Eyolf Østrem

Berliner Requiem:

The Cultural Heritage of Medieval Rituals Eyolf Østrem, 2005 The concepts of genre and ritual are central for the overall occupation with the relationship between the History of the Arts and the History of Christianity in Western Culture The present volume was planned on the basis of the first annual international conferences at the Centre for the Study of the Cultural Heritage of Medieval Rituals University of Copenhagen a collection of 15 essays with a wide range of topics both in terms of chronology and subject matter written The book is a special issue of the journal TRANSfiguration **"Verwisch die Spuren!": Bertolt Brecht's Work and Legacy**, 2015-06-29 This volume presents a cross section of current Brecht studies reflecting a variety of approaches and perspectives ranging from detailed exegesis of particular texts to cultural criticism in the broadest sense It provides analyses of Brecht's work and investigates his pervasive influence in 20th century literature The studies collected here cover the whole of Brecht's career from the early one acter Kleinbürgerhochzeit of 1919 to the Sinn und Form years immediately preceding his death as well as his use of tradition and his legacy By way of redressing a tendency in Brecht reception to regard him mainly as a dramatist the volume covers novels poetry film photography journalism and theory as well as plays The Drowned Muse Anne-Gaëlle Saliot, 2015 The Drowned Muse is a study of the extraordinary destiny in the history of European culture of an object which could seem at first glance quite ordinary in the history of European culture It tells the story of a mask the cast of a young girl's face entitled L'Inconnue de la Seine the Unknown Woman of the Seine and its subsequent metamorphoses as a cultural figure Legend has it that the Inconnue drowned herself in Paris at the end of the nineteenth century The forensic scientist tending to her unidentified corpse at the Paris Morgue was supposedly so struck by her allure that he captured in plaster the contours of her face This unknown girl also called The Mona Lisa of Suicide has since become the object of an obsessive interest that started in the late 1890s reached its peak in the 1930s and continues to reverberate today Aby Warburg defines art history as a ghost story for grown ups This study is similarly a ghost story for grown ups narrating the aura of a cultural object that crosses temporal geographical and linguistic frontiers It views the Inconnue as a symptomatic expression of a modern world haunted by the earlier modernity of the nineteenth century It also investigates how the mask's metamorphoses reflect major shifts in the cultural history of the last two centuries approaching the Inconnue as an entry point to understand a phenomenon characteristic of 20th and 21st century modernity the translatability of media Doing so this study mobilizes discourses surrounding the Inconnue casting them as points of negotiation through which we may consider the modern age The German Cabaret Legacy in American Popular Music William Farina, 2013-01-28 The stylistic remnants of cabaret music from Weimar era Germany are all around us During the 20th century its most prominent American exponents were the Germans Marlene Dietrich and Lotte Lenya whose careers extended through the 1970s Because of them and others the words and music of such artists as Kurt Weill Bertolt Brecht Friedrich Hollaender and Marcellus Schiffer continue to be heard and exert

