Greece and Rome at the Crystal Palace Kate Nichols, 2015-03-26 The marble halls of the British Museum might seem the natural habitat for classical sculpture but in the nineteenth century its sombre displays were far from being the only place that people encountered antiquities From 1854 a rival collection of classical sculpture comprising plaster casts from major European museums and scaled down architectural features was on show in the South London suburb of Sydenham in the Crystal Palace which had housed the Great Exhibition of 1851 By the late 1850s two million visitors were passing through the glass doors of the Sydenham Crystal Palace each year more than twice as many as recorded at the British Museum Many more people and from a greater variety of social strata saw the painted cast of the Parthenon frieze in Sydenham than the original in Bloomsbury Utilizing an extensive variety of archival material including diaries scrapbooks and photographs **Greece and Rome at the Crystal Palace** evokes visitor experiences at Sydenham and examines the discussion that arose around the presentation of classical plaster casts to a mass audience It uncovers the social political and aesthetic role of ancient Greek and Roman sculpture in modern Britain assessing how classical art figured in debates over design reform taste beauty and morality class and gender and race and imperialism

Classical Art Caroline

Vout, 2018-05-29 How did the statues of ancient Greece wind up dictating art history in the West How did the material culture of the Greeks and Romans come to be seen as classical and as art What does classical art mean across time and place In this ambitious richly illustrated book art historian and classicist Caroline Vout provides an original history of how classical art has been continuously redefined over the millennia as it has found itself in new contexts and cultures All of this raises the question of classical art's future What we call classical art did not simply appear in ancient Rome or in the Renaissance or in the eighteenth century Academy Endlessly repackaged and revered or rebuked Greek and Roman artifacts have gathered an amazing array of values both positive and negative in each new historical period even as these objects themselves have reshaped their surroundings Vout shows how this process began in antiquity as Greeks of the Hellenistic period transformed the art of fifth century Greece and continued through the Roman empire Constantinople European court societies the neoclassical English country house and the nineteenth century up to the modern museum A unique exploration of how each period of Western culture has transformed Greek and Roman antiquities and in turn been transformed by them this book revolutionizes our understanding of what classical art has meant and continues to mean Looking at Greek and Roman Sculpture in Stone Janet Burnett Grossman, 2003 What is an anthemion What is giallo antico marble Who was Praxiteles This richly illustrated book in the popular Looking At series presents definitions and descriptions of these and many other terms relating to Greek and Roman sculpture encountered in museum exhibitions and publications on ancient stone sculpture This is an indispensable guide to anyone looking for greater understanding of ancient sculpture and heightened enjoyment of the objects Book jacket **Classical Art and Ancient India** Peter Stewart, 2025-05-01 This volume explores India's connections with the Mediterranean and Western Asia during Graeco-Roman history highlighting artistic exchanges Based on the 2023 Oxford workshop it includes insights from international scholars refining our understanding of cross-cultural artistic currents and questioning underlying assumptions **The Ince Blundell Collection of Classical Sculpture** Jane Fejfer, Edmund Southworth, 1991 Catalogue of a collection of classical sculpture once owned by Henry Blundell and donated to the Liverpool Museum and the Walker Art Gallery in 1959 **The Diffusion of Classical Art in Antiquity** John Boardman, 2023-08-15 From one of the world's leading authorities on ancient Greek art a groundbreaking account of how Greek images were understood and used by other ancient peoples from Britain to China In this book acclaimed archaeologist and art historian John Boardman explores Greek art as a foreign art transmitted to the non-Greeks of antiquity peoples who weren't necessarily able to judge the meaning of Greek art and who may have regarded the Greeks themselves with great hostility Boardman examines how and why the arts of the classical world traveled and to what effect from Britain to China from roughly the eighth century BCE to the early centuries CE In some places such as Italy Greek images were overwhelmingly successful In Egypt the Celtic world the eastern steppes and other regions with strong local traditions they were never effectively assimilated And in cultures where there was a subtler blend of influences notably in the Buddhist east

classical images served as a catalyst to the generation of new styles Along the way Boardman demonstrates that looking at Greek art from the outside provides a wealth of new insights into Greek art itself and he raises important questions about how images in general are copied and reinterpreted *History as the Story of Freedom* Clark Butler,1997 The purpose of this book is to advance responsible rehabilitation of the speculative philosophy of history It challenges the idea popularized by thinkers such as and Claude Levi Strauss and Jean Francois Lyotard that historical meta mythology and meta narrative are philosophically obsolete As long as humanity viewed anthropologically lives by over arching narrative the quest for a version that survives rational criticism remains vital Here human rights serve as the key to unlock such a version Despite the fact that the Hegelian philosophy of history has often been derided something very similar currently functions as the official ideology of the world community the idea of history as the story of freedom This book does not retell the world historical story of freedom Rather it uncovers it beginning with the current age of human rights and working backward through the great role model civilizations of history Its conclusion is that a forward retelling of the story of freedom as the story of human rights can be justified by dewesternizing the story The book contains critical responses from specialized scholars and representative of selected world cultures The volume includes illustrations and a guest Afterword by Donald Phillip Verene It is a companion volume to the author s Hegel s Logic Between History and Dialectic North western University Press 1996
