The Image and Influence of America in German Poetry Since 1945 Gregory Divers, 2002 Examines the image of the US in German poetry and the reception and influence of American poetry in Germany since 1945 This book focuses on the image of the US in German poetry and the reception of American poetry in Germany since 1945 Gregory Divers examines poems by major figures in 20th century German literature Benn Brecht Bachmann Jandl and Grass among others and by other poets who shaped America's postwar image in Germany Divers traces America's postwar status in Germany from the prisoner of war poems of G nter Eich to the pop poetry of Rolf Dieter Brinkmann and Peter Handke Continuing he finds that although the 1960s protest poems of Erich Fried and others reflect the tarnishing of America's image due to Vietnam 1970s travel poems by Brinkmann Kunert and Kunze confirm the resiliency of that image Finally Divers looks at poems by Hartung Delius and Kling to illustrate the new heights reached by America's image within German literary circles during the 1980s and the status of America in Germany after reunification In charting these developments in postwar German poetry Divers also shows how American influences are crucial to its understanding not only surveying postwar German reception of Whitman Eliot Pound and William Carlos Williams but also examining the influence of such figures as Charles Olson and Robert Creeley Allen Ginsberg and the Beats Frank O Hara and John Ashbery and Robert Lowell and Sylvia Plath Gregory Divers is Assistant Professor of German at Saint Louis University

Tales of Berlin in American Literature up to the 21st Century Joshua Parker, 2016-03-17 Of all European cities Americans today are perhaps most curious about Berlin whose position in the American imagination is an essential

component of nineteenth century postwar and contemporary transatlantic imagology Over various periods Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe symbolizing the ultimate evil and the power of redemption This volume offers a comprehensive examination of the city's image in American literature from 1840 to the present Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels short stories plays and poems *Tales of Berlin* presents a composite landscape not only of the German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today **Touching Images of Delight and Sorrow**

Heinz-Dietrich Fischer, 2021 This volume presents highly emotional newspaper pictures from 1968-2020 many of them telling moving stories All images were decorated with the Pulitzer Prize for Feature Photography **The German Image of**

Kamalipour, 1999-01-01 Examines how peoples of other nations perceive the U S how media of other nations portray the U S and how exported media products impact the U S image around the world **Enemy Images in American History** Ragnhild Fiebig-von Hase, Ursula Lehmkuhl, 1998-01-01

It seems to be a tenet of the human condition to perceive others as different and potentially hostile. In nearly all societies stereotypes are developed to stigmatize suspected enemies within and without. The American case is particularly interesting in this respect because American society consists of nothing but others to be open to others and welcome those who are different is one of the basic tenets of the country. However this principle often conflicts with the need to integrate all these strangers into a homogeneous governable society which causes the formation of hostile stereotypes of certain ethnic groups that do not fit in. The authors in this volume look at the development of these enemy images which form a fairly consistent pattern from the period of the American Revolution to the post World War II era. In doing so they focus on the question of to what extent these enemy images influence the formulation and outcome of foreign domestic and immigration policies.

Friendly Fire Katherine Kinney, 2000-11-02 Hundreds of memoirs novels plays and movies have been devoted to the American war in Vietnam. In spite of the great variety of media political perspectives and the degrees of seriousness with which the war has been treated Katherine Kinney argues that the vast majority of these works share a single story that of Americans killing Americans in Vietnam. *Friendly Fire* in this instance refers not merely to a tragic error of war it also refers to America's war with itself during the Vietnam years. Starting from this point this book considers the concept of friendly fire from multiple vantage points and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered pitting soldiers against superiors doves against hawks feminism against patriarchy racial fear against racial tolerance. Through the use of extensive evidence from the film and popular fiction of Vietnam e.g. Kovic's *Born on the Fourth of July* Didion's *Democracy* O'Brien's *Going After Cacciato* Rabe's *Sticks and Bones* and *Streamers* Kinney draws a powerful picture of a nation politically culturally and socially divided and a war that has been memorialized as a contested site of art media politics and ideology.

The Image of the Black in Western Art David Bindman, Henry Louis Gates (Jr.), Karen C. C. Dalton, 2010 A pioneering work in the field of art history. *The Image of the Black in Western Art* is a comprehensive series of ten books which offers a lavishly illustrated history of the representations of people of African descent from antiquity to the present. Each book includes a series of essays by some of the most distinguished names in art history. Ranging from images of Pharaohs created by unknown hands almost 3 500 years ago to the works of the great masters of European and American art such as Bosch Durer Mantegna Rembrandt Rubens Watteau Hogarth Copley and Goya to stunning new media creations by contemporary black artists these books are generously illustrated with beautiful moving and often little known images of black people. Black figures queens and slaves saints and soldiers priests and prisoners dancers and athletes children and gods are central to the visual imagination of Western civilization. Written in accessible language the extensive and insightful commentaries on the illustrations by distinguished art historians make this series invaluable for the general reader and the specialist alike.
