Touring Variety in the Asia Pacific Region, 1946-1975 Jonathan Bollen, 2020-05-06 Aviation extended the horizon of international touring across Asia and the Pacific in the 1950s and 1960s Nightclubs in Hong Kong Manila Melbourne Singapore Sydney Tokyo and Taipei presented an international array of touring acts This book investigates how this happened It explores the post war formation of the Asia Pacific region through international touring and the transformation of entertainment during the jet age of aviation Drawing on archival research across the region Bollen investigates how touring variety forged new relations between artists audiences and nations Mapping tours and tracing networks by connecting fragments he reveals how versatile artists translated repertoire in circulation as they toured and how entrepreneurial endeavours harnessed the production of national distinction to government agendas He argues that touring variety on commercial circuits diversified the repertoire in regional circulation anticipating the diversity emerging in state sanctioned multiculturalisms and driving the government construction of national theatres for cultural diplomacy      *Japan*

*and Asia-Pacific Integration* Pekka Korhonen, 2008-01-28 Japan and Asia Pacific Integration is a study of regional integration in the greater Pacific area during 1968-1996. It examines the political rationale of such international organisations as the Asia Pacific Economic Co-operation (APEC) forum and the East Asian Economic Caucus (EAEC). There is a focus on Japanese conceptions of regionalism and integration but the attitudes of other countries such as the United States, Australia, Malaysia and China are also explored. **The State of Asia-Pacific's Children 2008** UNICEF Staff, Patricia Moccia, 2008

**Soviet Socialist Realism and Art in the Asia-Pacific** Alison Carroll, 2024-10-08 This study evaluates how the ideology of Socialist Realism developed by the Soviets in policies and the practices of art has been influential in the Asia Pacific region from 1917 until today. Focusing primarily on Russia then China, Vietnam, Korea, Singapore, Indonesia, the Philippines and Australia, this book demonstrates how each society adopted and adapted the Soviet example to make some of the most important imagery of recent history. Included is an examination of how the practice of Western art history, the nature of art history in Asia and the forces of the Cold War have led to this influence being inadequately acknowledged across Asia and more widely. The book will be relevant to those interested in art history, Asian studies, political history and cultural history. **1980 Census of**

**Population**, 1988 *Globalisation and Defence in the Asia-Pacific* Geoffrey Till, Emrys Chew, Joshua Ho, 2009 Pacific Region Interdependencies, 1981 *Labour Mobility in the Asia-Pacific Region* Graeme Hugo, Soogil Young, 2008 Driven by demographic changes and reinforced by intensifying globalization, international labour mobility has been on the rise in recent decades in the Asia Pacific region. It seems that after trade and investment, labour mobility constitutes the final frontier for regional integration among the Asia Pacific economies. There is no doubt that labour movements are integral to regional economic integration and critical to the long-term health of the regional economies and business operations. In reality, however, such movements are much burdened with political and social problems in the labour origin economies as well as the labour destination economies, and yet many of these problems remain not just unaddressed by the relevant governments but not even well studied. The present volume seeks to fill this gap by offering synthesis papers stemming from the studies on international labour migration in twenty Asia Pacific economies which were discussed at a joint PECC/ABAC conference held in Seoul, Korea, on 25-26 March 2008, organized by KOPEC. These papers examine the demographic transition, the associated pattern of international labour migration, the national policies associated with it, as well as their implications for business and the issues they raise, and finally the implications of these analyses for cooperation among the APEC governments for each of the four subregions in the Asia Pacific as well as for the whole region. *Economic and Social Survey of Asia and the Pacific* United Nations. Economic and Social Commission for Asia and the Pacific, 1991 **Central Banking and Monetary Policy in the Asia-Pacific** Akhand Akhtar Hossain, 2009-01-01 The strength of this book is that it summarises a vast amount of the modern literature in monetary economics; the book provides detailed and clear descriptions of monetary models. This comprehensive volume is a useful compendium of the monetary economics literature of the second half of the 20th century.

which has to a certain extent been overtaken by events Paul Wachtel *Asian Pacific Economic Literature* This well researched and finely crafted book is a valuable addition to the literature on monetary policy in developing countries It explains the concepts and tools of monetary policy in a simple manner and discusses how monetary policy works in developing Asia in a historical context within the framework of an outward oriented development strategy I am not aware of any other book that covers the organisational and institutional aspects of major central banks in developing Asia Prema chandra Athukorala Australian National University This book elaborates the key concepts principles and models of inflation and monetary policy and explains how they remain relevant and useful to the design and conduct of monetary policy in developing Asia In this rapidly growing region price stability remains important and therefore monetary policy has gained increasing importance Even while emphasising the importance of the classical approach the book discusses alternative frameworks and points out areas where a consensus is emerging The review of the literature is extensive and careful Along with developing this theme the book reviews the structure and governance of most central banks in the Asia Pacific and discusses how they conduct monetary policy to achieve price stability under different monetary policy frameworks The book fills a gap in the central banking and monetary policy literature and has no close competitors It should be useful to both students and policymakers in developing Asia Salim Rashid University of Illinois US The 1997 East Asia crisis exposed many economic policy weaknesses in the Asia Pacific region In his latest book Dr Hossain provides students with a refreshing up to date reference text on the concepts and principles of money banking and finance in developing countries which differ in many ways to monetary institutions and practices in developed countries which conventional monetary textbooks focus on I thoroughly recommend it A P Thirlwall University of Kent UK This timely book reviews the modern literature on inflation and monetary policy and highlights contemporary issues in the design and conduct of monetary policy for price stability in developing Asia Akhand Akhtar Hossain surveys the evolution of central banking and provides an introduction to the structure function and governance of central banks in selected countries in the Asia Pacific The author also examines the major theories models and approaches to inflation and monetary policy and evaluates monetary policy regimes in selected countries in the Asia Pacific in a historical context This eloquent and comprehensible book will prove to be invaluable to undergraduate students on monetary theory and policy as well as banking and financial courses Researchers exploring monetary policy concepts principles and case studies will warmly welcome this book as will policy makers who have an interest in macroeconomics monetary and financial policies
