The Dance of Death in the Middle Ages Elina Gertsman, 2010 Elina Gertsman's multifaceted study introduces readers to the imagery and texts of the Dance of Death an extraordinary subject that first emerged in western European art and literature in the late medieval era Conceived from the start as an inherently public image simultaneously intensely personal and widely accessible the medieval Dance of Death proclaimed the inevitability of death and declared the futility of human ambition Gertsman inquires into the theological socio-historic literary and artistic contexts of the Dance of Death exploring it as a site of interaction between text image and beholder Pulling together a wide variety of sources and drawing attention to those images that have slipped through the cracks of the art historical canon Gertsman examines the visual textual aural pastoral and performative discourses that informed the creation and reception of the Dance of Death and proposes different modes of viewing for several paintings each of which invited the beholder to participate in an active kinesthetic experience

Dance of Death Suzanne Walther, 2013-11-05 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company **Visual Cultures of Death in Central Europe** Aleksandra Koutny-Jones, 2015-09-17 In Visual Cultures of Death in Central Europe Aleksandra Koutny Jones explores the emergence of a remarkable cultural preoccupation with death in Poland Lithuania 1569-1795 Examining why such interests resonated so strongly in the Baroque art of this Commonwealth she argues that the printing revolution the impact of the Counter Reformation and multiple afflictions suffered by Poland Lithuania all contributed to a deep cultural concern with mortality Introducing readers to a range of art architecture and material culture this study considers various visual evocations of death including Dance of Death imagery funerary decorations coffin portraiture tomb chapels and religious landscapes These Koutny Jones argues engaged with wider European cultures of contemplation and commemoration while also being critically adapted to the specific context of Poland Lithuania The Dance of Death Hans Holbein, 2016-10-06 A new departure in Penguin Classics a book containing one of the greatest of all Renaissance woodcut sequences Holbein's bravura danse macabre One of Holbein's first great triumphs The Dance of Death is an incomparable sequence of tiny woodcuts showing the folly of human greed and pride with

each image packed with drama wit and horror as a skeleton mocks and terrifies everyone from the emperor to a ploughman Taking full advantage of the new literary culture of the early 16th century The Dance of Death took an old medieval theme and made it new This edition of The Dance of Death reproduces a complete set from the British Museum with many details highlighted and examples of other works in this grisly field Ulinka Rublack introduces the woodcuts with a remarkable essay on the late medieval danse macabre and the world Holbein lived in
