Voicing the Distant Ekaterina Sukhanova, 2004 The unique nature of the treatment of Shakespeare during Russian literary modernism consisted in the Shakespearean text being allowed to become a full fledged participant in a dialogue between cultures Shakespeare's works proved to function both as litmus paper bringing out the pivotal characteristics of Russian modernist poetry and simultaneously as a catalyst accelerating literary innovation Jacket **Flint on a Bright Stone** Kirsten Blythe Painter, 2006 Flint on a Bright Stone closes a significant gap in the history of Modernist poetry by identifying the existence of Tempered Modernism an international phenomenon exemplified by Akhmatova Rilke H D and Williams and characterized by small poems written with precision restraint simplicity equilibrium and hardness **Daniil Kharms** Branislav Jakovljevic, 2009-11-24 The texts of Russian artist and thinker Daniil Kharms 1905-1942 were so many and varied and often unique narrative dramatic philosophical poetic mathematical pictographic diagrammatic musical biographical that they defied categorization and thus thorough study or appreciation through much of the twentieth century This book the first in English to view Kharms's oeuvre in its entirety is also the first to offer a complete inclusive and coherent understanding of the overall project of this artist and writer now considered a major figure in the modernist canon of Europe *Petersburg Fin de Siècle* Mark D. Steinberg, 2011-11-29 The final decade of the old order in imperial Russia was a time of both crisis and possibility an uncertain time that inspired an often desperate search for meaning This book explores how journalists and other writers in St Petersburg described and interpreted the troubled years between the Russian revolutions of 1905 and 1917 Mark Steinberg distinguished historian of Russia in the late nineteenth and early twentieth centuries examines the work of writers of all kinds from anonymous journalists to well known public intellectuals from secular liberals to religious conservatives Though diverse in their perspectives these urban writers were remarkably consistent in the worries they expressed They grappled with the impact of technological and material progress on the one hand and with an ever deepening anxiety and pessimism on the other Steinberg reveals a new darker perspective on the history of St Petersburg on the eve of revolution and presents a fresh view of Russia's experience of modernity

Nietzsche's Orphans Rebecca Mitchell, 2016-01-05 A prevailing belief among Russia's cultural elite in the early twentieth century was that the music of composers such as Sergei Rachmaninoff Aleksandr Scriabin and Nikolai Medtner could forge a shared identity for the Russian people across social and economic divides In this illuminating study of competing artistic and

ideological visions at the close of Russia's Silver Age author Rebecca Mitchell interweaves cultural history music and philosophy to explore how Nietzsche's orphans strove to find in music a means to overcome the disunity of modern life in the final tumultuous years before World War I and the Communist Revolution

Work Flows Maya Vinokour, 2024-02-15 Work Flows investigates the emergence of flow as a crucial metaphor within Russian labor culture since 1870 Maya Vinokour frames concern with fluid channeling as immanent to vertical power structures whether that verticality derives from the state as in Stalin's Soviet Union and present day Russia or from the proliferation of corporate monopolies as in the contemporary Anglo American West Originating in pre revolutionary bio utopianism the Russian rhetoric of liquids and flow reached an apotheosis during Stalin's First Five Year Plan and re emerged in post Soviet managed democracy and Western neoliberalism The literary philosophical and official texts that Work Flows examines give voice to the Stalinist ambition of reforging not merely individual bodies but space and time themselves By mobilizing the understudied thematic of fluidity Vinokour offers insight into the nexus of philosophy literature and science that underpinned Stalinism and remains influential today Work Flows demonstrates that Stalinism is not a historical phenomenon restricted to the period 1922 1953 but a symptom of modernity as it emerged in the twentieth century Stalinism's legacy extends far beyond the bounds of the former Soviet Union emerging in seemingly disparate settings like post Soviet Russia and Silicon Valley

The Organic School of the Russian Avant-Garde Isabel W?nsche, 2017-07-05 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel W nsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists the majority of whom were based in St Petersburg Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde specifically Jan Ciaglinski Nikolai Kulbin and Elena Guro as well as the emergence of the concept of Organic Culture as developed by Mikhail Matiushin practiced at the State Institute of Artistic Culture and taught at the reformed Art Academy in the 1920s Discussions of faktura and creative intuition explore the biocentric approaches that dominated the work of Pavel Filonov Kazimir Malevich Voldemar Matvejs Olga Rozanova and Vladimir Tatlin The artistic approaches of the Organic School of the Russian avant garde were further promoted and developed by Vladimir Sterligov and his followers between 1960 and 1990 The study examines the cultural potential as well as the utopian dimension of the artists approaches to creativity and their ambitious visions for the role of art in promoting human psychophysiological development and shaping post revolutionary culture

