## **Best Of Bridge Today Digest:**

*The Best of Bridge Today Digest* Matthew Granovetter, Pamela Granovetter, 2001 Bridge Today Digest recently celebrated its first anniversary and 100th issue as an Internet based bridgezine. It is renowned for its practical advice, its wonderful bridge stories and the wry humour and personal touch of its editors. For this collection they have selected the very best pieces from their first year and come up with a compendium that every bridge player can read, enjoy and learn from. It includes short pieces from world renowned writers, questions and comments from readers and the editors' responses to them and a wealth of fascinating hands, anecdotes and advice from the editors.

**25 Bridge Myths Exposed** David Bird, 2002 Do you remember the first few times you played bridge? To get you started, a friend probably gave you a few helpful hints, perhaps one of the ones listed to the left. There are many such general guidelines for bridge players, some of them valuable, some not. But these are the Bridge Myths, not the Bridge Rules, because they all have exceptions and none should be followed blindly. In reading this book, you will get to see what it is about each guideline that makes it so useful; more importantly, you will also learn to recognize the times when you should ignore it.

**DECLARER'S MYTHS** Draw trumps straight away. Hold up an ace. Win as cheaply as possible. Play low in second seat. Eight ever nine never. Ruff losers in the dummy. Finesse whenever you can. Play on your longest suit first. Lead towards high cards. Ruff the defenders' winners. Lead low to a trick. Run your longest suit. Leave the big decision until last.

**DEFENDER'S MYTHS** Third hand high. Return partner's suit. Cover an honor with an honor. Second hand low. Capture an honor with an honor. Lead through strength. Discard from your weakest suit. Score a ruff when you can. Never give a ruff and sluff. Split your honors. Follow low when a trick is lost. Don't ruff partner's winner.

David Bird, who lives near Southampton, England, has written more than 100 books on the game. Despite spending much of the year travelling, he still finds time to write new stories every month for a host of magazines around the world, usually featuring his best known characters, the monks of St Titus Abbey. He is also a regular commentator on BBO broadcasts of top level competitions.

**Frank Stewart's Bridge Club** Frank Stewart, 2003 A collection of hands that take the reader through a year at the author's fictional bridge club. The characters make all the common errors so the author manages to instruct while he entertains. For fans of Stewart's enormously popular syndicated bridge column in which these characters appear regularly.

**Bridge Squeezes for Everyone** David Bird, 2002 Squeezes are an aspect of bridge declarer play that many intermediate players think they will never grasp. Yet while squeezes can be extremely complex, the basic principles of squeeze play are not. This is the first comprehensive book on squeeze play since Clyde E Love's classic *Bridge Squeezes Complete* and much more approachable. Using the same straightforward conversational style with recaps and quizzes that characterised the *Bridge Technique* series, this book will make squeezes understandable to many readers who have been afraid to attempt to learn them.

*The Bridge World's Test Your Play* Jeff Rubens, 2002 Perhaps the world's most prestigious bridge magazine, *The Bridge World*, each month features a column entitled *Test Your Play* which consists of two difficult problems in declarer play.

for readers to solve In this book Jeff Rubens has collected some of his favourite hands from this column and presents them as a compendium for those who like a serious intellectual challenge There is a steady market for problem books of this kind and this collection is guaranteed to be of high quality

**Bridge** Barbara Seagram, David Bird, 2003 Another title in the best selling 25 series from award winning author and master teacher Barbara Seagram and using the same popular format as earlier books Other titles in the series have revolved around bidding this one deals with the play of the cards as declarer a major topic in beginner and intermediate bridge lessons As usual in this series basic ideas on the strategies and tactics available to declarer are covered comprehensively in the early part of the book while in later chapters more advanced players will find ideas and topics that challenge their own understanding of the game

