Aldrich, Gary D. Rawnsley, Ming-Yeh T. Rawnsley, 1999 **Britain, America and Anti-Communist Propaganda 1945-53** Andrew Defty, 2013-12-02 In the Cold War battle for hearts and minds Britain was the first country to formulate a coordinated global response to communist propaganda In January 1948 the British government launched a new propaganda policy designed to oppose the inroads of communism by taking the offensive against it A small section in the Foreign Office the innocuously titled Information Research Department IRD was established to collate information on communist policy tactics and propaganda and coordinate the discreet dissemination of counter propaganda to opinion formers at home and abroad **Intelligence and Strategic Culture** Isabelle Duyvesteyn, 2013-10-31 Reliable information on potential security threats is not just the result of diligent intelligence work but also a product of context and culture The volume explores the nexus between the intelligence process and strategic culture How can and does the strategic outlook of the United States and the United Kingdom in particular influence the intelligence gathering assessment and dissemination process This book contains an assessment of how political agendas and ideological outlook have significant influence on both the content and process of intelligence It looks in particular at the premise of hearts and minds policies culture and intelligence gathering in counterinsurgency operations at case studies from imperial Malaya and Iran in the 1950s and at instances of intelligence failure e g the case of Iraq in 2003 How was intelligence or the lack thereof a product of political culture and how did it play a role in the political praxis The book shows that political agendas and the ideological outlook have a significant influence upon both the content and process of intelligence This book was originally published as a special issue of *Intelligence and National Security* **Secrets of Signals Intelligence During the Cold War and Beyond** Matthew M. Aid, Cees Wiebes, 2001 In recent years the importance of Signals Intelligence Sigint has become more prominent especially the capabilities and possibilities of reading and deciphering diplomatic military and commercial communications of other nations

This growing awareness of the importance of intelligence applies not only to the activities of the big services but also to those smaller nations like The Netherlands For this reason The Netherlands Intelligence Association NISA was recently established in which academics and former and still active members of The Netherlands intelligence community work together in order to promote research into the history of Dutch intelligence communities

The Eastern Bloc and Sub-Saharan Africa

Barbora Buzássyová,2024-06-03 This book analyses the shifting patterns of Czechoslovak educational aid programmes for sub Saharan African countries within the broader framework of the global debates on the nature of development aid in education discussed on the UNESCO grounds during the three development decades Starting in the early 1960s Czechoslovakia sent abroad hundreds of experts hoping to stimulate the development of local educational and scientific institutions However over the years the development aid to African countries transformed into a special form of foreign trade and distribution of experts turned into a profitable business Yet the tendencies towards sustainability and higher return on investment in the field of development aid were not limited just to the socialist bloc but emerged globally This book therefore not only revisits the roles of Czechoslovakia and Africa in the Cold War history but also reflects on the function of aid in international politics The Eastern Bloc and Sub Saharan Africa will appeal to students and historians specializing in the global Cold War and particularly those curious about development international organizations economic history and transfers of knowledge in transnational networks

The University Socialist Club and the Contest for Malaya

Kah Seng Loh,Cheng Tju Lim,Edgar Liao,Guo-Quan Seng,2025-10-01 The book using a small group of left wing student activists as a prism explores the complex politics that underpinned the making of nation states in Singapore and Malaysia after World War Two While most works have viewed the period in terms of political contestation groups the book demonstrates how it is better understood as involving a shared modernist project framed by British planned decolonization This pursuit of nationalist modernity was characterized by an optimism to replace the colonial system with a new state and mobilize the people into a new relationship with the state according them new responsibilities as well as new rights This book based on student writings official documents and oral history interviews brings to life various modernist strands liberal democratic ethnic communal and Fabian and Marxist socialist seeking to determine the form of postcolonial Malaya It uncovers a hitherto little seen world where the meanings of loud slogans were fluid vague and deeply contested This world also comprised as much convergence between the groups as conflict including collaboration between the Socialist Club and other political and student groups which were once its rivals while its main ally eventually became its nemesis

A Military History of the Cold War, 1944-1962 Jonathan M. House,2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the

relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

The Ashgate Research Companion to the Korean War Donald W. Boose, 2016-03-23 This essential companion provides a comprehensive study of the literature on the causes course and consequences of the Korean War 1950-1953 Aimed primarily at readers with a special interest in military history and contemporary conflict studies the authors summarize and analyze the key research issues in what for years was known as the Forgotten War The book comprises three main thematic parts each with chapters ranging across a variety of crucial topics covering the background conduct clashes and outcome of the Korean War The first part sets the historical stage with chapters focusing on the main participants The second part provides details on the tactics equipment and logistics of the belligerents Part III covers the course of the war with each chapter addressing a key stage of the fighting in chronological order The enormous increase in writings on the Korean War during the last thirty years following the release of key primary source documents has revived and energized the interest of scholars This essential reference work not only provides an overview of recent research but also assesses what impact this has had on understanding the war

Malaya's Secret Police 1945-60 Leon Comber, 2008 The Malayan Emergency lasted from 1948 to 1960 During these tumultuous years following so soon after the Japanese surrender at the end of the Second World War the whole country was once more turned upside down and the lives of the people changed The war against the Communist Party of Malaya s determined efforts to overthrow the Malayan government involved the whole population in one form or another Dr Comber analyses the pivotal role of the Malayan Police s Special Branch the government s supreme intelligence agency in defeating the communist uprising and safeguarding the security of the country He shows for the first time how the Special

