New Horizons for Early Modern European Scholarship Ann Blair,Nicholas Popper,2021-08-10 This edited collection

assembles a set of essays investigating the past present and future historiography of scholars who write about the cultural and intellectual history of early modern Europe Contributors examine how scholars in recent decades have broken down traditional boundaries imposed on this period by exploring shifting conceptions of periodization geography genre and evidence

Latin American Literature in Transition Pre-1492-1800 Rocío Quispe-Agnoli,Amber Brian,2022-12-08 The year 1492 invokes many instances of transition in a variety of ways that intersected overlapped and shaped the emergence of Latin America For the diverse Native inhabitants of the Americas as well as the people of Europe Africa and Asia who crossed the Atlantic and Pacific as part of the early modern global movements their lived experiences were defined by transitions The Iberian territories from approximately 1492 1800 extended from what is now the US Southwest to Tierra del Fuego and from the Iberian coasts to the Philippines and China Built around six thematic areas that underline key processes that shaped the colonial period and its legacies space body belief systems literacies languages and identities this innovative volume goes beyond the traditional European understanding of the lettered canon It examines a range of texts including books published in Europe and the New World and manuscripts stored in repositories around the globe that represent poetry prose judicial proceedings sermons letters grammars and dictionaries

The Oxford Handbook of Neo-Latin Stefan Tilg,Sarah Knight,2015 From the dawn of the early modern period around 1400 until the eighteenth century Latin was still the European language and its influence extended as far as Asia and the Americas At the same time the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics Latin also entered into a complex interplay with the rising vernacular languages This Handbook gives an accessible survey of the main genres contexts and regions of Neo Latin as we have come to call Latin writing composed in the wake of Petrarch 1304 74 Its emphasis is on the period of Neo Latin s greatest cultural relevance from the fifteenth to the eighteenth centuries Its chapters written by specialists in the field present individual methodologies and focuses while retaining an introductory character The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo Latin literature and culture It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome its early modern reception and the shifting characteristics of post classical Latin language and literature Political social cultural and intellectual historians will find much relevant material in the Handbook and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest

The Hatata Inquiries Zara Yaqob,Walda Heywat,2023-11-20 The Hatata Inquiries are two extraordinary texts of African philosophy composed in Ethiopia in the 1600s Written in the ancient African language of Ge ez Classical Ethiopic these explorations of meaning and reason are deeply considered works of rhetoric They advocate for women s rights and rail against slavery They offer ontological proofs for God and question biblical commands while delighting in the language of Psalms They advise on right living They put reason above belief desire above asceticism love above sectarianism and the natural world above the

human They explore the nature of being as well as the nature of knowledge the human ethics and the human relation with the divine They are remarkable examples of something many assume doesn't exist early written African thought This accessible English translation of the Hatata Inquiries along with extensive footnotes documenting the cultural and historical context and the work's many textual allusions enables all to read it and scholars to teach with it The Hatata Inquiries are essential to understanding the global history of philosophy being among the early works of rational philosophy The book includes a translation by Ralph Lee with Mehari Worku and Wendy Laura Belcher of the Hatata Zara Yaqob and the Hatata Walda Heywat The appendices by Jeremy R Brown provide information on the scribal interventions in and the differences between the manuscripts of the two Hatatas The book also includes a map chronology summary of the translation principles and a discussion of the authorship debate about the Hatata Inquiries

Voices and Echoes of Early Greek Philosophy María-Elena García-Peláez, David Lévy, 2024-12-02 The seventeen contributions constituting this edited volume focus on archaic Greek thought Presocratics broadly understood including Sophists Archaic poets or Tragedians and its multiform reception use or appropriation through times and lands The first chapters deal with the direct reconstruction and understanding of early Greek thought from the very first philosophical writings to the last Presocratic philosopher By alternating discussions of editorial and translation issues stylistic analysis geographical study and history of science these contributions question the value of the testimonies or fragments attributed to those early thinkers and challenge our understanding of the texts at the origin of western philosophy The volume subsequently focuses on the echoes of those Archaic voices over a long period of time from Aristotle to the 20th century From their early reception in Greek and Roman time to their adaptation in contemporary poetry by way of their appropriation and use in Islamic philosophy or in Latin America colonization the contributions gathered in this second part illustrate the large scope of influence of ancient philosophers and of their ideas in various times and places