widespread influence Major songwriters touched by cabaret include Lennon McCartney Bacharach David Kander Ebb Bob Dylan Randy Newman and Patti Smith among many others African American artists beginning with Louis Armstrong have been sympathetic interpreters of cabaret music Modern day Las Vegas appears to be the fulfillment of a prophecy made in the late 1920s by Weill Brecht in their Mahagonny stage works And today the German Kabarett tradition remains strong with such stars as Ute Lemper and Max Raabe packing international venues Directory of Choral-orchestral Music Michael Rosewall,2007 This directory is the most comprehensive index of music written for orchestra with chorus in print today Offering performance information about choral works by more than 900 conductors the more than 3 500 entries include such details as instrumentation languages timings publishers and composer information in an easy to follow reference style Users can also browse categorized appendices of works composers and popular and original titles **Weill's Musical Theater** Stephen Hinton,2012-04-10 In the first musicological study of Kurt Weill s complete stage works Stephen Hinton charts the full range of theatrical achievements by one of twentieth century musical theater s key figures Hinton shows how Weill s experiments with a range of genres from one act operas and plays with music to Broadway musicals and film opera became an indispensable part of the reforms he promoted during his brief but intense career Confronting the divisive notion of two Weills one European the other American Hinton adopts a broad and inclusive perspective establishing criteria that allow aspects of continuity to emerge particularly in matters of dramaturgy Tracing his extraordinary journey as a composer the book shows how Weill s artistic ambitions led to his working with a remarkably heterogeneous collection of authors such as Georg Kaiser Bertolt Brecht Moss Hart Alan Jay Lerner and Maxwell Anderson Grief, Identity, and the Arts Bram Lambrecht,Miriam Wendling,2022-11-28 Death and grief have often elicited the response of creativity from elegies and requiems to memorial architecture Such artistic expressions of grief form the focus of Grief Identity and the Arts which brings together scholars from the disciplines of musicology literature sociology film studies social work and museum studies While presenting one or more case studies from a range of artistic disciplines historical periods or geographical areas each chapter addresses the interdependence of grief and identity in the arts The volume as a whole shows how artistic expressions of grief are both influenced by and contribute to constructions of religious national familial social and artistic identities Contributors to this volume Tammy Clewell Lizet Duyvendak David Gist Maryam Haiawi Owen Hansen Maggie Jackson Christoph Jedan Bram Lambrecht Carlo Leo Wolfgang Marx Tijn Nuyts Despoina Papastathi Julia P aczkiewicz Bavjola Shatro Caroline Supply Nicolette van den Bogerd Eric Venbrux Janneke Weijermars Miriam Wendling and Mariske Westendorp

professional development this Companion provides a unique overview of choral music **Scandal on Stage** Theodore Ziolkowski, 2009-09-24 This book analyses how the outrage caused by controversial plays or productions reflects the moral standards of the time *Schoenberg* Malcolm MacDonald, 2008-09-26 In this completely rewritten and updated edition of his long indispensable study Malcolm MacDonald takes advantage of 30 years of recent scholarship new biographical information and deeper understanding of Schoenberg's aims and significance to produce a superb guide to Schoenberg's life and work MacDonald demonstrates the indissoluble links among Schoenberg's musical language particularly the enigmatic and influential twelve tone method his personal character and his creative ideas as well as the deep connection between his genius as a teacher and as a revolutionary composer Exploring newly considered influences on the composer's early life MacDonald offers a fresh perspective on Schoenberg's creative process and the emotional content of his music For example as a previously unsuspected source of childhood trauma the author points to the Vienna Ringtheater disaster of 1881 in which hundreds of people were burned to death including Schoenberg's uncle and aunt whose orphaned children were then adopted by Schoenberg's parents MacDonald brings such experiences to bear on the music itself examining virtually every work in the oeuvre to demonstrate its vitality and many sidedness A chronology of Schoenberg's life a work list an updated bibliography and a greatly expanded list of personal allusions and references round out the study and enhance this new edition **Franz Schreker, 1878-1934** Christopher Hailey, 1993-03-18 Franz Schreker was the most frequently performed opera composer of his generation His controversial works dominated the central European repertory in the years after the First World War and exercised a major influence on such younger contemporaries as Alban Berg Kurt Weill and Ernst Krenek Forced into retirement by Hitler's racial decrees in 1933 the composer his music banned died a broken man Thereafter Schreker became a forgotten chapter in the history of new music Schreker's music is only now beginning to enjoy a revival This first major biography not only introduces the reader to this important repertory but sets the composer's life and works in the context of his turbulent times Franz Schreker is a dramatic narrative of an artist poised between the intoxicating late Romanticism of fin de siècle Vienna and the sober New Objectivity of Weimar Berlin between a precipitous rise to fame and an equally sudden fall from favor in which aesthetic fashion and political intrigue played their parts Above all the Schreker phenomenon can provide a key to understanding the evolution of musical thought during the problematic years before and after the First World War Music and Performance During the Weimar Republic Bryan Randolph Gilliam, 1994-07-21 Composers performers and audiences alike sought to negate their recent past in various ways by affirming modern technology electronic or mechanical music sound recordings radio and film exploring music of a more remote past principally Baroque music and celebrating popular music particularly jazz The essays contained in this volume address these fundamental themes Physical John Graham-Pole, 2001 David Bowie , **Theatre History Studies 2016, Vol. 35** Sara Freeman, 2016-12-06 Rosemarie K Bank and Michal Kobialka eds Theatre Performance Historiography Time Space
