## Best Of Frederick Pohl:

The Best of Frederik Pohl Frederik Pohl, 1976      Best of Frederick Pohl Frederik Pohl, 1977      The Best of Frederik Pohl ; Introd. by Lester Del Rey ; Afterword by Frederik Pohl Frederik Pohl, 1975      **Our Best** Frederik Pohl, Cyril M. Kornbluth, 1987      Frederik Pohl, Merchant of Excellence Phil Stephensen-Payne, 1989      **Foods of the Gods** Gary Westfahl, George Edgar Slusser, Eric S. Rabkin, 1996

Gluttony and starvation pleasure and pain growth and decay These and other extremes of our condition related to food though all but banned from the civilized tables of mainstream fiction are ideal topics for the undomesticated free roaming modes of fantasy As acts and ideas food and eating are fundamental to all that makes us human and dominate our symbolic realms of art literature and cuisine These essays show us the power of speculative modes of fiction to help us look anew at prehistorical and psychomylthical attitudes toward food and eating historical Western cultural attitudes toward the material fact of food and the necessity of eating and the relationship between attitudes toward food and how how much when and where we eat The contributors come from a variety of backgrounds including anthropology film and French Russian English and medieval literature Ranging in their focus from shamans to cannibals utopias to social Darwinism muscle magazines to supermarket tabloids the contributors discuss the theory and practice of science fictional eating the dialectic at the level of eating between individual needs and collective norms and the ways that eating habits and the availability and choice of food serve to contextualize and demarcate modern fictional genres In addition to discussing such writers as C S Lewis Stephen King Octavia Butler Jonathan Swift and Anne Rice the contributors also consider such films as Indiana Jones and the Temple of Doom and Cocteau s Beauty and the Beast      Short Story Index , 1974      Virtually Sacred Robert M. Geraci, 2014 Robert Geraci argues that virtual worlds and video games have become a locus for the satisfaction of religious needs providing many users with communities a meaningful experience of history and human activity and a sense of transcendence      **Literature and Science** Sharon Ruston, 2008 Ranging from the middle ages to the 20th century science fiction and literary theory and using different texts genres and methodologies the essays collected here demonstrate the complexity of literature science and the interfaces between them      A Checklist of Wilson Tucker C. P. Stephens, 1993      Chicorel Index to Short Stories in Anthologies and Collections , 1975      Platinum Pohl Frederik Pohl, 2007-01-23 Frederik Pohl the bestselling author of The Boy Who Would Live Forever is famous for his novels but first and foremost he is a master of the science fiction short story For more than fifty years he has been writing incisive entertaining SF stories several hundred in all Even while writing his bestselling triple crown Hugo Nebula Campbell Award novel Gateway and the other Heechee Saga novels he has always written short fiction Now for the first time he has gathered together the best of his many stories in Platinum Pohl Spanning the decades these tales are in their way a living history of science fiction Because Frederik Pohl has been on the frontlines of the field since the halcyon days of the late 1930s and has written short stories in every decade since And because he has always been a keen observer of the human

condition and the world that is shaped by it his stories reflect the currents of political movements social trends major events that have shaken the world Yet at their core all his stories are most acutely concerned with people All sorts of people Some are people you ll love some you ll hate But you will need to find out what happens to the people who inhabit these stories Because Frederik Pohl imbues his characters with a depth and individuality that makes them as real as people you see every day Of course he also employs a mind boggling variety of scientific ideas and science fictional tropes with which his characters must interact And he does it all with seemingly no effort at all That s some trick Not everyone can do that but that s why he was named a Grand Master of Science Fiction by his peers in the Science Fiction Writers of America Here are his two Hugo Award winning stories Fermi and Frost and The Meeting with C M Kornbluth along with such classic novellas as the powerful The Gold at the Starbow s End and The Greening of Bed Stuy and stories such as Servant of the People Shaffery Among the Immortals and Growing Up in Edge City all finalists for major awards And dozens of other wonderful tales like The Mayor of Mare Tranq and the provocative The Day the Martians Landed and many others Altogether a grand collection of thought provoking entertaining science fiction by one of the all time greats At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
