*Russian Security Policy in the Asia-Pacific Region: Two Views*, **Imperial Decline** Stephen Blank, Alvin Z. Rubinstein, 1997 The essays in *Imperial Decline* describe the major changes that have occurred in Russia's relations with China Japan and South Korea under Boris Yeltsin's presidency with speculation about both Russia's future in the region and the impact this future could have on relations with the United States Contributors to this volume demonstrate how incoherent taxation and investment uncoordinated and contradictory economic policies runaway inflation and currency instability and problems of defense now constrain the possibility of Russia expanding its economic influence in Asia This book is essential for students and scholars of international relations foreign policy and Russian history

**NATO Enlargement and the Baltic States** Stephen Blank, 1997 NATO's enlargement has brought it to the borders of the Baltic states who covet membership in NATO However admitting them into NATO is one of the most difficult problems for the Alliance because of Russia's unconditional opposition to such action and because of NATO's own internal divisions on this issue Nonetheless a new regime or system of security for the entire Baltic region must now be on the U S and European agenda The key players in such a process are Russia Germany and the United States Their actions will determine the limits of the possible in constructing Baltic security for the foreseeable future Dr Stephen Blank presents a detailed and extensive analysis of these three governments' views on Baltic and European security Their views on regional security are materially shaped by and influence their larger views on their mutual relations and policy towards Europe Their views also demonstrate the complexity of the issues involved in constructing Baltic not to mention European security But because NATO enlargement is the most serious foreign policy and defense issue before Congress now such an analysis can illuminate much of what is happening in the NATO enlargement process and why it has taken its current shape
