The Politics of European Competition Regulation Hubert Buch-Hansen, Angela Wigger, 2011-03-07 Examines the political power struggles that have shaped the

evolution of European competition regulation over the past six decades *The Making of Modern Finance* Samuel Knafo, 2013-07-03 The Making of Modern Finance is a path breaking study of the construction of liberal financial governance and demonstrates how complex forms of control by the state profoundly transformed the nature of modern finance Challenging dominant theoretical conceptions of liberal financial governance in international political economy this book argues that liberal economic governance is too often perceived as a passive form of governance It situates the gold standard in relation to practices of monetary governance which preceded it tracing the evolution of monetary governance from the late middle Ages to show how the 19th century gold standard transformed the way states relate to finance More specifically Knafo demonstrates that the institutions of the gold standard helped to put in place instruments of modern monetary policy that are usually associated with central banking and argues that the gold standard was a prelude to Keynesian policies rather than its antithesis The author reveals that these state interventions played a vital role in the rise of modern financial techniques which emerged in the late 18th and 19th century and served as the foundation for contemporary financial systems This book will be of strong interest to students and scholars of international political economy economic history and historical sociology It will appeal to those interested in monetary and financial history the modern state liberal governance and varieties of capitalism Global Institutions, Marginalization, and Development Craig Murphy, 2005 For more than a century and a half the most powerful national governments have created institutions of multilateral governance that promise to make a more inclusive world a world serving women working people the colonized the backward the destitute and the despised This groundbreaking book is a study of that promise and of the real impact of this world government It discusses what systems global institutions have and have not done to keep their promise and examines whether the system will serve the world s least advantaged or marginalize them further This book focuses on whether it is the economists and political philosophers of the rich or the social movements of the disadvantaged that are most likely to influence the world s lawmakers and the processes by which they will complete the next generation of multilateral institutions An innovative study this book is important reading for anyone with an interest in international political economy global governance development and the politics of north south relations *Development, Sexual Rights and Global Governance* Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people s sexual lives access to citizenship and struggles for livelihood Despite the industry s persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people s intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By

placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Capitalist Mode of Power Tim Di Muzio, 2013-08-15 This edited volume offers the first critical engagement with one of the most provocative and controversial theories in political economy the thesis that capital can be theorized as power and that capital is finance and only finance The book also includes a detailed introduction to this novel thesis first put forward by Nitzan and Bichler in their *Capital as Power* Although endorsing the capital as power argument to varying extents contributors to this volume agree that a new understanding of capital that radically departs from Marxist and Neoclassical theories cannot be ignored Offering the first application and appraisal of Nitzan and Bichler's theory chapters examine the thesis in the context of energy and global capitalization US Investment Banks trade and investment agreements between Canada the US and Mexico and multinational corporations in Apartheid South Africa Balancing theory methodology and empirical analysis throughout this book is accessible to new readers whilst contextualising and advancing the original theoretical debate *The Capitalist Mode of Power* will be of interest to students and scholars of International Relations Political Economy Globalization and Critical Theory

Hybrid Rule and State Formation Shelley Hurt, Ronnie Lipschutz, 2015-06-26 Neoliberalism has been the reigning ideology of our era For the past four decades almost every real world event of any consequence has been traced to the supposedly omnipresent influence of neoliberalism Instead this book argues that states across the world have actually grown in scope and reach The authors in this volume contest the view that the past three decades have been marked by the diminution of the state in the face of neoliberalism They argue instead that we are witnessing a new phase of state formation which revolves around hybrid rule that is a more expansive form of state formation that works through privatization and seeks pacification and depoliticization as instrumental to enhancing state power Contributors argue that the process of hybridization and hybrid rule point towards a convergence on a more authoritarian capitalist regime type possibly but not necessarily more closely aligned with the Beijing model one toward which even the United States with its penchant for surveillance and discipline appears to be moving This volume will shed new light on evolving public private relations and the changing nature of power and political authority in the 21st century and will be of interest to students and scholars of IPE international relations and political theory

