Class And Economic Change In Kenya:

Class and Economic Change in Kenya G. N. Kitching, 1980-01-01 This historical analysis is followed by a theoretical discussion of its implications for such issues as the mode of production operative in Kenya the type of class analysis which is appropriate for the country the role of the state in capital accumulation and class formation and the possible relevance of Marxist value theory to the analysis of exploitation in Kenya This book sets new standards for the study of the process of drift into dependency and of the role of the state in the direction of a political economy It will be invaluable not only to Africanists but to all those involved in the study of the social political and economic structure of Third World countries

Development and Modes of Production in Marxian Economics A. Richards, 2013-09-27 By exploring the strengths and weaknesses of a Marxist approach to economic development this book presents a balanced treatment of development issues within the area of rational choice Marxism *Kenyan Capitalists, the State, and Development* David Himbara, 1994

The Palgrave Handbook of Kenyan History Wanjala S. Nasong'o, Maurice N. Amutabi, Toyin Falola, 2023-01-25 This volume covers Kenya's history society culture economics politics and environment from precolonial times through the first years of independence The book comprises twenty one chapters divided into two parts Part I focuses on the long precolonial moment detailing the nature of precolonial Kenyan societies and their economics politics gender dynamics and social organization Part II examines Kenyan societies encounters with British colonialism critically outlining the impact and implications of these encounters The volume concludes with an examination of political consolidation after the country's attainment of political independence and the subsequent foundations for political authoritarianism *Decolonization & Independence in Kenya, 1940-93* Bethwell A. Ogot, William Robert Ochieng', 1995 This is a sharply observed assessment of the history of the last half century by a distinguished group of historians of Kenya At the same time the book is a courageous reflection in the dilemmas of African nationhood Professor B A Ogot says The main purpose of the book is to show that decolonization does not only mean the transfer of alien power to sovereign nationhood it must also entail the liberation of the worlds of spirit and culture as well as economics and politics The book also raises a more fundamental question that is How much independence is available to any state national economy or culture in today's world It asks how far are Africa's miseries linked to the colonial past and to the process of decolonization In particular the book raises the basic question of how far Kenya is avoidably neo colonial And what does neo colonial dependence mean The book answers these questions by discussing the dynamic between the politics of decolonization the social history of class formation and the economics of dependence The book ends with a provocative epilogue discussing the transformation of the post colonial state from a single party to a multi party system **Human Development in the Era of Globalization** J. K. Boyce, Keith B. Griffin, James K. Boyce, 2006 This volume provides a very high quality set of papers on the relationship between globalization and human development any one with interest in this wide ranging subject matter would find the volume an interesting and engaging

read Global Business Review Honoring Keith Griffin's more than 40 years of fundamental contributions to the discipline of economics the papers in this volume reflect his deep commitment to advancing the well being of the world's poor majority and his unflinching willingness to question conventional wisdom as to how this should be done Four overarching themes recur in Keith Griffin's work and this book the need to both eradicate poverty and redress inequalities in the distribution of wealth within and among nations the impact of growth on inequality and conversely inequality's impact on growth the political economy of policy making and the need for openness to heterogeneity in both analytic tools and in policy recommendations The volume begins with an introduction by the editors followed by a paper by Keith Griffin In succeeding chapters the contributors explore strategies for reducing poverty and inequality and provide perspectives on issues such as human development the rural urban divide in China and biodiversity and sustainability Students researchers policymakers and NGO analysts exploring issues in development economics development studies alternative economic systems globalization environmental sustainability inequality and well being will find this book of great interest

Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub-Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression

The Rise of a Party-State in Kenya Jennifer A. Widner, 2023-04-28 Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely organized political party under Jomo Kenyatta into an arm of the president's office with watchdog youth wings and strong surveillance and control functions under Moi She suggests that single party systems have an inherent tendency to become party states or single party regimes in which the head of state uses the party as a means of control The speed and extent of these changes depend on the countervailing power of independent interest groups such as business associations farmers or professionals Widner's study offers important insights into the dynamics of party systems in Africa Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely

The Politics of Transition in Africa Giles Mohan, Tunde Zack-Williams, 2004 Part of a series of studies that examine political issues confronting African peoples societies and states this text explores theories of the state the transition to democracy and economic development Published

in association with ROAPE North America Africa World Press The Development of Capitalism in Africa John Sender, Sheila Smith, 2013-05-13 First published in 1986 this work challenges underdevelopment analyses of Africa's past experiences and future prospects and builds upon a very wide range of recent historical research to argue that the impact of Capitalism has resulted in economic progress and significant improvements in living standards In marked contrast to the dependency approach they propose that the important political and economic differences between the experiences of developing countries should be stressed and analysed The argument is supported by a detailed look at the emergence since 1900 of capitalist social relations of production in nine different countries **Black Africa 1945-1980** D K Fieldhouse, 2012-08-21

In what ways did economic considerations affect the decision by Britain and France to make their Black African colonies independent Why were early expectations that independence would lead to rapid and sustained economic development in Africa for the most part disappointed This title originally published in 1986 seeks to tackle these two important and strongly debated issues The main aim and value of the book is to take a broad view of this huge subject pulling together material on most parts of Black Africa south of the Sahara and north of the Limpopo so that the problem can be seen as a whole It takes account of a wide range of possible and actual factors which have influenced African economic development weaving them into a single analysis including the colonial inheritance the impact of the fluctuating international economy policies adopted by African governments and indigenous factors such as climate drought and human resources The book is written to be understood without difficulty by non specialists and is intended to act as an introduction to its subject for university students

Control & Crisis in Colonial Kenya Bruce Berman, 1990 Professor Berman argues that the colonial state was shaped by the contradictions between maintaining effective political control with limited coercive force and ensuring the profitable articulation of metropolitan and settler capitalism with African societies North America Ohio U Press Kenya EAEP

Economic Change and Political Liberalization in Sub-Saharan Africa Jennifer A. Widner, 1994 Aims to establish the nature of the relationship between the economic challenges of the 1980s and the steps toward greater political openness taken by governments at the end of that decade *The Economies of Africa and Asia in the Inter-war Depression (Routledge Revivals)* Ian Brown, 2014-11-13 The great inter war depression has long been seen as an unprecedented economic disaster for the peoples of the non European world This book with its detailed assessment of the impact of the depression on the economies of Africa and Asia challenges the orthodox view and is essential reading for those with a teaching or research interest in the modern economic history of those continents Established specialists in the modern economic history of parts of Africa or Asia put forward a number of revisionist arguments They show that some economies were left essentially unscathed by the depression and that for many export dependent peasant communities which did face a severe drop in cash income as world commodity prices collapsed from the late 1920s there was a range of important responses and reactions by which they could defend their economic welfare For many peasant communities the depression was not a disaster but an
