Function and Meaning in Classic Maya Architecture

Stephen D. Houston, 1998 These articles mark a significant stage in the study of Maya architecture and the society that built it They represent advances in our understandings of the past point toward avenues for further studies and note the distance yet to travel in fully appreciating and understanding this ancient American culture and its material remains

The Long Silence Stephan Merk, 2016-01-12 The Long Silence is a short series about architectural surveys in the Maya Puuc region

Two volumes are available The Long Silence and The Long Silence 2 In The Long Silence Stephan Merk describes the outcome of his Chunhuaymil project an architectural survey of standing Maya Puuc ruins in a mostly untouched 100 square kilometer sector in Northeastern Campeche Mexico Nineteen ancient settlements were recorded many of them for the first time Their remaining architecture is presented here together with important hieroglyphic inscriptions from the sites With additional contributions by Antonio Benavides Castillo Daniel Gra a Behrens Nikolai Grube Carlos Pallan Gayol and Julie Patrois

To Be Like Gods Matthew G.Looper, 2010-01-01 Winner Association for Latin American Art Book Award 2010 The Maya of Mexico and Central America have performed ritual dances for more than two millennia Dance is still an essential component of religious experience today serving as a medium for communication with the supernatural During the Late Classic period AD 600 900 dance assumed additional importance in Maya royal courts through an association with feasting and gift exchange These performances allowed rulers to forge political alliances and demonstrate their control of trade in luxury goods The aesthetic values embodied in these performances were closely tied to Maya social structure expressing notions of gender rank and status Dance was thus not simply entertainment but was fundamental to ancient Maya notions of social religious and political identity Using an innovative interdisciplinary approach Matthew Looper examines several types of data relevant to ancient Maya dance including hieroglyphic texts pictorial images in diverse media and architecture A series of case studies illustrates the application of various analytical methodologies and offers interpretations of the form meaning and social significance of dance performance Although the nuances of movement in Maya dances are impossible to recover Looper demonstrates that a wealth of other data survives which allows a detailed consideration of many aspects of performance To Be Like Gods thus provides the first comprehensive interpretation of the role of dance in ancient Maya society and also serves as a model for comparative research in the archaeology of performance

The Long Silence (2)

Stephan Merk, 2016-04-22 In The Long Silence first published 2011 Stephan Merk described the standing Maya Puuc architecture of a 100 square kilometer wide area in Northern Campeche Mexico The Long Silence 2 presents the results of the architectural survey of an equally large and almost untouched region immediately south and compares the results of both projects With additional contributions by Nicholas Dunning and Eric Weaver Daniel Gra a Behrens Guido Krempel and Karl

Twin Tollans Cynthia Kristan-Graham, 2007 This volume had its beginnings in the two day colloquium Rethinking Chichén Itz Tula and Tollan that was held at Dumbarton Oaks The selected essays revisit long standing questions regarding the nature of the relationship between Chichén Itzá and Tula Rather than approaching these questions through the notions of migrations and conquests these essays place the cities in the context of the emerging social political and economic relationships that took shape during the transition from the Epiclassic period in Central Mexico the Terminal Classic period in the Maya region and the succeeding Early Postclassic period **The Mayas**, 1991 **Maya Narrative Arts** Karen Bassie-Sweet, Nicholas A. Hopkins, 2019-01-15 In *Maya Narrative Arts* authors Karen Bassie Sweet and Nicholas A Hopkins present a comprehensive and innovative analysis of the principles of Classic Maya narrative arts and apply those principles to some of the major monuments of the site of Palenque They demonstrate a recent methodological shift in the examination of art and inscriptions away from minute technical issues and toward the poetics and narratives of texts and the relationship between texts and images Bassie Sweet and Hopkins show that both visual and verbal media present carefully planned narratives and that the two are intimately related in the composition of Classic Maya monuments Text and image interaction is discussed through examples of stelae wall panels lintels benches and miscellaneous artifacts including ceramic vessels and codices Bassie Sweet and Hopkins consider the principles of contrast and complementarity that underlie narrative structures and place this study in the context of earlier work proposing a new paradigm for Maya epigraphy They also address the

narrative organization of texts and images as manifested in selected hieroglyphic inscriptions and the accompanying illustrations stressing the interplay between the two Arguing for a more holistic approach to Classic Maya art and literature Maya Narrative Arts reveals how close observation and reading can be equally if not more productive than theoretical discussions which too often stray from the very data that they attempt to elucidate The book will be significant for Mesoamerican art historians epigraphers linguists and archaeologists **The Monuments of Piedras Negras, an Ancient Maya City** Flora S. Clancy, 2009-03-15 Patronized by royalty between the sixth and eighth centuries the monuments of Guatemala's ancient Maya city of Piedras Negras were carved by sculptors with remarkable skills and virtuosity Together patrons and sculptors created monumental imagery in a manner unique within the larger history of ancient Maya art by engaging public viewers through illustrations of ceremonies focusing on family and the feminine in royal agendas Flora Clancy's introduction contextualizes her work with other studies and lays out her methodological framework She then discusses the known monuments of the city sequentially by reigns Individual rulers are characterized by a biography drawn from the hieroglyphic texts and the icons or imagery of their monuments are analyzed and discussed Although the monuments of Piedras Negras are acknowledged as social political and cultural productions Clancy also treats them as works of art that at their best operate on transcendent levels dissolving and overruling the contingencies of history and cultural differences **Handbook to Life in the Ancient Maya World** Lynn V.
