraries Publisher's Weekly Rudy Rucker is one of the modern heroes of science fiction one of the original cyberpunks The early cyberpunks only had a few writers who could be meaningfully called punks writers like John Shirley and Richard Kadrey but there was only one who could truly be called cyber Rudy Rucker Rucker is a mad professor a mathematician and computer scientist with a serious scholarly interest in the limits of computation and the physics and mathematics of higher dimension geometry But that's just about the only thing you can describe as serious when it comes to Rucker He's a gonzo wildman someone for whom trippy barely scratches the surface His work is shot through with weird sex weird drugs weird brain chemistry and above all weird science Cory Doctorow
