Stein,T.L. children The American response to this problem took shape in the early 1970s when government at the local state and 4 federal levels undertook to fund permanency planning projects Permanency planning projects were charged with developing and testing procedures that would increase the likelihood that children would move out of substitute care arrangements into permanent family homes either through restoration to their biological families termination of parental rights and subsequent adoption court appointment of a legal guardian or planned emancipation for older children Long term foster care if it was a planned outcome supported by the use of written agreements between foster parents and child care agencies was recognized as an appropriate option for some children 2 DECISION MAKING IN CHILD WELFARE Permanency planning projects have had a direct effect on the substantive aspects of social work practice in child welfare *The Continuum Encyclopedia of Children's Literature* Bernice E.
