Why Isn't Al Gore President? Thomas L. Waldron, 2005-02 The book is the summary of the major circumstances contributing to Al Gore s loss in 2000 derived from books and articles intended for the non academic reader Topics discussed are the electoral college voter roll purging in Florida Ralph Nader s candidacy ballot design in Palm Beach and Duval Counties and the recount in Palm Beach County the decision of the Bush campaign to obstruct the Florida recount and the Bush campaign s military overseas absentee ballot operation It presents the author s interpretation of these circumstances and how in hindsight the Gore campaign might have overcome them

Naked at the Mic / L.A. Steel, 2010-03-11 NAKED AT THE MIC The Survival of a Liberal in a Time of Peril is a book based upon 10 years of exhaustive research and personal experiences collected in an autobiographical and historical account of the national and international politics and the national social upheaval during the Conservative Revolution That political movement of Bush Fascism during the first decade of the 21st Century as I witnessed and reported it on my television and radio programs and my website www.lasteelshow.org during the years of 2000 to 2009 Naked at the Mic is also a public compliment to the many people who fought valiantly to print and broadcast truth and liberal commentary while the entire broadcast media was dominated and censored of Liberal Thought by the Conservative right wing media the G W Bush administration and the cabal of Muslim hating warmongers famously known as the NeoCons Naked at the Mic also commemorates the many heroic members of activist and citizen action groups and organizations that fight daily to protect themselves and their country from the insanity of G W Bushs administration and his minions and their nightmare reality of war genocide and slaughter in the Middle East and the cruel corrupt and oppressive government they imposed on the American people during their reign of terror and torture from 2000 to 2008 I speak honestly about the 2008 presidential candidates and the election of Barack Obama and why I voted for him and my great disappointment after his horrific betrayal of all who elected him The research for Naked at the Mic entailed over 5000 news articles that I have personally archived and preserved on paper to verify every quote and reference I make and over 100 books and over 500 recorded interviews with authors activists and politicians on 550 archived radio shows ten televised documentaries and 400 television programs I had produced up to 2009 when I completed this book

Naked at the Mic is an honest look back through time at people and events that have been at the forefront of national and world changing events This book is a historical record of one of the most volatile decades in American and world history It reports and comments on many of the most important national and international issues from 2000 to 2009 I discuss in detail the corrupt 2000 presidential election 911 the Afghanistan and Iraq invasions Katrina and expose the massive corporate financial and political corruption and mass media cover ups until the end of 2009 I honestly expose left and right wing politics and give a unique front line perspective of the massive sea change of American Society that caused G W Bushs 75 percent approval rating in 2001 to his final approval rating of 24% in 2008 Naked at the Mic The Survival of a Liberal in a Time of Peril is honest fast moving highly informative and well researched and is an accurate historical account of the characters involved with one of the longest running liberal radio shows in America during one of the most politically conservative and most destructive periods in American history that has led to the current economic military and moral demise of America Ralph Waldo Emerson once stated in his essay The Oversoul Oh Believe that every word that was meant for thine ear to hear will come to thee I believe a lot of people are meant to hear what this book has to say L A Steel **The Hidden History of Crime, Corruption, and States** Renate Bridenthal,2017-06 Renowned historical sociologist Charles Tilly wrote many years ago that banditry piracy gangland rivalry policing and war making all belong on the same continuum This volume pursues the idea by revealing how lawbreakers and lawmakers have related to one another on the shadowy terrains of power over wide stretches of time and space Illicit activities and forces have been more important in state building and state maintenance than conventional histories have acknowledged Covering vast chronological and global terrain this book traces the contested and often overlapping boundaries between these practices in such very different polities as the pre modern city states of Europe the modern nation states of France and Japan the imperial power of Britain in India and North America Africa s and Southeast Asia s postcolonial states and the emerging postmodern regional entity of the Mediterranean Sea Indeed the contemporary explosion of transnational crime raises the question of whether or not the relationship of illicit to licit practices may be mutating once more leading to new political forms beyond the nation state

Massey,2009-01-10 Somewhere in the 1970s liberals in the

United States lost their way After successes like the New Deal they became arrogant So argues Douglas Massey in *Return of the L Word* Faced with the difficult politics of race and class liberals used the heavy hand of government to impose policies on a resentful public Conservatives capitalized on this with a staunch ideology of free markets limited government and conservative social values The time is ripe for a liberal realignment declares Massey but what has been lacking is a consistent liberal ideology that explains to voters in simple terms government's vital role in producing a healthier more financially equitable less divided society This book supplies that ideology Massey begins his powerful manifesto by laying out the liberals mistakes over the past twenty years Drawing on insights from the expanding field of economic sociology he then sets forth a clear set of liberal principles to explain how markets work in society principles he applies to articulate salable liberal policies After outlining a new liberal political philosophy Massey traces liberalism's opposition and says plainly liberals should have no illusions about the competition's resolve and skill He closes with a practical approach to liberal coalition building in America The political economy conservatives have constructed in recent decades has benefited 20 percent of the people Liberal success requires a return to material rather than symbolic politics showing most Americans why it is in their economic as well as moral interest to support the liberal cause