**Inferences at Bridge** Marshall Miles, 2002 To be successful a bridge player has to think like a detective tracking down the distribution of the unseen hands Although many players are oblivious to them the tell tale clues are there just waiting to be noticed They are there just waiting to be noticed They are there in the auction and in the opening lead Every time a defender plays a card declarer receives information Similarly everything that declarer does can be turned to advantage by alert defenders There is even vital intelligence to be gained by thinking about what a player does not do In this book you will learn where to look for these clues and more importantly how to draw the correct inferences from them From there it is only a short step to making bids and plays based on those inference and thereby becoming a much better player

**Eddie Kantar Teaches Topics in Declarer Play at Bridge** Eddie Kantar, Edwin B. Kantar, 2002 Kantar s two book series on Bridge Defense Modern Bridge Defense and Advanced Bridge Defense won an ABTA Book of the Year Award in 1999 This newer book addresses a more popular topic using a similar approach While not a comprehensive treatment of declarer play at bridge this book deals with specific topics exhaustively and will be invaluable to the improving player finesses when and how to take them and equally importantly when to avoid taking them endplays eliminations issues with entries suit establishment and counting Designed to be used by bridge teachers or by students learning on their own this book like its predecessors contains a host of features that help the student to grasp the material clearly laid out concepts margin notes practice hands chapter end quizzes key point summaries at regular intervals and an index Kantar s various beginner books have sold hundreds of thousands of copies not least because of his unique writing style and the humor that he introduces into the learning process Eddie Kantar Eddie Kantar Santa Monica CA is one of the most popular and prolific bridge writers in the world A winner of two World Championships and a member of the Bridge Hall of Fame his many books include Modern Bridge Defense Advanced Bridge Defense the hilarious Kantar on Kontract and of course Roman Keycard Blackwood His work appears regularly in many bridge magazines around the world

*How to Play Bridge with Your Spouse and Survive* Roselyn Teukolsky, 2002 Even social bridge can be like a roller coaster where partners rocket up and down together from euphoria to you idiot while club and tournament bridge are worse still Indeed when a married couple play bridge together they tend to drag the marriage along with them for

better or worse For the answer to the social dilemma of how to survive bridge games with your spouse read this book You will learn to deal with such situations as premarital bridge bridge with another couple disaster recovery romantic weekends mid life crises and even children as the critical phases of a bridge marriage are subjected to Ms Teukolsky s witty and engaging analysis and advice Roselyn Teukolsky Before her retirement Roselyn Teukolsky taught math and computer science at Ithaca High School in upstate New York She is married to her favorite bridge partner and they have two daughters Formerly a regular contributor to various bridge magazines she is working on a novel that has nothing to do with bridge

Pathways to Better Bridge Defense Danny Roth,2003 So you tend to be dealt very bad hands I know exactly you feel But facing the facts of life and recognising that it is not your fault you are going to have to accommodate this failing and improve your defence It is a hard part of the game even in international competitions the standard of defensive play is to put it kindly modest Yes you will get plenty of reports of brilliances involving spectacular switches deceptions unblocks and discards of honours But for every one of those there are countless others in which the display would disgrace any beginners class I am going to assume that you are a regular club or tournament player who knows the basics of defence but who comes unstuck when it comes to situations where you have to work the hand out in detail This book will help you to improve dramatically in this area Danny Roth

**Play Or Defend?** Julian Pottage,2003 This is an unusual problem book in the style of Diosy s There Must Be a Way in that the reader is shown all four hands and asked whether declarer or defense should prevail with best play A fascinating challenge for the advancing player

**I Shot My Bridge Partner** Matthew Granovetter,1999 Young Matthew s first visit to the Mayfair bridge club in New York is made to try to rescue his schoolfriend Stanley Once there though he becomes fascinated by the idea of money bridge and how different the game is from the one he knows His education in both bridge and life skills proceeds at the hands of the beautiful and dangerous Chops the odious Pizza McCarver Otto the mad Hungarian and the other singular denizens of the Mayfair Before long there is a mysterious accident at the club and as the tensions among the players stretch to breaking point a second tragedy seems almost inevitable But this time Matthew himself is the prime suspect Can Matthew solve the mystery and clear his name And just as important can he gain some credibility at the bridge table and survive amongst the card sharks at the Mayfair Club Back cover