Beyond States and Markets Isabella Bakker, Rachel Silvey, 2012-08-21 Seeking to extend our understanding of the contemporary global political economy this book provides an important and original introduction to the current theoretical debates about social

reproduction and argues for the necessity of linking social reproduction to specific contexts of power and production. It illustrates the analytic value of the concept of social reproduction through a series of case studies that examine the implications of how labor power is reproduced and how lives outside of work are lived. The issues examined in countries including the Ukraine, Chile, Spain, Nepal, India, and Indonesia consist of Human trafficking and sex work, Women and work, Migration, labor and gender inequality, Micro credit programs and investing in women, Health, biological reproduction and assisted reproductive technologies. The book lends a unique perspective to the understandings of transformation in the global political economy precisely because of its simultaneous focus on the caring and provisioning of the everyday and its relationships to policies and decisions made at the national and international levels of both formal and informal institutions. With its multi-disciplinary approach, this book will be indispensable to students and scholars of International Political Economy, Development Studies, Gender or Women's Studies, International Studies, Globalization and International Relations.

Globalization, Governmentality and Global Politics Ronnie Lipschutz, James K. Rowe, 2006-03-07. Globalization is moving fast, impacting on the life of all nations with accelerating force. In this new study, Ronnie Lipschutz shows how it is being handled by specific groups seeking positive outcomes for the people and causes they represent. *Globalization, Governmentality and Global Politics* details how the widespread failure of states and corporations to regulate the impact of increased globalization has given rise to non-governmental organizations and movements aiming to influence corporations regarding social responsibilities and address key issues such as human rights, environmental destruction, unhealthy working conditions, and child labour. Assessing the effectiveness of these efforts, it examines both the new movements and the issues they are tackling. With three key case studies on the clothing industry, sustainable forestry, and corporate social responsibility, it explores the tensions between politics and management, examining the theoretical implications of regulation for politics, citizenship, and the state. Finally, it takes a fresh look at what is to be done, calling for a return to politics centred on the direct participation of the individual in the social choices that affect quality of life, working conditions, and the global future.

Global Citizenship and the Legacy of Empire April Biccum, 2012-08-06. This book investigates the parallels between mainstream development discourse and colonial discourse as theorized in the work of Homi Bhabha, Gayatri Spivak, and Edward Said. Aiming to repoliticize post-colonial theory by applying its understandings to contemporary political discourses, author April Biccum critically examines the ways in which development in its current form has recently begun to be promoted among the metropolitan public. Biccum contends that what has begun is a sustained marketing campaign for development that is a repetition, augmentation, and ultimately much greater success of the work of the Empire Marketing Board of 1926. Demonstrating how this marketing campaign for development attempts to facilitate support for neo-liberal globalization, Biccum contends that this theatre of legitimation is emerging in response to growing critical voices and counter-hegemonic activity on the international stage. Featuring in-depth analyses of the UK cultural values, DFID, the commemoration of the slave

trade and campaigns including Live8 and Make Poverty History this book will be of interest to students and scholars of postcolonial studies development studies and international political economy It will also offer insights valuable to a wider range of subjects including critical theory and globalization studies

The Global Political Economy of Intellectual Property Rights Christopher May, 2010 The first edition established itself as one of the leading books to situate the issue of intellectual property within the discipline of International Political Economy IPE Since its publication intellectual property has continued to rise up the global agenda reflecting expanding interest in the area among policy makers and advocacy groups linked to the increasingly fraught politics of the global governance of IPRs Significantly revised and updated to take account of developments within the World Trade Organization and the World Intellectual Property Organization this edition incorporate

Variegated Neoliberalism Huw Macartney, 2010-12-15 Variegated Neoliberalism provides comparative analyses of global and European banking communities and economic research centres in the UK France and Germany It explains the current neoliberal order in global finance and the realms of possibility for challenges to it

International Trade and Developing Countries Amrita Narlikar, 2005 This book analyzes the much needed and vastly under studied subject of bargaining coalitions of developing countries in the GATT and WTO This is an extremely important contribution to the field

