 Scandinavian Countries Author Index **Teacher Professional Learning in an Age of Compliance** Susan
 Groundwater-Smith, Nicole Mockler, 2009-04-29 Teacher Professional Learning in an Age of Compliance Mind the Gap
 examines ways in which practice based inquiry in educational settings in a number of different countries and contexts can
 transcend current ways of working and thinking such that authentic professional learning is the result The authors contend
 that education policy under pressure from a number of quarters is retreating into a standardized audited and backward
 looking arena with the advances of more progressive educational philosophy being rolled back In an age where practitioner
 inquiry and action research have often been hijacked for the purposes of broad based policy implementation this book offers
 a rationale for reclaiming the critical edge so fundamental to inquiry based professional learning It examines the potential of
 inquiry based forms of teacher professional learning to contribute to the growth of professional knowledge for and about
 teachers work The authors intend that the book will assist in building new forms of professional knowledge that go beyond
 the current compliance model engineered from less enduring materials to inform a new model with its foundations in a
 strong ethical and moral framework They also believe that this new model if implemented will help to reverse today's
 conservative educational trends and make teacher professional development a force for genuine progress once again They
 have consciously moved away from the celebratory tone of much of the academic reporting of teacher professional learning
 adopting instead a genuinely critical edge In covering a wide range of policies and practices from across the international
 spectrum they have allowed themselves the freedom to engage in serious epistemological arguments about the nature of
 professional knowledge as well as how it is constructed and employed **Professional Journal of the United States**
Army, 2007 **The Problem with Pleasure** Laura Frost, 2013-07-09 Aldous Huxley decried the horrors of modern pleasure
 or the proliferation of mass produced widely accessible entertainment that could degrade or dull the mind He and his
 contemporaries including James Joyce T S Eliot Gertrude Stein D H Lawrence and Jean Rhys sought to radically redefine
 pleasure constructing arduous and indirect paths to delight through their notoriously daunting work Laura Frost follows
 these experiments in the art of unpleasure connecting modernism's signature characteristics such as irony allusiveness and
 obscurity to an ambitious attempt to reconfigure bliss In The Problem with Pleasure Frost draws upon a wide variety of
 materials linking interwar amusements such as the talkies romance novels the Parisian fragrance Chanel no 5 and the exotic
 confection Turkish Delight to the artistic play of Joyce Lawrence Stein Rhys and others She considers pop cultural
 phenomena and the rise of celebrities such as Rudolph Valentino and Gypsy Rose Lee against contemporary sociological
 scientific and philosophical writings on leisure and desire Throughout her study Frost incorporates recent scholarship on
 material and visual culture and vernacular modernism recasting the period's high low elite popular divides and formal

strategies as efforts to regulate sensual and cerebral experience Capturing the challenging tensions between these artists commitment to innovation and the stimulating amusements they denounced yet deployed in their writing Frost calls attention to the central role of pleasure in shaping interwar culture *New Directions in the Study of African American Recolonization* Beverly Tomek, Matthew J. faculty researchers and professionals in these areas More Beautiful and More Terrible Imani Perry, 2011-02-28 Perry argues that racism in America has moved into a new phase post intentional For a nation that often optimistically claims to be post racial we are still mired in the practices of racial inequality that plays out in law policy and in our local communities One of two explanations is often given for this persistent phenomenon On the one hand we might be hypocritical saying one thing and doing or believing another on the other it might have little to do with us individually but rather be inherent to the structure of American society More Beautiful and More Terrible compels us to think beyond this insufficient dichotomy in order to see how racial inequality is perpetuated Imani Perry asserts that the U S is in a new and distinct phase of racism that is post intentional neither based on the intentional discrimination of the past nor drawing upon biological concepts of race Drawing upon the insights and tools of critical race theory social policy law sociology and cultural studies she demonstrates how post intentional racism works and maintains that it cannot be addressed solely through the kinds of structural solutions of the Left or the values arguments of the Right Rather the author identifies a place in the middle a space of righteous hope and articulates a notion of ethics and human agency that will allow us to expand and amplify that hope To paraphrase James Baldwin when talking about race it is both more terrible than most think but also more beautiful than most can imagine with limitless and open ended possibility Perry leads readers down the path of imagining the possible and points to the way forward **A History of Victims of Crime** Stephen Strauss-Walsh, 2023-05-19 This book examines the evolution of the contemporary crime victim s procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender s right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim s new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history
