Bertha The Sewing Machine Girl Or Death At The Wheel:

Bertha the Sewing-machine Girl, Or, Death at the Wheel Francis Shubael Smith, 1885 **Bertha the Sewing Machine Girl, Or, Death at the Wheel!** Francis Shubael Smith, 1871 Paternalism Incorporated David Leverenz, 2004 Between the Civil War and World War I David Leverenz maintains the corporate transformation of American work created widespread desire for upward mobility along with widening class divisions In his view several significant narrative constructs notably the daddy s girl and the daddy s boy emerge at the intersection between paternalist practices and more democratic possibilities for self advancement From Mark Twain s Laura Hawkins in *The Gilded Age* to the protagonist of Theodore Dreiser s *Sister Carrie* and Willa Cather s Alexandra Bergson in *O Pioneers* Leverenz finds that the image of the daddy s girl constrains the emerging threat of the career woman even as it articulates the lure of upward mobility for women In surveying the figure of the daddy s boy Leverenz examines tensions between young men s desires for upward mobility and older men s desires for paternal control *Paternalism Incorporated* also addresses yearnings for individualism and paternalism in various critiques of the emerging corporation Another chapter links honor and shaming to race in the philanthropic practices of Andrew Carnegie and John D Rockefeller framed with narratives by William Dean Howells Booker T Washington and Jane Addams After showing how a daddy s girl becomes a paternalist in Henry James s *The Golden Bowl* Leverenz considers F Scott Fitzgerald s *Tender is the Night* as paternalism s elegy contrasted with the Shirley Temple film *The Little Colonel*

Anderson, 2014-10-16 With their rakish characters sensationalist plots improbable adventures and objectionable language like swell and golly dime novels in their heyday were widely considered a threat to the morals of impressionable youth Roundly criticized by church leaders and educators of the time these short quick moving pocket sized publications were also inevitably wildly popular with readers of all ages This work looks at the evolution of the dime novel and at the authors

Progressive Politics in American Film won the 2016 Peter Rollins Prize He has published scholarly essays on classical Hollywood filmmakers film criticism for The Notebook at Mubi com and literary essays for journals like Chicago Quarterly Review and Hotel Amerika He has a Ph D in Cinema Studies from New York University where he teaches now in the Expository Writing Program The American Novel to 1870 J. Names and Nunavut Valerie Alia, 2008-11 On the surface naming is simply a way to classify people and their environments The premise of this study is that it is much more a form of social control a political activity a key to identity maintenance and transformation Governments legislate and regulate naming people fight to take keep or change their names A name change can indicate subjugation or liberation depending on the circumstances But it always signifies a change in power relations Since the late 1970s the author has looked at naming and renaming cross culturally and internationally with particular attention to the effects of colonisation and liberation The experience of Inuit in Canada is an example of both Colonisation is only part of the Nunavut experience Contrary to the dire predictions of cultural genocide theorists Inuit culture particularly traditional naming has remained extremely strong and is in the midst of a renaissance Here is a ground breaking study by the founder of the discipline of political onomastics Pub website **America as Second Creation** David E. Nye, 2004-09-17 An exploration of the dialogue that emerged after 1776 between different visions of what it meant to use new technologies to transform the land After 1776 the former American colonies began to reimagine themselves as a unified self created community Technologies had an important role in the resulting national narratives and a few technologies assumed particular prominence Among these were the axe the mill the canal the railroad and the irrigation dam In this book David Nye explores the stories that clustered around these technologies In doing so he rediscovers an American story of origins with America conceived as a second creation built in harmony with God s first creation While mainstream Americans constructed technological foundation stories to explain their place in the New World however marginalized groups told other stories of destruction and loss Native Americans protested the loss of their forests fishermen resisted the construction of dams and early environmentalists feared the exhaustion of resources A water mill could be viewed as the kernel of a new

community or as a new way to exploit labor. If passengers comprehended railways as part of a larger narrative about American expansion and progress, many farmers attacked railroad land grants. To explore these contradictions, Nye devotes alternating chapters to narratives of second creation and to narratives of those who rejected it. Nye draws on popular literature, speeches, advertisements, paintings, and many other media to create a history of American foundation stories. He shows how these stories were revised periodically as social and economic conditions changed without ever erasing the earlier stories entirely. The image of the isolated frontier family carving a homestead out of the wilderness with an axe persists to this day alongside later images and narratives. In the book's conclusion, Nye considers the relation between these earlier stories and such later American developments as the conservation movement, narratives of environmental recovery, and the idealization of wilderness.
