*George Seldes' War for the Public Good* Helen Fordham, 2019-11-14 This book examines the idea of fake news through an analysis of the work of early to mid twentieth century press critic George Seldes By examining fake news also known as propaganda and misinformation from this period it becomes evident that it is a phenomenon that emerges in response to particular social political and economic conditions It is therefore not a new process but always a feature of the media ecosystem Seldes work makes evident that contemporary anxieties about the role function future and credibility of journalism were expressed in the 1930s and 1940s The same fears were circulated about the consequences of fake news and propaganda on democratic debate The same concerns were also expressed about how technology extends the circulation of propaganda and fake news and affects journalism practices An analysis of Seldes media criticism of the fake news lies and propaganda in daily newspapers in the 1930s and 1940s exposes the historical nature and impact of fake news on public debate and affirms the critical role of journalists in exposing fake news

*The Long Night* Steve Wick, 2011-08-02 The story of legendary American journalist William L Shirer and how his first hand reporting on the rise of the Nazis and on World War II brought the devastation alive for millions of Americans When William L Shirer started up the Berlin bureau of Edward R Murrow's CBS News in the 1930s he quickly became the most trusted reporter in all of Europe Shirer hit the streets to talk to both the everyman and the disenfranchised yet he gained the trust of the Nazi elite and through these contacts obtained a unique perspective of the party's rise to power Unlike some of his esteemed colleagues he did not fall for Nazi propaganda and warned early of the consequences if the Third Reich was not stopped When the Germans swept into Austria in 1938 Shirer was the only American reporter in Vienna and he broadcast an eyewitness account of the annexation In 1940 he was embedded with the invading German army as it stormed into France and occupied Paris The Nazis insisted that the armistice be reported through their channels yet Shirer managed to circumvent the German censors and again provided the only live eyewitness account His notoriety grew inside the Gestapo who began to build a charge of espionage against him His life at risk Shirer had to escape from Berlin early in the war When he returned in 1946 to cover the Nuremberg trials Shirer had seen the full arc of the Nazi menace It was that experience that inspired him to write *The Rise and Fall of the Third Reich* the magisterial definitive history of the most brutal ten years the modern world had known which has sold millions of copies and has become a classic Drawing on never before seen journals and letters from Shirer's time in Germany award winning reporter Steve Wick brings to life the maverick journalist as he watched history unfold and first shared it with the world

**Disobedience and Conspiracy in the German Army, 1918-1945** Robert B. Kane, 2008-04-24 This work examines among other topics the personal oath of loyalty that the officers of the German army swore to Adolf

Hitler on August 2 1934 It discusses how the majority of officers those who did not become conspirators against him complied with Hitler's orders until May 1945 despite his cruel treatment of soldiers militarily unsound strategy and tactics and the widespread destruction and crimes he and his forces committed The oath taken by the officers had a strong psychological effect among a proud corps with a long history of obedience and honor They followed Hitler to the end even though they knew they were fighting a losing battle The author also examines why and how only a few officers the conspirators began to break away lose trust in Hitler oppose him and finally stage an assassination attempt This history traces the development within the German army from 1918 of the philosophies of loyalty and disloyalty and obedience and disobedience as challenged by the Hitlerian oath of loyalty **Rethinking the Nature of War** Isabelle Duyvesteyn, Jan Angstrom, 2005 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11 September 2001 in the United States This book re-evaluates these criticisms not only by scrutinising Clausewitz's arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war **The End of America** Naomi Wolf, 2007-09-05 A discussion of the ten classic steps taken by dictators to close down an open society compares them to the policies and laws produced by and attitudes reflected in the current administration in the United States *Catalog of Copyright Entries. Rossino, 2003 Usually given short shrift in most histories of World War II Hitler's invasion of Poland was more than a series of opening salvos it was a testing ground for German brutalities to come This is a comprehensive study of the campaign including insights into its ideological underpinnings **Hitler in Paris** Don Nardo, 2014 Examines the photojournalism of Heinrich Hoffman the personal photographer of Adolf Hitler and the impact Hoffman's photos had on events during the early years of World War II The Hitler Years: Triumph, 1933-1939 Frank McDonough, 2025-09-23 From historian Frank McDonough the first volume of a new chronicle of the Third Reich under Hitler's hand On January 30th 1933 Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg Within a few months he had installed a dictatorship jailing and killing his leftwing opponents terrorizing the rest of the population and driving Jews out of public life He embarked on a crash program of militaristic Keynesianism reviving the economy and achieving full employment through massive public works vast armaments spending and the cancellations of foreign debts After the grim years of the Great Depression Germany seemed to have been reborn as a brutal and determined European power Over the course of the years from 1933 to 1939 Hitler won over most of the population to his vision of a renewed Reich In these years of domestic triumph

cunning maneuvers pitting neighboring powers against each other and biding his time we see Hitler preparing for the moment that would realize his ambition But what drove Hitler's success was also to be the fatal flaw of his regime a relentless belief in war as the motor of greatness a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism *Catalogue of Copyright Entries* Library of Congress.
