Clabing Gaze Sexuality Clab And Surveillance:

Surveillance, Capital and Resistance Michael McCahill, Rachel Finn, 2014-03-21 Surveillance Capital and Resistance is a major contribution to current debates on the subjective experience of surveillance Based on a large research project undertaken in a Northern City in the UK and focusing mainly on the use of surveillance in the context of policing and security the book explores how a diverse range of social groups school children political protesters offenders unemployed people migrants and police officers experience and respond to being monitored by new surveillance technologies such as CCTV surveillance cameras and computers The book interweaves surveillance theory with the work of Pierre Bourdieu to argue that the distribution of various forms of capital economic social cultural and symbolic in any given field operate as a range of goods or resources that structure the dynamics of surveillance practices and power relations including the ability to contest surveillance The term surveillance capital is introduced to refer to the tacit knowledge and everyday forms of cultural know how that allow surveillance subjects to contest surveillance in a variety of local and specific settings The book is essential reading for anyone that might be interested in how people experience and respond to the new surveillance measures currently used in the crime control field It will be key reading for students and academics interested in surveillance studies childhood studies media studies criminal justice and migration studies

Living "Difference" Gillian A Dunne, 2013-10-18 Living Difference Lesbian Perspectives on Work and Family Life examines the roles of lesbians in the home in the workplace and as parents Discussing the advantages of female same sex relationships this book suggests that these partnerships are able to facilitate more egalitarian ideals for women than heterosexual relationships This book will help academics counselors and women in same sex relationships understand the positive aspects of lesbian parenting and the advantages lesbians experience in these households Without focusing on lesbians as victims or neglecting their differences from other women Living Difference will help you realize that living different can be an empowering experience Living Difference brings together current theoretical and empirical research on lesbian experiences of work and family life and explores the myths and realities of these women From this book you will learn about a recent study in Eastern and Western Europe that revealed several advantages for children with lesbian parents such as an awareness of prejudice against homosexuality and increased moral development Providing you with case studies of lesbian parents and their children Living Difference offers you insight into the positive and controversial aspects of this family arrangement including British tabloid articles that denounce lesbian parenting and discussions of the actual reason for hostility against this type of family the fears joys and legal problems that lesbian couples in Europe face when raising children studies that indicate co mothers take a more active role in the life of their children than do fathers how gender usually determines the division of housework and the differences between lesbian and heterosexual households how society faculty and students discriminate against lesbian teachers and how these teachers try to keep their private lives secret for fear of losing their jobs Offering theories that heterosexual households often confine

women to gendered roles this book will help you understand the positive aspects of living different despite societal prejudices Focusing on the impact gender and sexuality have on societal roles Living Difference seeks to change the practice of treating lesbianism as the other facet of feminism and will prove to you the positive differences of lesbian families Anti-Italianism W. Connell, F. Gardaphé, 2010-12-20 There has been an odd reluctance on the part of historians of the Italian American experience to confront the discrimination faced by Italians and Americans of Italian ancestry This volume is a bold attempt by an esteemed group of scholars and writers to discuss the question openly by charting the historical and cultural boundaries of stereotypes prejudice and assimilation Contributors offer a continuous series of cultural encounters and experiences in television literature and film that deserve the attention of anyone interested in the larger themes of American history

theoretical works that demonstrate the significance of the gendered dynamics of surveillance. Bringing together contributors from criminology, sociology, communication studies, and women's studies, the eleven essays in the volume suggest that we cannot properly understand the implications of the rapid expansion of surveillance practices today without paying close attention to its gendered nature. Together, they constitute a timely interdisciplinary contribution to the development of feminist surveillance studies.