The Unlikely Futurist James Rann, 2020-07-07 In the early twentieth century a group of writers banded together in Moscow to create purely original modes of expression These avant garde artists known as the Futurists distinguished themselves by mastering the art of the scandal and making shocking denunciations of beloved icons With publications such as A Slap in the Face of Public Taste they suggested that Aleksandr Pushkin the founder of Russian literature be tossed off the side of their steamship of

modernity Through systematic and detailed readings of Futurist texts James Rann offers the first book length study of the tensions between the outspoken literary group and the great national poet He observes how those in the movement engaged with and invented a new Pushkin who by turns became a founding father to rebel against a source of inspiration to draw from a prophet foreseeing the future and a monument to revive Rann s analysis contributes to the understanding of both the Futurists and Pushkin s complex legacy The Unlikely Futurist will appeal broadly to scholars of Slavic studies especially those interested in literature and modernism

Dostoevskii's Overcoat: Influence, Comparison, and Transposition. Joe Andrew, Robert Reid, 2013-12-23 One of the most famous quotations in the history of Russian literature is Fedor Dostoevskii s alleged assertion that We have all come out from underneath Gogol s Overcoat Even if Dostoevskii never said this there is a great deal of truth in the comment Gogol certainly was a profound influence on his work as were many others Part of this book s project is to locate Dostoevskii in relationship to his predecessors and contemporaries However the primary aim is to turn the oft quoted apocryphal comment on its head to see the profound influence Dostoevskii had on the lives work and thought of his contemporaries and successors This influence extends far beyond Russia and beyond literature Dostoevskii may be seen as the single greatest influence on the sensibilities of the twentieth and twenty first centuries To a greater or lesser extent those concerned with the creative arts in the twentieth and twenty first centuries have all come out from under Dostoevskii s Overcoat

OBERIU Eugene Ostashevsky, 2006 It was a movement so artfully anarchic and so quickly suppressed that readers only began to discover its strange and singular brilliance three decades after it was extinguished and then only in samizdat and emigre publications

Russian Writers of the Silver Age, 1890-1925 Judith E. Kalb, J. Alexander Ogden, I. G. Vishnevet's'kiĭ, 2004 The questing experimenting and overstepping of stylistic moral and narrowly rational boundaries that characterized Russian modernist writing were frowned upon during most of the seven decades of Soviet rule Only since the late 1980s have readers had easy access to the literature memoirs and critical writings of the immediately pre Soviet period

Fast Forward Tim Harte, 2009-11-24 Fast Forward reveals how the Russian avant garde s race to establish a new artistic and social reality over a twenty year span reflected an ambitious metaphysical vision that corresponded closely to the nation s rapidly changing social parameters The embrace of speed after the 1917 Revolution however paradoxically hastened the movement s demise By the late 1920s under a variety of historical pressures avant garde artistic forms morphed into those more compatible with the political agenda of the Russian state Experimentation became politically suspect and abstractionism gave way to orthodox realism ultimately ushering in the socialist realism and aesthetic conformism of the Stalin years

David Bergelson's Strange New World Harriet Murav, 2021-12-22 A contemporary evaluation of Bergelson and his works examining Yiddish literature Jewish culture and modernism David Bergelson 1884 1952 emerged as a major literary figure who wrote in Yiddish before WWI He was one of the founders of the Kiev Kultur Lige and his work was at the center of the Yiddish speaking world of the time He was well known for creating characters who

often felt the painful after effects of the past and the clumsiness of bodies stumbling through the actions of daily life as their familiar worlds crumbled around them In this contemporary assessment of Bergelson and his fiction Harriet Murav focuses on untimeliness anachronism and warped temporality as an emotional sensory existential and historical background to Bergelson's work and world Murav grapples with the great modern theorists of time and memory especially Henri Bergson Sigmund Freud and Walter Benjamin to present Bergelson as an integral part of the philosophical and artistic experiments political and technological changes and cultural context of Russian and Yiddish modernism that marked his age As a comparative and interdisciplinary study of Yiddish literature and Jewish culture this work adds a new ethnic dimension to understandings of the turbulent birth of modernism Harriet Murav treats Bergelson with the care and sincerity that literary critics have shown other important writers This is a masterpiece of literary scholarship that will be sure to transform not only how people read Bergelson and who chooses to read Bergelson but how readers engage with the entire concept of modernism itself David Shneer author of *Yiddish and the Creation of Soviet Jewish Culture 1918-1930* Slavic and East European Journal ,1998 *Slavic Review* ,2000 American quarterly of Soviet and East European studies varies **Strong Opinions** Chris Danta,Sue Kossew,Julian Murphet,2011-07-14 This new collection of essays on Coetzee examines how his novels create and unsettle literary authority Its unique contribution is to show how Coetzee provokes us into reconsidering certain basic formal and existential questions such as the nature of literary realism the authority of the author and the constitution of the human self in a posthumanist setting by consciously revealing the literary theoretical seams of his work Strong Opinions makes the innovative claim that Coetzee's work is driven not by a sense of scepticism or nihilism but rather by a form of controlled exposure that defines the literary The essays in the volume variously draw attention to three of Coetzee's most recent and significant experiments in controlled exposure The first is the exposure of place Coetzee's decision to set his novels in his newly adopted country of Australia The second is the exposure of form Coetzee's direct almost essayistic address of literary philosophical topics within his novels And the third is the exposure of limits Coetzee's explicit deconstruction of the traditional limits of human life
