Berlin The Red Room And White Beer:

Berlin--the Red Room and White Beer Robert James Hellman,1990 Karl Marx Gareth Stedman Jones,2016-10-03
Gareth Stedman Jones returns Karl Marx to his nineteenth century world before later inventions transformed him into Communism's patriarch and fierce lawgiver. He shows how Marx adapted the philosophies of Kant, Hegel, Feuerbach, and others into ideas that would have in ways inconceivable to Marx an overwhelming impact in the twentieth century. **A Rich Brew** Shachar M. Pinsker,2018-05-15 Finalist 2018 National Jewish Book Award for Modern Jewish Thought and Experience presented by the Jewish Book Council Winner 2019 Jordan Schnitzer Book Award in the Jewish Literature and Linguistics Category given by the Association for Jewish Studies. A fascinating glimpse into the world of the coffeehouse and its role in shaping modern Jewish culture. Unlike the synagogue, the house of study, the community center, or the Jewish deli, the caf is rarely considered a Jewish space. Yet coffeehouses profoundly influenced the creation of modern Jewish culture from the mid-nineteenth to mid-twentieth centuries. With roots stemming from the Ottoman Empire, the coffeehouse and its drinks gained increasing popularity in Europe. The otherness and the mix of the national and transnational characteristics of the coffeehouse perhaps explains why many of these caf's were owned by Jews, why Jews became their most devoted habitués, and how caf's acquired associations with Jewishness. Examining the convergence of caf's, their urban milieu, and Jewish creativity, Shachar M. Pinsker argues that caf's anchored a silk road of modern Jewish culture. He uncovers a network of interconnected caf's that were central to the modern Jewish experience in a time of migration and urbanization, from Odessa, Warsaw, Vienna, and Berlin to New York City and Tel Aviv. **A Rich Brew** explores the Jewish culture created in these social spaces, drawing on a vivid collection of newspaper articles, memoirs, archival documents, photographs, caricatures, and artwork, as well as stories, novels, and poems in many languages set in caf's. Pinsker shows how Jewish modernity was born in the caf, nourished, and sent out into the world by way of print, politics, literature, art, and theater. What was experienced and created in the space of the coffeehouse touched thousands who read, saw, and imbibed a modern culture that redefined what it meant to be a Jew in the world. When Spinoza Met Marx Tracie Matysik,2023-01-23 Explores concepts that bring together the thinking of Spinoza and Marx. Karl Marx was a fiery revolutionary theorist who heralded the imminent demise of capitalism, while Spinoza was a contemplative philosopher who preached rational understanding and voiced skepticism about open rebellion. Spinoza criticized all teleological ideas as anthropomorphic fantasies, while Marxism came to be associated expressly with teleological historical development. Why, then, were socialists of the German nineteenth century consistently drawn to Spinoza as their philosophical guide? Tracie Matysik shows how the metaphorical meeting of Spinoza and Marx arose out of an intellectual conundrum around the meaning of activity. How is it exactly that humans can be fully determined creatures but also able to change their world? To address this paradox, many revolutionary theorists came to think of activity in the sense of Spinoza, as relating. Matysik follows these Spinozist socialist intellectual experiments as they unfolded across the nineteenth century.

drawing lessons from them that will be meaningful for the contemporary world Urban History 19:2 Kaja Lahiri, Geoffrey H. Lahiri, 1992-12-10 *The Reason of Terror* Kem Crimmins, Herbert De Vriese, 2006 The Reason of Terror pursues the need for philosophical responses attuned to the complexity of terrorism Driven by the conviction that terrorism is a worthy topic for philosophical reflection the volume presents careful conceptual analyses of terrorism while demonstrating that the relation between reason and terrorism is deeply rooted in the history of philosophy In a series of historical essays that begins with Lucretius reflections on terror includes Machiavelli and Hegel's political analyses and continues through Arendt's investigation of terror and ideology the authors counter a prevalent tendency to think that terrorism is irrational and hence beyond the pale of philosophical reflection The collection continues by investigating contemporary terrorism's impact upon subjectivity communication and rhetoric and the practice of philosophy Taken as a whole the essays demonstrate not only philosophy's ability to think terrorism but also terrorism's impact on philosophy **The Radicalism of Departure** Jeff Spiessens, 2018-11-07 To date the philosophy of Max Stirner 1806-1856 has not attracted much academic attention An early critic of Karl Marx and precursor of existentialist thought he is nevertheless remembered as a radical Young Hegelian engaged in an unsuccessful attempt to move beyond Hegel Arguing that this image of Stirner is based on a faulty interpretation of his relationship to Hegelian philosophy this book proposes an entirely new reading of his philosophical magnum opus *Der Einzige und sein Eigentum* In this work traditional philosophy epitomized by Hegel is reduced to the property of the unique or single individual This move must not only be seen as a refusal to keep traditional philosophy alive by criticising it but also entails an existentialist inversion of the traditional relation between thinker and idea This exciting new interpretation which is demonstrated here by a detailed analysis of *Der Einzige und sein Eigentum* clears the way for a philosophical rehabilitation of Stirner's ideas The Young Karl Marx David Leopold, 2007-06-28 The Young Karl Marx is an innovative and important study of Marx's early writings These writings provide the fascinating spectacle of a powerful and imaginative intellect wrestling with complex and significant issues but they also present formidable interpretative obstacles to modern readers David Leopold shows how an understanding of their intellectual and cultural context can illuminate the political dimension of these works An erudite yet accessible discussion of Marx's influences and targets frames the author's critical engagement with Marx's account of the emergence, character and future replacement of the modern state This combination of historical and analytical approaches results in a sympathetic but not uncritical exploration of such fundamental themes as alienation, citizenship, community, anti-semitism and utopianism The Young Karl Marx is a scholarly and original work which provides a radical and persuasive reinterpretation of Marx's complex and often misunderstood views of German philosophy, modern politics and human flourishing **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their

Stepelevich, 2020-12-02 Max Stirner on the Path of Doubt examines Stirner's incisive criticism of his contemporaries during the period from the death of Hegel in 1831 to the 1848 German Revolution Stirner's work mainly the Ego and His Own considered each of the major figures within that German school known as The Young Hegelians Lawrence S. Stepelevich argues that for Stirner they were but pious atheists and their common revolutionary ideology concealed an ancient religious ground which Stirner set about to reveal The central doctrine of this school that Mankind was its own Savior was initiated in 1835 by the theologian David F. Strauss's in his Life of Jesus and it progressed with August von Cieszkowski's mystical recasting of history followed by Bruno Bauer's absolute atheism and Ludwig Feuerbach's statement that Man is God This soon found reflection in the Sacred History of Mankind declared by Moses Hess Within a decade the result was the secular reformulation of this theological ideology into the Scientific Socialism of Karl Marx and Frederick Engels Although linked to it Max Stirner was the most relentless and feared critic of this school His work never out of print but largely ignored by academics has inspired countless individualists set upon rejecting any form of religious or political causes and finding Stirner's assertion that he had set his cause upon nothing took this as their own cause *Appreciating the Difference* Donald E.
