Ideology, Culture & the Process of Schooling Henry A. Giroux, 1984-10 This book lays bare the ideological and political character of the positivist rationality that has been the primary theoretical underpinning of educational research in the United States These assumptions have expressed themselves in the form and content of curriculum classroom social relations classroom cultural artifacts and the experiences and beliefs of teachers and students Have existing radical critiques provided the theoretical building blocks for a new theory of pedagogy The author attempts to move beyond the abstract negative characteristics of many radical critiques which are often based on false dualisms that fail to link structure and intentionality content and process ideology and hegemony etc He also is critical of the over determined models of socialization and the abstract

celebration of subjectivity that underlies much of the false utopianism of many radical perspectives Professor Giroux begins to lay the theoretical groundwork for developing a radical pedagogy that connects critical theory with the need for social action in the interest of individual freedom and social reconstruction Author note Henry A Giroux is Assistant Professor of Education at Boston University He is the co editor of Curriculum and Instruction Alternatives in Education and The Hidden Curriculum and Moral Education

Always an Academic Immigrant Dafna Lemish, 2025-05-13 Immigrant employees play an essential role in every industry, including academia, but the unique experiences of immigrant professors have received little study. Given that academia has its own distinctive cultural norms, do immigrant academics experience the same kinds of challenges endured by other immigrants? *Always an Academic Immigrant* is a collective memoir that gives voice to eighty-one academics who immigrated from thirty-seven countries for a career in an institution of higher education in either the United States or one of ten other countries. Through in-depth interviews and observations from her own experiences as an immigrant scholar, Dafna Lemish shares the highs and the lows that academic immigrants feel as they search for both a country and an institution they can call home. She discovers the formative events that led these scholars to pursue careers outside their native lands and details the challenges they faced adapting to unspoken expectations in their new countries and workplaces. Ultimately, this book reveals the strategies that immigrant professors use to bridge their native and adoptive cultures while highlighting the vital contributions they have made to academia as scholars, teachers, and leaders.
