Asceticism And Anthropology In Irenaeus And Clement:

Asceticism and Anthropology in Irenaeus and Clement John Behr, 2000 This book examines the ways in which Irenaeus and Clement understood what it means to be human

Asceticism and Anthropology in Irenaeus and Clement John Behr, 2000 Irenaeus and Clement writing at the end of the 2nd century offer us very different views of holiness within the framework of the monastic ideal This book examines their philosophies of what it means to be a human being living in the presence of God

Deification and the Rule of Faith Daniel E. Wilson Ph.D., 2015-11-05 Evangelicals are often surprised or maybe even shocked whenever they encounter the early Church Fathers description of salvation in terms of deification divinization or apotheosis It was Athanasius the black dwarf the champion of Nicene orthodoxy who coined the phrase in his *On the Incarnation* God became man that man might become god Hundreds of years before Athanasius Irenaeus disciple of Polycarp disciple of the Apostle John wrote of Christs salvific provision for humanity using similar deification type concepts Why did these Church Fathers use such seemingly foreign biblical concepts Could it be that influential theologian Adolf Harnack is right and these church Fathers implementation of deification reveal that the gospel changed from what Jesus originally intended after being exposed to Hellenistic culture Not at all at least that is what this work argues It does so first by comparing an overall understanding of deification in both Athanasius and Irenaeus respective writings This section encompasses the first three chapters which exhibit how the Fathers use of deification is immersed in their respective descriptions of salvation history the Trinity and Christology Further this work assesses Harnacks proposal by comparing the Fathers respective descriptions of deification with that of many Greek and Roman philosophers Finally this work seeks to propose that both Irenaeus and Athanasius contextualize the gospel by comparing the Fathers respective descriptions of deification with their respective understandings of scriptural authority and the rule of faith

Nature Contemplation in Clement of Alexandria Doru Costache, 2025-06-13 This book examines Clement of Alexandria s interdisciplinary approach to nature contemplation which he terms physiology and physics showing its internal consistency even in the absence of a clear methodological outline It reconstructs Clement s method of nature contemplation which while discernible throughout his writings does not feature as such in one place Yet it exists within the second stage of the broader threefold roadmap of spiritual advancement which progresses from ethics to physics to divine vision epoptics Specifically Clement s physics itself has three steps analysis interpretation and the spiritual vision of the world To advance through the three stages of physics one must acquire virtue contemplative skills and sound information regarding the nature of things But only transformed people whom Clement calls holy gnostics saintly sages have access to the final stage gnostic physiology This third step amounts to an insightful noetic perception of nature irreducible to either keen observation or the information gathered and processed by way of analysis and interpretation This book presents Clement s method against the backdrop of ancient disciplines of nature contemplation and as paving the way for contemporary science engaged theology The volume is suitable

for postgraduate students and scholars of the history of science and religion religious studies early Christian and late antique studies and patristic studies particularly those working on Clement of Alexandria **Our Godly Sexual Beings** Donna Mack with Kristi Miller,2023-09-08 Our Godly Sexual Beings explores scripture and other ancient texts to unveil one of humanity's great mysteries God's purpose for designing our Godly sexual beings After thirty years of committed research and study Donna Mack perceived an essential missing link from the age old battle of God vs Satan While other books have attempted to discuss human sexuality none have done so with as many biblical and scholarly backed references as Our Godly Sexual Beings One fascinating revelation in scripture is just how sacred human sexuality exists for God The Bible sings with this truth and Donna dives into this mystery to reveal the greatest love story ever told With the help of over 1 300 references Donna uncovers God's design for sex and Satan's influence that morphed this gift into a lie of lust This book is full of many revelations and truths that will allow the reader to experience freedom from sexual sin shame and bondage *On Liturgical Asceticism* David W. Fagerberg,2013-03-04 Drawing on the Eastern Orthodox tradition of asceticism and integrating it with recent Western thought on liturgy David W Fagerberg examines the interaction between the two and presents a powerful argument that asceticism is necessary for understanding liturgy as the foundation of theology Clement and Scriptural Exegesis H. Clifton Ward,2022-06-16 How might one describe early Christian exegesis This question has given rise to a significant reassessment of patristic exegetical practice in recent decades and H Clifton Ward makes a new contribution to this reappraisal of patristic exegesis against the background of ancient Greco Roman education In tracing the practices of literary analysis and rhetorical memory in the ancient sources Clement and Scriptural Exegesis argues that there were two modes of archival thinking at the heart of the ancient exegetical enterprise the grammatical archive a repository of the textual practices learned from the grammarian and the memorial archive the constellations of textual memories from which meaning is constructed In a new treatment of the theological exegesis of Clement of Alexandria the first study of its kind in English scholarship this study suggests that an assessment of the reading practices that Clement employs from these two ancient archives reveals his deep commitment to scriptural interpretation as the foundation of a theological imagination Clement employs various textual practices from the grammatical archive to navigate the spectrum between the clarity and obscurity of Scripture resulting in the striking conclusion that the figurative referent of Scripture is one twofold mystery bound up in the incarnation of Christ and the higher knowledge of the divine life This twofold scriptural mystery is discovered in an act of rhetorical invention as Clement reads Scripture to uncover the constellations of texts about God Christ and humanity that frame its entire narrative The Church as Paradise and the Way Therein: Early Christian Appropriation of Genesis 3:22-24 Christopher A. Graham,2017-04-24 In The Church as Paradise and the Way Therein Early Christian Appropriation of Genesis 3 22 24 Christopher A Graham demonstrates that early Christian authors employed the words paradise and way as allusions to the expulsion narrative Genesis 3 22 24 to signify that the benefits available in

