**In Defense of Asian American Studies** Sucheng Chan, 2005 In Defense of Asian American Studies offers fascinating tales from the trenches on the origins and evolution of the field of Asian American studies as told by one of its founders and most highly regarded scholars. Wielding intellectual energy, critical acumen, and a sly sense of humor, Sucheng Chan discusses her experiences on three campuses within the University of California system as Asian American studies was first developed in response to vehement student demand under the rubric of ethnic studies. Chan speaks by turns as an advocate and an administrator striving to secure a place for Asian American studies, as a teacher working to give Asian American students a voice, and as a white student's perspective on race and racism, and as a scholar and researcher still asking her own questions. The essays span three decades and close with a piece on the new challenges facing Asian American studies. Eloquently documenting a field of endeavor in which scholarship and identity define and strengthen each other, In Defense of Asian American Studies combines analysis, personal experience, and indispensable practical advice for those engaged in building and sustaining Asian American studies programs.

**Asian American Studies** Jean Yu-wen Shen Wu, Min Song, 2000 This anthology is the perfect introduction to Asian American studies as it both defines the field across disciplines and illuminates the centrality of the experience of Americans of South Asian, East Asian, Southeast Asian, and Filipino ancestry to the study of American culture, history, politics, and society. The reader is organized into two parts: The Documented Past and Social Issues and Literature. Within these broad divisions, the subjects covered include Chinatown stories, nativist reactions, exclusionism, citizenship, immigration, community growth, Asian American ethnicities, racial discourse, and the Civil Rights movement, transnationalism, gender, refugees, anti-Asian American violence, legal battles, class polarization, and many more. Among the contributors are such noted scholars as Gary Okihiro, Michael Omi, Yen Le Espiritu, Lisa Lowe, and Ronald Takaki; writers such as Sui Sin Far, Bienvenido Santos, Sigrid Nunez, and R. Zamora Linmark; as well as younger emerging scholars in the field.

*Asian American Studies Now* Jean Yu-Wen Shen Wu, Thomas Chen, 2010-03-08 Asian American Studies Now truly represents the enormous changes occurring in Asian American communities and the world changes that require a reconsideration of how the interdisciplinary field of Asian American studies is defined and taught. This comprehensive anthology, arranged in four parts and featuring a stellar group of contributors, summarizes and defines the current shape of this rapidly changing field, addressing topics such as transnationalism, U.S. imperialism, multiracial identity, racism, immigration, citizenship, social justice, and pedagogy. Jean Yu-wen Shen Wu and Thomas C. Chen have selected essays for the significance of their contribution to the field and their clarity, brevity, and accessibility to readers with little to no prior knowledge of Asian American studies. Featuring both reprints of seminal articles and groundbreaking texts, as well as bold new scholarship, Asian American Studies Now addresses the new circumstances, new communities, and new concerns that are reconstituting Asian America.
