Zhou offers a reconceptualization of both self and other Taking difference as a source of creativity and turning it into a form of resistance and a critical intervention Asian American poets engage with broader issues than the merely poetic They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism sexism and colonialism By locating the ethical and political questions of otherness in language discourse aesthetics and everyday encounters Asian American poets help advance critical studies in race gender and popular culture as well as in poetry The Ethics and Poetics of Alterity is not limited however to literary studies it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries The Poets Marilyn Chin Kimiko Hahn Myung Mi Kim Li Young Lee Timothy Liu David Mura and John Yau **International Who's Who in Poetry 2004** Europa Publications,2003 Provides up to date profiles on the careers of leading and emerging poets

**Memory, Metaphors, and Meaning** Nicolae Babuts, 2017-07-05 Literature explores the human condition the mystery of the world life and death as well as our relations with others and our desires and dreams It differs from science in its aims and methods but Babuts shows in other respects that literature has much common ground with science Both aim for an authentic version of truth To this end literature employs metaphors and it does so in a manner similar to that of scientific inquiry The cognitive view does not imply that there is a one to one correlation between the world and text that meaning belongs to the author or that literature is equivalent to perception What it does maintain is that meaning is crucially dependent on mnemonic initiatives and that without memory the world remains meaningless Nicolae Babuts claims that at the interface with the printed page readers process texts in a manner similar to the way they explain the visible world in segments or units of meaning or dynamic patterns Babuts argues that humans achieve recognition by integrating stimulus sequences with corresponding patterns that

recognize and interpret each segment of a text Memory produces meaning from these patterns In harmony with its goals memory may adopt specific strategies to deal with different stimuli Dynamic patterns link the unit of processing with the unit of meaning In sum Babuts proposes that meaning is achieved through metaphors and narrative and that both are ways to reach cognitive goals This original study offers perspectives that will interest cognitive psychologists as well as those simply interested in the process through which literature stirs the human imagination