protological Paradise were once again accessible in and through Jesus and the Church. The centrality of the expulsion narrative in their literary milieus gave these authors confidence that readers would discern these allusions. After considering the reception of the expulsion in texts circulating within the early Christian milieu, Graham turns to the texts of Luke and Irenaeus of Lyons. Both authors drew from an interpretive tradition in which a return to Paradise was desirable. Both celebrated Jesus's reversal of Adam's expulsion and the constitution of Jesus's followers as the location and means by which humanity could continue to access divine truth and life. For both authors, the Church is Paradise and the way therein.

Scripting the Son Kyle R. Hughes, 2024-11-05 In *Scripting the Son*, Kyle R. Hughes analyzes how dialogical texts in the Old Testament presented early Christian exegetes with riddles that were best solved through a person-centered reading strategy known as prosopological exegesis. From the method's roots in the pages of the New Testament through its increasingly careful application in the hands of church fathers such as Justin, Irenaeus, Tertullian, and Origen, this book traces how prosopological exegesis contributed to the development of Christology in the pre-Nicene period. By examining the origins and evolution of this approach to biblical interpretation, Hughes demonstrates how the very words of Scripture exerted a pressure for a Trinitarian understanding of God that was rooted in the Old Testament and aligned with the emerging rule of faith, exemplifying the dynamic interplay between biblical interpretation and doctrinal formulation in the early centuries of Christianity.

The God of the Gospel Scott R. Swain, 2013-04-03 Scott R. Swain provides what might be the definitive critical reading of Robert Jenson's trinitarian theology from an evangelical perspective. Setting Jenson within the larger story of the twentieth-century trinitarian revival, Swain proposes constructive pathways back to a classical understanding of the Trinity.

Becoming Christian David G. Horrell, 2013-07-04 The first letter of Peter remains a relatively neglected corner of the New Testament; the number of monographs devoted to it is tiny compared with those on the Gospels and Pauline letters. Yet it is a text so this book argues that offers much insight into crucial processes in the development of Christian identity. In particular, 1 Peter illustrates with particular clarity the complex ways in which Christian identity was forged from Jewish traditions and negotiated in the generally hostile Roman empire. As such, studies of this particular letter illuminate central themes in the making of Christianity in the earliest centuries. *Becoming Christian* is a collection of essays that treat various facets of the first letter of Peter in its social and historical setting, in some cases using new social scientific and postcolonial methods to shed light on the ways in which the letter contributes to the making of Christian identity. At the heart of the book are chapters 5-7, which examine the contribution of 1 Peter to the construction of Christian identity, the persecution and suffering of Christians in Asia Minor, the significance of the name Christian, and the response of the letter to the hostility encountered by Christians in society. There are no recent books which bring together such a wealth of information and analysis of this crucial early Christian text. *Becoming Christian* has developed out of Horrell's ongoing research for the International Critical Commentary on 1 Peter. Together, these essays will offer a series of significant and original

engagements with this letter and a resource for studies of 1 Peter for some time to come **Conceptions of "Gospel" and Legitimacy in Early Christianity** James A. Kelhoffer, 2014-05-14 Whether he is asking about the role of New Testament exegesis among other academic disciplines the suppression of anger in Pauline writings or at what point came to designate a written Gospel James A Kelhoffer's patient and careful exegesis provides an intriguing lens through which to view early Christianity Many struggles of early Christ believers he finds reflect intra ecclesial struggles to establish the legitimacy of a view or a religious leader vis a vis competing ideologies or leaders Those already familiar with Kelhoffer's *Miracle and Mission* 2000 *The Diet of John the Baptist* 2005 and *Persecution Persuasion and Power* 2010 will find in this volume refreshing insights suggested but not developed in his other books **The Oxford Handbook of Christian Monasticism**

A number of official Catholic documents have stressed the importance of Christian humanism as a vehicle of Christian social teaching and indeed as a Christian philosophy of culture. Fundamentally, humanism aims to explore what it means to be human and what the grounds are for human flourishing. Featuring contributions from internationally renowned Christian authors from a variety of disciplines in the humanities, *Re-envisioning Christian Humanism* recovers a Christian humanist ethos for our time. The volume offers a chronological overview from patristic humanism to the Reformation and beyond and individual examples. Jewell Calvin of past Christian humanisms. The chapters are connected through the theme of Christian paideia as the foundation for liberal arts education.