Global Goods and the Spanish Empire, 1492-1824 B. Aram, B. Yun-Casalilla, 2014-11-18 Drawing upon economic history cultural studies intellectual history and the history of science and medicine this collection of case studies examines the transatlantic transfer and transformation of goods and ideas with particular emphasis on their reception in Europe

Translated Christianities Mark Z. Christensen, 2015-06-10 Beginning in the sixteenth century ecclesiastics and others created religious texts written in the native languages of the Nahuatl and Yucatec Maya These texts played an important role in the evangelization of central Mexico and Yucatan Translated Christianities is the first book to provide readers with English translations of a variety of Nahuatl and Maya religious texts It pulls Nahuatl and Maya sermons catechisms and confessional manuals out of relative obscurity and presents them to the reader in a way that illustrates similarities differences and trends in religious text production throughout the colonial period The texts included in this work

are diverse Their authors range from Spanish ecclesiastics to native assistants from Catholics to Methodists and from sixteenth century Nahuas to nineteenth century Maya Although translated from its native language into English each text illustrates the impact of European and native cultures on its content Medieval tales popular in Europe are transformed to accommodate a New World native audience biblical figures assume native identities and texts admonishing Christian behavior are tailored to meet the demands of a colonial native population Moreover the book provides the first translation and analysis of a Methodist catechism written in Yucatec Maya to convert the Maya of Belize and Yucatan Ultimately readers are offered an uncommon opportunity to read for themselves the translated Christianities that Nahuatl and Maya texts contained

Signs of the Americas Edgar Garcia, 2020-01-23 Indigenous sign systems such as pictographs petroglyphs hieroglyphs and khipu are usually understood as relics from an inaccessible past That is far from the truth however as Edgar Garcia makes clear in Signs of the Americas Rather than being dead languages these sign systems have always been living evolving signifiers responsive to their circumstances and able to continuously redefine themselves and the nature of the world Garcia tells the story of the present life of these sign systems examining the contemporary impact they have had on poetry prose visual art legal philosophy political activism and environmental thinking In doing so he brings together a wide range of indigenous and non indigenous authors and artists of the Americas from Aztec priests and Amazonian shamans to Simon Ortiz Gerald Vizenor Jaime de Angulo Charles Olson Cy Twombly Gloria Anzald a William Burroughs Louise Erdrich Cecilia Vicu a and many others From these sources Garcia depicts the culture of a modern interconnected hemisphere revealing that while these signs of the Americas have suffered expropriation misuse and mistranslation they have also created their own systems of knowing and being These indigenous systems help us to rethink categories of race gender nationalism and history Producing a new way of thinking about our interconnected hemisphere this ambitious energizing book redefines what constitutes a world in world literature

Writing with the Words of Others Alan J. Clayton, 2010 Hans Magnus Enzensberger is one of the most widely read and respected writers in post war Germany In the present study a considerable number of his most important poems are closely analyzed including the texts that make up his major poetic cycles Mausoleum 1975 and Der Untergang der Titanic 1978 Central to any discussion of this highly diverse corpus is the way in which Enzensberger creates strikingly original poems on the basis of borrowed material Der Untergang der Titanic for example is closely based on the famous bestseller A Night to Remember 1955 by the American writer Walter Lord and on the film of the same name by Roy Baker 1958 Enzensberger s Versepos is simply unimaginable without Lord s book and certain episodes represented in the poem can be fully understood only by readers who have seen the film The appropriation of documentary material also plays an important role in the series of poems devoted to nature or science many of which present themselves as riddles An entire chapter is devoted to the analysis of these fascinating riddle poems The various personages portrayed in Mausoleum comprise not only scientists inventors explorers and thinkers who were responsible for truly world

changing discoveries Gutenberg Humboldt and Darwin for example but also a whole series of historical figures whose admission to this oddball pantheon is best explained by the bizarreness of their often utopian projects or by their compulsive or megalomaniacal personalities The playful and provocative Enzensberger clearly chose several of these latter for their shock value Raimondo di Sangro V M Molotov Ernesto Guevara de la Serna Our reading of this collection demonstrates Enzensberger's willingness to undermine seriousness with irony and humor hence the presence of Dante and Marilyn Monroe on board the sinking Titanic The final chapter examines the relation between poetry and politics and examines the notorious essay Gemeinpl tze die Neueste Literatur betreffend 1968 as well as the disturbing interview with the Weimarer Beitr ge 1971 in which the poet expresses his thankfully short lived rejection of literature as art and his desire to break out of the Ghetto des Kulturlebens This chapter also discusses the influence of Bertolt Brecht Other chapters focus on the poet's taste for anachronism his asynchronous sensibility and the recurrent theme of disappearance Work Useful to Religion and the Humanities

