Classes and Class Struggle in Africa Samir Amin, Robin Cohen, 1977 **The Class Struggle in Africa** Samir Amin, 1970 **Class and Class Struggle in Africa** Hashim Gibrill, 1983-09-01 *Proletarianization and Class Struggle in Africa* Bernard Magubane, Georges Nzongola-Ntalaja, 1983 **African Philosophy, Second Edition** Paulin J. Hountondji, 1996-11-22 Hountondji contends that ideological manifestations of this view that stress the uniqueness of the African experience are protonationalist reactions against colonialism conducted paradoxically in the terms of colonialist discourse Hountondji argues that a genuine African philosophy must assimilate and transcend the theoretical heritage of Western philosophy and must reflect a rigorous process of independent scientific inquiry **Proletarianization and Class Struggle in Africa** Bernard M. Magubane, Nzongola-Ntalaja, 1983 **Class Struggle and Resistance in Africa** Leo Zeilig, 2016-12-05 This collection of essays and interviews studies class struggle and social empowerment on the African continent **Class Struggles and National Liberation in Africa** Georges Nzongola-Ntalaja, 1982 **Class Struggle** Domenico Losurdo, 2016-10-06 Available for the first time in English this book examines and reinterprets class struggle within Marx and Engels thought As Losurdo argues class struggle is often misunderstood as exclusively the struggle of the

poor against the rich of the humble against the powerful It is an interpretation that is dear to populism one that supposes a binary logic that closes its eyes to complexity and inclines towards the celebration of poverty as a place of moral excellence This book however shows the theory of class struggle is a general theory of social conflict Each time the most adverse social conflicts are intertwined in different ways A historical situation always emerges with specific and unique characteristics that necessitate serious examination free of schematic and biased analysis Only if it breaks away from populism can Marxism develop the ability to interpret and change the world

Africa's Many Divides and Africa's Future Vincent Doodoo, Charles Quist-Adade, Wendy Royal, 2015-10-05

If in the past the Sahara divided us now it unites us Kwame Nkrumah declared more than half a century ago Keenly aware of Africa's many artificial divides Nkrumah was determined to lead a revolution that would bridge them One way to achieve this goal Nkrumah proposed was a continental pan African government which would provide the African people with the opportunity to pool and marshal their enormous real and potential economic human and natural resources for the optimal development of their continent A continental union government Nkrumah was convinced would ensure that Africa ended the divisions created by the trilogy of the enslavement colonization and neo colonization of Africans Nkrumah was concerned by other divisions as well specifically those created by time history nature and above all Africans themselves such as ethnic racial and religious discrimination classism sexism and ageism as well as atavistic and backward traditional practices including tribalism and patriarchy

Africa's Many Divides and Africa's Future Pursuing Nkrumah's Vision of Pan Africanism in an Era of Globalization is a collection of papers presented at the first and second Kwame Nkrumah International Conferences This volume contextualizes Nkrumah's pan Africanist agenda within the neo liberal global project and against the backdrop of the current global economic and political ferment

[The African Philosophy Reader](#) P.H. Coetzee, A.P.J. Roux, 2004-03 Divided into eight sections each with

introductory essays the selections offer rich and detailed insights into a diverse multinational philosophical landscape Revealed in this pathbreaking work is the way in which traditional philosophical issues related to ethics metaphysics and epistemology for instance take on specific forms in Africa s postcolonial struggles Much of its moral political and social philosophy is concerned with the turbulent processes of embracing modern identities while protecting ancient cultures

Workers' Inquiry and Global Class Struggle Robert Ovetz,2020-10-20 Rumours of the death of the global labour movement have been greatly exaggerated Rising from the ashes of the old trade union movement workers struggle is being reborn from below By engaging in what Karl Marx called a workers inquiry workers and militant co researchers are studying their working conditions the technical composition of capital and how to recompose their own power in order to devise new tactics strategies organisational forms and objectives These workers inquiries from call centre workers to teachers and adjunct professors are re energising unions bypassing unions altogether or innovating new forms of workers organisations In one of the first major studies to critically assess this new cycle of global working class struggle Robert Ovetz collects together case studies from over a dozen contributors looking at workers movements in China Mexico the US South Africa Turkey Argentina Italy India and the UK The book reveals how these new forms of struggle are no longer limited to single sectors of the economy or contained by state borders but are circulating internationally and disrupting the global capitalist system as they do

A History of Africa Hosea Jaffe,2017-02-15 Spanning more than two thousand years of African history from the African Iron Age to the collapse of colonialism and the beginnings of independence Hosea Jaffe s magisterial work remains one of the few to do full justice to the continent s complex and diverse past The great strength of Jaffe s work lies in its unique theoretical perspective which stresses the distinctive character of Africa s social structures and historical development Crucially Jaffe rejects all efforts to impose Eurocentric models of history onto Africa whether it be liberal notions of progress or Marxist theories of class struggle arguing instead that the key dynamics underpinning African history are unique to the continent itself and rooted in conflicts between different modes of production The work also includes a foreword by the distinguished economist and political theorist Samir Amin in which he outlines the contribution of Jaffe s work to our understanding of African history and its ongoing post colonial struggles

African Perspectives on Global Development Mahmoud Masaeli,Rico Sneller,2019-01-22 Africa is not merely an invention with a modern imperial or colonial background Nor is it simply a continent in need of foreign aid from the richer more affluent societies Africa might be economically needy politically unstable and in part socially chaotic and suffering from civil wars and social unrest However the continent and its peoples are certainly different from the negative image portrayed in the mass media Africa had been the cradle of civilization in the pre colonial era and is today undergoing a diverse cultural philosophical and spiritual development with great potential contributing to contemporary debates around the ethics of globality The novelty of this book derives from its multidisciplinary approach Although the authors generally come from the fields of development and

economics global studies political science philosophy and ethics and sociology they present Africa's alternative view of human wellbeing in order to provide theories and policy recommendations which inspire the specific developmental patterns for the growth of the continent The volume discusses the meaning of development for the continent by drawing on culture identity ethnicity and philosophy of nature The contributors examine a variety of issues and themes directly related to the opportunities provided by globality to promote the development of the continent They also discuss solutions for underdevelopment and poverty and how those perspectives might be effectively integrated into the global agenda for the development of Africa
