Computing Japan ,1994 Telematics for Education and Training Paul Held, Walter F. Kugemann, 1995 This book provides an overview of the current state of discussion from different perspectives It starts with the European view Representatives of the CEC present the political strategies and objectives of the IV Framework Programme regarding education and training supported by technology and telematics International experts join the discussion specifying political cultural sociological psychological and market factors which determine the success of the implementation of new learning environments How should learning systems be developed and evaluated this question is tackled in the following section Specific project descriptions show how the involvement of different user groups has been achieved home learners small and medium sized enterprises large companies secondary and tertiary education The perspective then shifts to the different components of learning systems the management of virtual space the economical production of learning material the use of simulation A more technology oriented section discussing questions of different technologies and standards concludes the publication **Language Regimes in Transformation** Florian Coulmas, 2008-08-22 Globalization has many faces One of them is the transformation of language regimes This book provides an in depth account of how two second tier languages Japanese and German are affected by this process In the international arena they no longer compete with English but their status in their home countries and as foreign languages in third countries is in flux Original empirical and theoretical contributions are presented in this up to date study of language regime change The desirability of a single all purpose language for all communication needs is seldom questioned It is simply taken for granted in many advanced countries such as Japan and the German speaking countries However it is not clear whether German and Japanese can sustain their full functional potential if their own speakers use these languages in certain domains with decreasing frequency The advantages of borderless communication in a single language on one hand and maintaining highly cultivated all purpose languages on the other are obvious The question of whether and how these two principles can be reconciled in the age of globalization is not In this book leading scholars present their answers Ulrich Ammon Tessa Carroll Nanette Gottlieb Patrick Heinrich Takao Katsuragi John Maher Kiyoshi Hara Elmar Holenstein Konrad Ehlich Fumio Inoue and Florian Coulmas **Catalog of Copyright Entries.
