Bess Of Hardwick Portrait Of An Elizabethan Dynast:

Bess of Hardwick David N. Durant, 1977 *Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs*, 1999 This anthology reflects a larger impulse to recover women's involvement in the creation of an aesthetic culture from the late medieval through the early modern periods. By asking how the perspectives and experiences of female patrons contributed to the invention of particular styles or iconographies or how they shaped taste or how they influenced demand, these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally. While most of the projects discussed are consistent with the period's male sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion at the same time the women involved devised strategies that circumvented these rules allowing them to explore the potential of art as a means of proclaiming their own identity and taste. *Vagrancy, Homelessness, and English Renaissance Literature* Linda Woodbridge, 2001 Woodbridge shows that the prevailing image of the vagrant poor in Renaissance England, sturdy comical resourceful rogues who were adept at living on the fringes of society, was essentially a literary fabrication pressed into the service of specific social and political agendas. **Domestic Culture in Early Modern England** Antony Buxton, 2015 A detailed study of the domestic life of the early modern non elite household. This book is a detailed study of the domestic life of the early modern non elite household focussing on the Oxfordshire market town of Thame. Going beyond the exploration of the domestic economy and trends in living standards and consumption, it shows how close examination of the material context within which the household operated can provide evidence of its habitual activities, the relationships between its members, and the values that informed both. The book uses a familiar source, the probate inventory, supplemented by other contemporary written and pictorial evidence to reveal how activities in the household were directly related to the agricultural, mercantile, and social environment. It illustrates the variable and shifting nature of social relationships and shows how the early modern household was part of the wider economic and social narrative of modernism and how it responded to altered modes of production and consumption, social allegiances, and ideologies. Offering new perspectives to reinvigorate the discussion of domestic relationships and rigorously examine the vexed question of change, *Domestic Culture in Early Modern England* will be of interest to scholars and postgraduate students of material culture as well as historians of the household and family more generally. ANTONY BUXTON lectures on design history, material and domestic culture for the Department for Continuing Education, University of Oxford, and other institutions. He has published articles in various scholarly journals and holds a PhD from the University of Oxford. **Women's Wealth and Women's Writing in Early Modern England** Elizabeth Mazzola, 2016-12-05 Focusing on both literary and material networks in early modern England, this book examines the nature of women's wealth, its peculiar laws of transmission and accumulation, and how a world of goods and favors, mothers and daughters, was transformed by market culture. Drawing on the long and troubled relationship between Elizabeth

Tudor Mary Stuart Bess of Hardwick and Arbella Stuart Elizabeth Mazzola more broadly explores what early modern women might exchange with or leave to each other including jewels and cloth needlework combs and candlesticks Women's writings take their place in this circulation of material things and Mazzola argues that their poems and prayers letters and wills are particularly designed with the aim of substantiating female ties This book is an interdisciplinary one making use of archival research literary criticism social history feminist theory and anthropological studies of gift exchange to propose that early modern women whatever their class educational background or marital status were key economic players actively pursuing favors trading services and exchanging goods *Women's Agency in Early Modern Britain and the American Colonies*

Rosemary O'Day, 2014-06-11 Women in early modern Britain and colonial America were not the weak husband and father dominated characters of popular myth Quite the reverse strong women were the norm They exercised considerable influence as important agents in the social economic religious and cultural life of their societies This book shows how women on both sides of the Atlantic while accepting a patriarchal system with all its advantages and disadvantages contrived to carve out for themselves meaningful lives Unusually it concentrates not only on the making and meaning of marriage but also upon the partnership between men and women It also looks at the varied roles cultural religious and educational that women played both inside and outside marriage during the key period 1500-1760 Women emerge as partners patrons matchmakers investors and network builders *Lady Mary Wortley Montagu* Isobel Grundy, 1999 This book is the first to look at Lady

Mary Wortley Montagu's achievement as a vital figure in the women's literary tradition Robert Halsband's book on her life the sixth in this century and published in 1956 was the first to apply scholarly techniques to establishing the facts The inaccurate accounts given before Halsband testify to Lady Mary's compelling interest as a woman who wrote travelled campaigned publicly for medical advance gossiped and was involved in high profile literary quarrels Knowledge of her life has made considerable gains since Halsband's understanding of the issues involved in trying to move between the roles of proper lady and woman writer has increased enormously This life fruitfully exploits the tension between literary history and feminist reading Isobel Grundy highlights Montagu's adolescent longing for literary fame her growing understanding of the implications of this for gender and class imperatives the frustrations and concessions involved in her collaborations with male writers the punitive responses of society the gaps at every stage of her life between her ascertainable circumstances and her construction of herself in letters and other writings The book situates those writings in relation to her own theorizing and her very wide reading in women's texts as well as men's Finally it looks at a range of contemporary and near contemporary responses **Women, Reform and Community in Early Modern England** Melissa

