Zimdars-Swartz, 2014-07-14 In the past two centuries hundreds of apparitions of the Virgin Mary have been reported drawing crowds to the seers and the sites and constituting events of great religious significance for millions of people worldwide Here Sandra Zimdars Swartz provides a detective like investigation of the experiences and interpretations of six major apparitions including those at La Salette and Lourdes in France during the mid nineteenth century at Fatima Portugal in 1917 and the more recent ones at San Damiano Italy Garabandal Spain and Medjugorje Yugoslavia where the apparitions continue Adopting a phenomenological approach to these encounters with Mary one that is neither apologetic nor antagonistic the author

explores the tension between the personal meaning of the events for their subjects and the public appropriation of this meaning by a larger religious community Along the way she examines the backgrounds of the seers their willingness or reluctance to talk about the apparitions and their messages the amount of emotional support they received from family and community as news of the apparitions spread the reports of miracles at apparition sites the reactions of local authorities and the steps taken by the Roman Catholic Church in officially recognizing or rejecting the apparitions as worthy of belief The author concludes with a survey of religious worldviews based on Marian apparitions focusing especially on the now popular transcultural apocalyptic nature of these messages to the modern world Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Fulfilled in Christ: The Sacraments. A Guide to Symbols and Types in the Bible and Tradition Fr. Devin Roza, 2015-07-01 The Early Church read the Scriptures with the conviction that in the words of St Augustine The New Testament lies hidden in the Old and the Old Testament is unveiled in the New Drawing inspiration from how both the Apostles and Christ himself read the Old Covenant as referring to the New cf Luke 24 27 1 Peter 3 20 21 1 Corinthians 10 1 5 the Church found the Old Testament to be rich with figures or types that foreshadowed both the mysteries of the life of Christ and the mysteries or sacraments of the New Covenant And yet in modern times the study of types or typology has been largely abandoned by scholars due to the dangers of subjectivity and exaggeration How can typology be studied in a way that is objective and that avoids the excesses present in the past Fr Devin Roza seeks to offer a solution to these difficulties by asking the question According to the Scriptures and the living Tradition of the Church what are the types and symbols of the sacraments and what do they mean As authorized representatives of the living Tradition the Liturgy including the readings from the Church Fathers and the Catechism together with the Scriptures offer both the scholar and pastor the opportunity to study typology as the Catholic Church herself understands and prays it today in those texts the Church considers her own Fulfilled in Christ thus offers a comprehensive and readable summary of references to types and symbols of the sacraments in the Scriptures and the living Tradition of the Church as represented by the Liturgy and the Catechism The result is a highly objective scholarly and at the same time pastoral study of how the Church understands and lives the types and symbols of the sacraments today
