Households of the Soul Vincent P. Pecora, 1997 The household There are few ideas so freighted with meaning and emotion so vital to other notions of life and society or so prone to distortion and fantasy At once the fundamental idea of classical economics and politics the household constitutes a primary element of social thought But a household is no simple thing or even a single thing Instead it is an idea that has been shaped hardened cracked repaired demolished rebuilt canonized despised and fought over since Aristotle s time In Households of the Soul Vincent Pecora surveys the modern progress of an idea that is never far from the center of social controversy and political struggle He examines key arguments that have shaped debates about household and clan as well as culture and language Pecora focuses on modernity s fascination with real and imaginary households whose archaic resonances recall the patron client relations gift exchanges and magical thinking of the past He examines a wide range of literary works and critical issues from Tennyson s Ulysses to Joyce s from Morgan s anthropology and Durkheim s sociology to Baudrillard s symbolic economy from Hegel s ethics to George Gilder s entrepreneurial potlatch Pecora s compelling analysis is the first attempt to provide a comprehensive account of the modern era s atavistic spiritual household The imaginary household of the soul is an enchanted theoretical gens that has been at or very near the center of modernism s sacred aesthetic economy and it is a vision of culture that
