## **Bernard Carr:**

*Science, Consciousness and Ultimate Reality* David Lorimer, 2004 The Science Consciousness and Ultimate Reality project was set up with the support of the John Templeton Foundation in order to examine critical issues at the interface between science religion and the field of consciousness studies *American Catholic Arts and Fictions* Paul Giles, 1992-06-26 Examines how secular transformations of religious ideas have helped to shape the style and substance of works by American writers filmmakers and artists from Catholic backgrounds *Bernard Carr* James Thomas Farrell, 1946 A young writer comes to New York to make a name for himself ***The Genesis of the Chicago Renaissance*** Mary Hricko, 2013-09-05 This study examines the genesis of Chicago's two identified literary renaissance periods 1890 1920 and 1930 1950 through the writings of Dreiser Hughes Wright and Farrell The relationship of these four writers demonstrates a continuity of thought between the two renaissance periods By noting the affinities of these writers patterns such as the rise of the city novel the development of urban realism and the shift to modernism are identified as significant connections between the two periods Although Dreiser Wright and Farrell are more commonly thought of as Chicago writers this study argues that Langston Hughes is a transitional pivotal figure between the two periods Through close readings and contextualization the influence of Chicago writing on American literature in such areas as realism and naturalism as well as proletarian and ethnic fiction becomes apparent *The Fallen Priest. Story Founded on Fact* Henry Morgan, 2024-02-29 Reprint of the original first published in 1883 *Irreconcilable Differences?* Jason C. Robinson, David Peck, 2015-03-17 What if philosophy theology and science spent a little more time together These fields often seem at odds butting metaphysical heads Instead of talking at how about talking with one another This book engages three academic disciplines distinct yet sharing much in common in a slice of conversation and community in which participants have aimed at validating the other and the way the other sees the world The result is a collection of essays united by a thread that can be hard to find in academia In bringing together a wide range of contributors on a project that at first seemed unlikely *Irreconcilable Differences* is also a testament to the spirit of cooperation and hard work evidence that small acts and events can make a big difference and that sometimes all you need in order to make something good happen is an idea with a little support along the way The editors of this collection are hopeful that its contributors and readers will keep looking for ways to bridge academic social and political gaps We need to forge relationships based on personal knowledge and proper confidence seeking to make meaningful claims in an increasingly complex world ***The Oxford Handbook of Modern Irish Fiction*** Liam Harte, 2020 Presents essays by thirty five leading scholars of Irish fiction that provide authoritative assessments of the breadth and achievement of Irish novelists and short story writers ***Formation and Evolution of Galaxies and Large Structures in the Universe*** J. Audouze, J.T.T. Van, 2012-12-06 Proceedings of the NATO Advanced Study Institute La Plagne France March 1983 ***The Face of Time*** James Thomas Farrell, 2008 A sprawling tale of immigrant families struggles with harsh urban