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind: Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This

book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

The Triumph of Ignorance and Bliss James Polk,2008 James Polk explores the mundane symbols interests and power structures that increasingly permeate and define American society *Was the 2004 Presidential Election Stolen?* Steven F. Freeman,Joel Bleifuss,2011-01-04 On the afternoon of election day 2004 the world was abuzz with the news exit polls indicated that John Kerry would decisively win the election and become the next president of the United States That proved not to be the case According to the official count the number of votes tallied not necessarily the number of votes cast George W Bush beat Kerry by a margin of three million votes The exit polls however had predicted a margin of victory for Kerry of five million votes Occurrences of vote manipulation vote suppression and outright election fraud were alleged at the local level in many precincts throughout Ohio and other battleground states Where the controversy of the 2000 presidential election had come about as the result of an extremely close race in 2004 the irregularities were widespread and appeared to follow a clear pattern Why then did the Democrats concede the election early the next morning Why has there been no investigation by any major news organization What does it say about our democracy when the slot machine industry is more strictly regulated than our electronic voting machines *Was the 2004 Presidential Election Stolen* analyzes the available data and attempts to answer the question of whether America s sitting president was inaugurated after winning or losing the 2004 presidential race **Murder by Madness 9/11** Rachel Verdon,2012-02-02 *Murder By Madness 9 11* is not just the history of the most notorious attack upon American shores it is a banking caper Just who are the financiers of terrorism As always follow the money **Free Market Missionaries** Sharon Beder,2012-06-25 In her recent book *Suited Themselves* bestselling author Sharon Beder exposed how the global corporate elite have brazenly rewritten the rules of the global

economy to line their pockets In this new book she trains her sights on the insidious underbelly of this global trend to show how they have also orchestrated a mass propaganda campaign to manipulate community values and convince us that their interest co-opting and controlling all of us in the name of the free market is in our interest During the 20th century business associations coordinated mass propaganda campaigns combining 20th century American PR methods with revitalized free market ideology from 18th century Europe The aim was to persuade people to eschew their own power as workers and citizens and forego their democratic power to restrain and regulate business activity Sophisticated corporate funded think tanks augmented these campaigns in the 1970s and 1980s promoting free enterprise and business friendly policies These free market missionaries now seek to change individual and institutional values through bolder strategies such as expanding share ownership and manipulating wider public concerns In each case the goal is the same the triumph of business values over community values Beder's is an intellectual call to arms challenge the ideology of the free market missionaries or be converted to it

Suiting Themselves Sharon Beder, 2012-06-25 In this brilliantly researched exposé communications Rottweiler Sharon Beder blasts open the backrooms and boardrooms to reveal how the international corporate elite dictate global politics for their own benefit Beder shows how they created business associations and think tanks in the 1970s to drive public policy forced the worldwide privatization and deregulation of public services in the 1980s and 1990s enabling a massive transfer of ownership and control over essential services and still not satisfied have worked relentlessly since the late 1990s to rewrite the very rules of the global economy to funnel wealth and power into their pockets Want a globalized and homogenized world of conflict poverty and massive environmental degradation run by a corporate oligarchy that wipes its feet on democracy Or a democratic world where poverty is history companies work for people and clean water is a right not a privilege you pay for Beder's message is clear it's your world and it's time to fight for it

Propaganda, Communication and Empire Sumanth Inukonda, Oliver Boyd-Barrett, Lara Martin Lengel, 2025-04-22 This volume interrogates the mediatized politics of western intervention in Afghanistan to gain a deeper understanding of the occupation within the broader transition toward a multipolar global order Accurate histories of western interventions and regional realities are often obscured or even eclipsed in the accounts of western mainstream media which if anything tend to rue the withdrawals and lionize the suffering of returning troops This volume investigates the state's role in the dark underbelly of the shortsighted interventionist media narrative as well as the dehumanizing portrayals of people living in the Afghanistan Pakistan region In its opening section the book critically evaluates the narrative of the Global War on Terror as well as the wars launched after 9/11 that destabilized the Middle East The chapters in the following section contextualize developments in Afghanistan with a historical framework that will problematize linear narratives that are mobilized in support of interventions The chapters in the final section represent specific aspects of the geopolitical and humanitarian consequences that have eluded mainstream media workers including journalists and Hollywood moviemakers This book will be of interest

Nassar,2009-07-16 Courageously stepping into charged terrain this book casts a clear light on globalization and terrorism for what they are not what some may wish them to be Jamal R Nassar carefully defines these twin concepts placing them in historical as well as political context Woven throughout the book is his central theme of the migration of dreams and nightmares As some are able to take advantage of the opportunities of globalization leaving others behind they leave behind a legacy of unrealistic dreams These unfulfilled hopes of the poor and oppressed often transform themselves into nightmares for the wealthy and powerful This vicious cycle the author argues is often enhanced by globalization and effected by terrorism Focusing on the key case studies of Palestine and Northern Ireland Nassar applies their lessons to other examples of conflict including Iraq Afghanistan the Congo Chechnya and Colombia in order to internationalize our understanding of how globalization and terrorism operate in a range of situations He also devotes a chapter to Islamist terrorism in a tour de force of incisiveness and balance This book considers globalization and terrorism not only from the perspective of the major powers but also introduces the views of those dominated by forces beyond their control Yet even as the author offers a profound critique of Western hegemony he conveys respect and hope for an enlightened global interdependence embracing the power of the dream over the nightmare *Mother Jones* ,2003 **The Ecologist** ,2003 **Crony Capitalism in India** Naresh Khatri,Abhoy Ojha,2017-07-17 Crony Capitalism in India provides a comprehensive and scholarly examination of the important topic of crony capitalism filling an important gap in the market Bringing together experts from various backgrounds it addresses the key underpinnings of this complex and multifarious issue Given the emergent nature of the Indian economy this book provides important information for decision makers in both government and business to help establish a robust institutional framework that is so desperately needed both in India and globally
