Gimme Shelter Mary Elizabeth Williams, 2009-03-03 Of course I want a home writes Mary Elizabeth Williams I m American Gimme Shelter is the first book to reveal how this primal desire encoded into our cultural DNA drove our nation to extremes from the heights of an unprecedented housing boom to the depths of an unparalleled crash As a writer and parent in New York City Williams is careful to ground her real estate dreams in the reality of her middle class bank account Yet as a person who knows no other way to fall in love than at first sight her relationship with the nation s most daunting housing market is a passionate one Williams s house hunting fantasy quickly morphs into a test of endurance as her search for a place to live and a mortgage she can afford stretches into a three year odyssey that takes her to the farthest reaches of the boroughs and the limits of her own patience Welcome to the tracks she declares at the outset of yet another weekend tour of blindingly bad wildly overpriced properties Let s go to the wrong side of them shall we As her own quest unfolds Williams simultaneously reports on the housing markets nationwide Friends and

family members grapple with real estate agents and lenders neighborhood and quality of life issues all the while voicing common concerns as expressed by this Maryland working parent of three The market was so hot there were no houses We looked for years at places the owners wouldn't even clean let alone fix up How frustrating is the process Williams likens it to hearing the opening bars of a song you think is Super Freak And then it turns out to be U Can't Touch This Told in an engaging blend of factfinding and memoir Gimme Shelter charts the course of the real estate bubble as it floated ever upward not with faceless numbers and documents but with the details of countless personal stories about the undeniable urge to put down roots and the lengths to which we'll go to find our way home **The Christmas Encyclopedia, 4th ed.**