Branch was organised and how it worked in providing the security forces with political and operational intelligence His book represents a major contribution to our understanding of the Emergency and will be of great interest to all students of Malaysia's recent history as well as counter guerrilla operations It can profitably be mined too to see what lessons can be learned for counterinsurgency operations in other parts of the world *Special Warfare*, 2003 **American-British-Canadian Intelligence Relations, 1939-2000** David Stafford, Rhodri Jeffreys-Jones, 2000 During the second half of the 20th century intelligence co operation between the three North Atlantic powers of America Britain and Canada played a vital role in Western struggles against Nazi Germany Imperial Japan Soviet Russia and their lesser allies As demonstrated in the case studies in this volume World War II cemented loose and often informal inter allied agreements on security intelligence that had preceded it and created new and important areas of close and formal co operation in such areas as codebreaking and foreign intelligence But what was the true nature of this co operation Wartime myths have obscured much of the reality and while the western powers undoubtedly benefited from the dividends of these agreements during the Cold War that followed they also experienced restrictions on national sovereignty whose costs have often caused controversy while the search for co operation frequently provided cause for friction *Hard Interests, Soft Illusions* Natasha Hamilton-Hart, 2012-02-17 In *Hard Interests Soft Illusions* Natasha Hamilton Hart explores the belief held by foreign policy elites in much of Southeast Asia Indonesia Malaysia the Philippines Thailand Singapore and Vietnam that the United States is a relatively benign power She argues that this belief is an important factor underpinning U S preeminence in the region because beliefs inform specific foreign policy decisions and form the basis for broad orientations of alignment opposition or nonalignment Such foundational beliefs however do not simply reflect objective facts and reasoning processes Hamilton Hart argues that they are driven by both interests in this case the political and economic interests of ruling groups in Southeast Asia and illusions Hamilton Hart shows how the information landscape and standards of professional expertise within the foreign policy communities of Southeast Asia shape beliefs about the United States These opinions frequently rest on deeply biased understandings of national history that dominate perceptions of the past and underlie strategic assessments of the present and future Members of the foreign policy community rarely engage in probabilistic reasoning or effortful knowledge testing strategies This does not mean she emphasizes that the beliefs are insincere or merely instrumental rationalizations Rather cognitive and affective biases in the ways humans access and use information mean that interests influence beliefs how they do so depends on available information the social organization and practices of a professional sphere and prevailing standards for generating knowledge **Japanese Foreign Intelligence and Grand Strategy** Brad Williams, 2021-03-01 *Japanese Foreign Intelligence and Grand Strategy* probes the unique makeup of Japanese foreign intelligence institutions practices and capabilities across the economic political and military domains Williams shows how Japanese intelligence has changed over time from the Cold War to the reassessment of national security strategy in the Abe Era **Armed Diplomacy: Two**

Centuries of American Campaigning , The Shadow Warriors of Nakano Stephen C. Mercado,2002 In the history of the twentieth century the role of the military intelligence services in the competition among nations is still murky Among the world s foremost intelligence services those of Imperial Japan remain the least known Few stories are as compelling as those surrounding the Japanese Army s Nakano School From 1938 to 1945 the Nakano School trained more than 2 000 men in intelligence gathering propaganda and irregular warfare Working in the shadows these dedicated warriors executed a range of missions from gathering intelligence in Latin America to leading commando raids against American lines in Papua New Guinea in the Philippines and on Okinawa They played major roles in operations to subvert British rule in India and they organized Japanese civilians into guerrilla units that would have made the invasion of Japan a bloodbath One graduate used his Nakano commando training to elude U S and Philippine military patrols until emerging from the jungle nearly thirty years after the war s end In the decades after World War II graduates of the school worked to obtain from the United States and Russia the release of imprisoned war criminals and the recovery of lost territory including Okinawa Based on archival research and the memoirs of Japanese veterans *The Shadow Warriors of Nakano* shines a much needed light into the shadows of World War II and postwar Japanese affairs *Tibet* Lezlee Brown Halper,Stefan A. Halper,2014 The mythologizing of Tibet in the West and the Himalyan state s subsequent abandonment to China are recounted in this briskly paced and revealing new history *Hong Kong Politics* Brian C. H. Fong,2024-09-16 *Hong Kong Politics* A Comparative Introduction is a comprehensive and pioneering guide of this emerging field It aims to advance scholarly understanding of Hong Kong s political developments since the handover of sovereignty in 1997 using a comparative politics approach The book advances a unique integrated comparative framework for studying Hong Kong through geopolitical autonomy centre periphery democratisation political economic and governance perspectives It guides readers to understand and interpret the various political dimensions of Hong Kong in a comprehensive and holistic way This book will be of key interest to scholars and students of comparative politics Experienced political researchers in Hong Kong will find this book illuminating while comparative political scholars worldwide would also find it a handy introductory text to the important case of Hong Kong This book is also an excellent resource for instructors and students of Asian Studies China Studies and Hong Kong Studies
