The Best in Theology, Volume Two James Innell PACKER,1987 *The Future of Protestant Worship*

Ronald P. Byars,2002-01-01 Over the past several years churches have engaged in an ongoing debate between two different styles of worship traditional and contemporary Here Ronald Byars argues that many of the differences between the two styles are superficial Authentic worship being wholly theocentric can and must be both responsive to contemporary culture and grounded in history and tradition Thus rather than merely trying to please their members congregations must focus on exploring worship that is biblical honors our communion with the saints and takes seriously the ways that our culture is reshaping us He concludes with a description of an authentic postmodern Protestant worship service

Bad Theology Leah Robinson,2023-04-28 Why does bad theology happen to good people Is it even possible for theology to go bad On the one hand the answer ought to be no It comes from God so how can it

be bad Yet theology is predominately human construct and as a result humans can influence their theological conclusions with their own desires and beliefs The result more often than we care to admit is bad theology Drawing on a careful definition of bad theology as theology which denies human flourishing avoids self reflection and doesn't seek justice and equality Leah Robinson offers a series of penetrating case studies which show what bad theology can look like when put into action As we look at how theology can be bad she argues we might begin to understand how it might be better **Christian Theology and the Secular University** Paul A. Macdonald, Jr., 2017-02-24 If the secular university by definition is non sectarian or non denominational then how can it accommodate a discipline like Christian theology Doesn't the traditional goal of theological study which is to attain knowledge of the divine fundamentally conflict with the main goal of secular academic study which is to attain knowledge about ourselves and the world in which we live So why should theology be admitted or even care about being admitted into secular academic life And even if theology were admitted what contribution to secular academic life could it make Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians philosophers and religious studies scholars Christian Theology and the Secular University takes on these questions arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends This book offers a fresh and unique perspective to scholars working in the disciplines of theology philosophy and religious studies and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university **Theological Method: A Guide for the Perplexed** Paul L.