Laura Ammon, 2012-10-09 In many ways the method of comparison in the study of religion is connected to European expansion and empire building This work explores the early modern origins of the comparative method for the cross cultural study of religion beginning with its roots in the earliest missionary contact in the Spanish conquest and concluding with the Victorian anthropologists of the British Empire Ammon explores the development of the comparative method in religion from the sixteenth through the nineteenth centuries approaching the history of comparison by tracing its development from the first moments of contact with the New World through the recognized origin of the discipline of anthropology This work delineates the comparative method from Bartolome de Las Casas to Edward Burnett Tylor exploring a piece of the story we can tell about the development of the comparative methods and religious transformation in the disciplines of anthropology ethnology and comparative religion **Aztec Thought and Culture** Miguel

Leon-Portilla, 2012-11-28 For at least two millennia before the advent of the Spaniards in 1519 there was a flourishing civilization in central Mexico During that long span of time a cultural evolution took place which saw a high development of the arts and literature the formulation of complex religious doctrines systems of education and diverse political and social organization The rich documentation concerning these people commonly called Aztecs includes in addition to a few codices written before the Conquest thousands of folios in the Nahuatl or Aztec language written by natives after the Conquest Adapting the Latin alphabet which they had been taught by the missionary friars to their native tongue they recorded poems chronicles and traditions The fundamental concepts of ancient Mexico presented and examined in this book have been taken from more than ninety original Aztec documents They concern the origin of the universe and of life conjectures on the mystery of God the possibility of comprehending things beyond the realm of experience life after death and the meaning of education history and art The philosophy of the Nahuatl wise men which probably stemmed from the ancient doctrines and traditions of the Teotihuacans and Toltecs quite often reveals profound intuition and in some instances is remarkably modern

This English edition is not a direct translation of the original Spanish but an adaptation and rewriting of the text for the English speaking reader Sustaining Literature Simon Varey,2007 A collection of scholarly essays by leading scholars on texts writers and cultural interests that represent the interests of the late scholar of the Renaissance and the 18th century Simon Varey **The Psychology of World Religions and Spiritualities** Timothy A. Sisemore,Joshua J. Knabb,2021-09-20 This compendium of introductory essays invites scholars and clinicians to better understand people of various faiths from around the world It is intended to correct the tendency among scientists to study religious behavior without accounting for its human dimension For example a psychologist describes a religious ceremony in a certain community as a sociological phenomenon Such a technical description is likely to strike members of that community as an attempt by science to explain away their beliefs This is counterproductive In order to work effectively and empathetically with people of faith psychologists should seek an intimate knowledge of how religion operates in the hearts and minds of living breathing human beings With this goal in mind editors Timothy Sisemore and Joshua Knabb have made one of the world s major religions the subject of a separate chapter In addition they have arranged for each chapter to be written by a psychologist who practices or is culturally connected with that religion This marks the book s unique contribution to the field it is the product of people who have lived the world s religions not merely studied them By taking such a respectful approach the book promotes an appreciation for the ways that religious belief animates inspires and instructs its adherents Moreover the indigenous point of view of these essays will help scholars identify their own biases when researching religious groups allowing them to produce more accurate and holistic analyses Psychologists understand that religion and spirituality provide meaning and purpose to billions of people around the globe But the actual experience of these beliefs eludes the grasp of the reductionistic methods of science With this resource at their side psychologists in academic and clinical settings will be equipped to understand religious experience from the bottom up and honor the beliefs and practices of the people they are trying to help New Frontiers in Guadalupan Studies Virgilio Elizondo,Timothy Matovina,2014-09-18 Historical writings on Our Lady of Guadalupe the most revered sacred figure indigenous to the western hemisphere have tended to focus on the sixteenth century origins of her cult But recent publications have increasingly extended Guadalupan studies beyond the origin debates to analyses of the subsequent evolution and immense influence of the Guadalupe tradition New Frontiers in Guadalupan Studies significantly enhances this growing body of literature with insightful essays on topics that span the early stages of Guadalupan devotion to the milestone of Pope Benedict XIV establishing an official liturgical feast for Guadalupe in 1754 The volume also breaks new ground in theological analyses of Guadalupe which comprise an ongoing effort to articulate a Christian response to one of the most momentous events of Christianity s second millennium the conquest evangelization and struggles for life dignity and self determination of the peoples of the Americas
