Bernar Venet Barry Schwabsky, Florence Derieux, Clare Lilley, 2020-06-17 The first true monograph on the work of celebrated French conceptual artist and sculptor Bernar Venet Bernar Venet is one of France's most celebrated living artists Having emerged from the late 1960s avant garde scene in New York Venet developed a personal aesthetic based on an innovative use of mathematics and science where control chance and chaos converge to form a fine equilibrium while investigating their relationship with the environment Conversant in many media Venet is mostly known for his monumental outdoor sculptures in major cities worldwide and in fall 19 his Arc Majeur is due for completion at a site in Belgium at almost 200 feet in height 60 metres Venet's sculpture will be taller than New York's Statue of Liberty Bernar Venet Thierry Lenain, Thomas McEvilley, Bernar Venet, 2007-09-18 Bernar Venet b 1941 France is a master of contemporary conceptual art who has worked in all media from painting and sculpture to film music and ballet In his early work Venet sought to distill art to strip it of aesthetic or expressive content and to reestablish it as purely conceptual He withdrew from the art world in 1971 fulfilling a promise he had made four years prior to stop producing new work once he perceived that his term was up After a six year hiatus the artist reemerged and over the next thirty years produced a vast body of work in diverse media This monograph complete with over 300 illustrations addresses the struggle of aesthetic and intellectual forces at play in contemporary art through the work of one of its foremost practitioners Today Venet's sculptures massive iron structures in three categories lines and angles arcs and indeterminate lines are exhibited in museums and public spaces across the world These forms whether striking out independently into the air leaning against a chateau curving upward from the earth or twisting arbitrarily around themselves or each other stand at the threshold between the physical and the abstract between the material and the purely geometric testing the liminal spaces between art world and mind Bernar Venet Bernar Venet, 1976 **Bernar Venet** Donald Burton Kuspit, 2002 A collection of three essays and one interview on the works of mathematical muralist Bernar Venet **Bernar Venet** Thomas McEvilley, Bernar Venet, 2002 **Bernar Venet performances, etc. 1961-2006. the last two decades to an investigation of meaning and form in sculpture Venet was trained as a painter but quickly became involved with conceptual art experimenting with mathematical and aesthetic principles in a variety of media particularly sculpture In this illustrated book critic Carter Ratcliff provides an illuminating look at the complex relationship between form language and meaning in Venet's recent work **Bernar Venet** Bernar Venet, 1995 **Bernar Venet.
