Davis Benn, 2015-08-08 Excerpt from Style in Furniture The following pages have been written with two distinct aims in view In the first place it has been my endeavour to treat my subject in such a vein as to render the text interesting to those who may wish to acquire sufficiently accurate knowledge of old English and some French furniture in order that they may be able to distinguish one style from another to apportion each to its proper period and to learn something of the history of all without entering upon a very deep study of the questions involved For inquirers of this class I trust that my general remarks in each chapter will afford the necessary information For the non technical reader therefore I have striven to connect the various styles with great political and social changes so as to impress them the more clearly upon their minds at the same time an effort has been made to refresh the memory respecting those leaders in art and literature of different ages whose names are venerated by all and who in their day were unquestionably surrounded in their home life by such household gods as those depicted By adopting this course I have hoped to enable those who follow my thoughts to people with familiar friends the interiors which they will furnish in imagination from the store of examples set at their disposal About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [The Complete Guide to Furniture Styles](#) Louise Ade Boger, 1969 **The Book of Decorative Furniture** Edwin Foley, 1910 [French and English furniture distinctive styles and periods described and illustrated](#) Esther Singleton, 2021-05-20 In French and English Furniture Distinctive Styles and Periods Described and Illustrated Esther Singleton presents an extensive exploration of the evolution of furniture design from both countries emphasizing the cultural influences that shaped these distinctive styles With meticulous illustrations and detailed descriptions Singleton delves into various periods from the opulent Baroque of France to the understated elegance