Gender and Global Restructuring Marianne H. Marchand, Anne Sisson Runyan, 2010-09-13 In this new edition of this best selling text interdisciplinary feminist experts from around the world provide new analyses of the ongoing relationship between gender and neoliberal globalization under the new imperialism in the post 9 11 context Divided into Sightings Sites and Resistances this book examines the disciplining politics of race sexuality and modernity under securitized globalization including case studies on domestic workers in Hong Kong heteronormative development policies and responses to the crisis of social reproduction and colonizing responses to AIDS in sub Saharan Africa migration human rights and citizenship including studies on remittances the emergence of neoliberal subjectivities among rural Mexican women Filipina migrant workers and women s labor organizing in the Middle East and North Africa feminist resistance incorporating the latest scholarship on transnational feminism and feminist critical globalization movement activism including case studies on men s violence on the Mexico US border pan indigenous women s movements and cyberfeminism Providing a coherent and challenging approach to the issues of gender and the processes of globalization in the new millennium this important text will be of interest to students and scholars of IPE international relations economics development and gender studies

Ethics and Economic Governance Chris Clarke, 2015-10-23 This book seeks to explore the ethical dimensions of economic governance through an engagement with Adam Smith and a critical analysis of economic understandings of the Global Financial Crisis It examines ethical and political dilemmas associated with key aspects of the financialisation of Anglo American economy and society including systems of asset based welfare modern risk management and debt In the wake of the financial crisis recognition of the way in which everyday lives and life chances are tied into global finance is widespread

Yet few contributions in IPE explicitly tackle this issue as a question of ethics By developing Adam Smith's underutilised account of how market oriented behaviour is constituted through a process of sympathy this book provides an innovative way of understanding contemporary issues of economic governance and the possibilities and limits for intervention within it By taking Adam Smith's moral philosophy seriously it becomes evident that the ever deeper enmeshing of finance in our everyday lives is a failed experiment Turning the common understanding of Smith on its head we can also turn accepted wisdom about the recent financial crisis on its head and see the urgency of making better known the ethico political contestation that lies at the heart of financial market relations It will be of interest to students and scholars of IPE as well as those across the social sciences who wish to question the foundations of contemporary economy and society *Images of Gramsci* Andreas Bieler, Adam Morton, 2014-06-03 A comprehensive reassessment of the relevance of Gramsci's theory and practice at the beginning of the twenty first century Whilst commentaries on Antonio Gramsci and arguments surrounding his political and intellectual legacy have proliferated little attention has been hitherto directed to linking the connections and contentions between Political Theory and International Political Economy This volume brings together leading authorities engaged in common debates to produce for the first time a major collection that clarifies addresses and lays bare the manifest connections and contentions within political and international theory surrounding the legacy of Antonio Gramsci In Part I scholars examine various approaches to Gramsci's thought including his methodological principles the specific conception of civil society he offers his writings on war and cultural struggle the spatial dimension of his thinking and his philosophy of history Part II focuses on very new developments in Gramsci scholarship concerning the questioning of contemporary world order This includes reflections on his relevancy to issues of globalising capitalism transformations in the state revolutionary praxis orientalism and empire as well as European regionalism This book was previously published as a special issue of the leading *Critical Review of International Social and Political Philosophy* CRISPP *A Critical History of the Economy* Ryan Walter, 2013-03 This book provides a detailed intellectual and critical history of the economy explaining how the economy came to be analytically separated from its social and political moorings in the 19th century It offers a historical perspective on current IPE concerns and links IPE with the growing field of contextualist intellectual history

Neoliberal Hegemony Dieter Plehwe, Bernhard J. A. Walpen, Gisela Neunhöffer, 2007-05-07 Neoliberalism is fast becoming the dominant ideology of our age yet politicians businessmen and academics rarely identify themselves with it and even political forces critical of it continue to carry out neoliberal policies around the globe How can we make sense of this paradox Who actually are the neoliberals This is the first explanation of neoliberal hegemony which systematically considers and analyzes the networks and organizations of around 1 000 self conscious neoliberal intellectuals organized in the Mont Plerin Society This book challenges simplistic understandings of neoliberalism It underlines the variety of neoliberal schools of thought the various approaches of its proponents in the fight for hegemony in research and policy development political and

communication efforts and the well funded well coordinated and highly effective new types of knowledge organizations generated by the neoliberal movement partisan think tanks It also closes an important gap in the growing literature on private authority presenting new perspectives on transnational civil society formation processes This fascinating new book will be of great interest to students of international relations political economy globalization and politics