Franklin-Harkrider, 2008 Katherine Willoughby, duchess of Suffolk was one of the highest ranking noblewomen in sixteenth century England She wielded considerable political power in her local community and at court and her social status and her commitment to religious reform placed her at the centre of the political and religious developments that shaped the English

Reformation By focusing on her kinship and patronage network this book offers an examination of the development of Protestantism in the governing classes during the period The importance of gender in the process of spiritual transformation emerges clearly from this study showing how the changing religious climate provided new opportunities for women to exert greater influence in their society **BOOK JACKET** **Country House Discourse in Early Modern England** Kari Boyd

Merry E. Wiesner-Hanks,2016-03-03 How did gender figure in understandings of spatial realms from the inner spaces of the body to the furthest reaches of the globe How did women situate themselves in the early modern world and how did they

move through it in both real and imaginary locations How do new disciplinary and geographic connections shape the ways we think about the early modern world and the role of women and men in it These are the questions that guide this volume which includes articles by a select group of scholars from many disciplines Art History Comparative Literature English German History Landscape Architecture Music and Women s Studies Each essay reaches across fields and several are written by interdisciplinary groups of authors The essays also focus on many different places including Rome Amsterdam London and Paris and on texts and images that crossed the Atlantic and the Mediterranean or that portrayed real and imagined people who did Many essays investigate topics key to the spatial turn in various disciplines such as borders and their permeability actual and metaphorical spatial crossings travel and displacement and the built environment

The Edge of Christendom on the Early Modern Stage Lisa Hopkins,2022-03-07 Throughout the sixteenth and seventeenth centuries the edges of Europe were under pressure from the Ottoman Turks This book explores how Shakespeare and his contemporaries represented places where Christians came up against Turks including Malta Tunis Hungary and Armenia Some forms of Christianity itself might seem alien so the book also considers the interface between traditional Catholicism new forms of Protestantism and Greek and Russian orthodoxy But it also finds that the concept of Christendom was under threat in other places some much nearer to home Edges of Christendom could be found in areas that were or had been pagan such as Rome itself and the Danelaw which once covered northern England they could even be found in English homes and gardens where imported foreign flowers and exotic new ingredients challenged the concept of what was native and natural

The Other Queen Philippa Gregory,2008-09-16 Presents a tale inspired by the story of Mary Queen of Scots in a work that follows the doomed monarch s long imprisonment in the household of the Earl of Shrewsbury and his spying wife Bess

Writing Renaissance Queens Lisa Hopkins,2002 This book examines writing both by and about Renaissance women rulers It offers detailed analyses of poems letters and other writings by both Elizabeth I and Mary Queen of Scots and situates these firmly within the context of other literary figurings of Renaissance queens and queenship It looks at a range of texts ranging from the polemical and largely ephemeral treatises on the questions of female rule which were prompted by the sudden explosion of women rulers to works by Shakespeare Milton and Elizabeth Cary as well as the anonymous Arden of Faversham The book as a whole thus explores both how Renaissance queens wrote themselves and how they were written by others

Renaissance Culture and the Everyday Patricia Fumerton,Simon Hunt,2014-06-10 It was not unusual during the Renaissance for cooks to torture animals before slaughtering them in order to render the meat more tender for women to use needlepoint to cover up their misconduct and prove their obedience and for people to cover the walls of their own homes with graffiti Items and activities as familiar as mirrors books horses everyday speech money laundry baskets graffiti embroidery and food preparation look decidedly less familiar when seen through the eyes of Renaissance men and women In Renaissance Culture and the Everyday such scholars as Judith Brown Frances Dolan Richard Helgersen Debora Shuger Don

Wayne and Stephanie Jed illuminate the sometimes surprising issues at stake in just such common matters of everyday life during the Renaissance in England and on the Continent Organized around the categories of materiality women and transgression and constantly crossing these categories the book promotes and challenges readers thinking of the everyday While not ignoring the aristocratic it foregrounds the common person the marginal and the domestic even as it presents the unusual details of their existence What results is an expansive variegated and sometimes even contradictory vision in which the strange becomes not alien but a defining mark of everyday life

English Aristocratic Women, 1450-1550 Barbara Jean Harris, 2002 This work based on archival research combines a collective portrait of aristocratic women with an analysis of the particular class specific form of patriarchy and gender relations that flourished among the upper classes in Yorkist and early Tudor England

Ecocriticism and Early Modern English Literature Todd A. Borlik, 2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism s current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings

The Ashgate Research Companion to Women and Gender in Early Modern Europe Jane Couchman, 2016-03-23 Over the past three decades scholars have transformed the study of women and gender in early modern Europe This Ashgate Research Companion presents an authoritative review of the current research on women and gender in early modern Europe from a multi disciplinary perspective The authors examine women s lives ideologies of gender and the differences between ideology and reality through the recent research across many disciplines including history literary studies art history musicology history of science and medicine and religious studies The book is intended as a resource for scholars and students of Europe in the early modern period for those who are just beginning to explore these issues and this time period as well as for scholars learning about aspects of the field in which
