The Figure of the Animal in Modern and Contemporary Poetry Michael Malay,2018-06-05 This book argues that there are deep connections between poetic thinking and the sensitive recognition of creaturely others It explores this

proposition in relation to four poets Marianne Moore Elizabeth Bishop Ted Hughes and Les Murray Through a series of close readings and by paying close attention to issues of sound rhythm simile metaphor and image it explores how poetry cultivates a special openness towards animal others The thinking behind this book is inspired by J M Coetzee s *The Lives of Animals* In particular it takes up that book s suggestion that poetry invites us to relate to animals in an open ended and sympathetic manner Poets according to Elizabeth Costello the book s protagonist return the living electric being to language and doing so compel us to open our hearts towards animals and the claims they make upon us There are special affinities for her between the music of poetry and the recognition of others But what might it mean to say that poets to return life to language And why might this have any bearing on our relationship with animals Beyond offering many suggestive starting points Elizabeth Costello says very little about the nature of poetry s special relationship with the animal one aim of this study then is to ask of what this relationship consists not least by examining the various ways poets have bodied forth animals in language
