various genres and themes and subjects such as animation ethnicity migration and censorship Given its contribution to world cinema it is good to finally have an encyclopedia like this which can meet the interests of the scholar and researcher but also the movie fan

Lars von Trier's Cinema Rebecca Ver Straten-McSparran,2021-11-11 This book offers a bold and dynamic examination of Lars von Trier's cinema by interweaving philosophy and theology with close attention to aesthetics through style and narrative It explores the prophetic voice of von Trier's films juxtaposing them with Ezekiel's prophecy and Ricoeur's symbols of evil myth and hermeneutics of revelation The films of Lars von Trier are categorized as extreme cinema inducing trauma and emotional rupture rarely paralleled while challenging audiences to respond in new ways This volume argues that the spiritual biblical content of the films holds a key to understanding von Trier's oeuvre of excess Spiritual conflict is the mechanism that unpacks the films notorious excess with explosive centrifugal force By confronting the spectator with spiritual conflict through evil von Trier's films truthfully and prophetically expose the spectator's complicity in personal and structural evil forcing self examination through theological themes analogous to the prophetic voice of the transgressive Hebrew prophet Ezekiel his prophecy and its form of delivery Placed in context with the prophetic voices of Dante Milton Dostoyevsky O'Connor and Tarkovsky this volume offers a theoretical framework beyond von Trier It will be of great interest to scholars in film studies film and philosophy film and theology

Lars Von Trier Jack Stevenson,2019-07-25 With the international success of *Breaking the Waves* 1996 and *Dancer in the Dark* 2000 Lars von Trier has established himself as one of the most provocative and daring film directors working today The founding father of *Dogma* 95 he made the movement's most controversial film *The Idiots* 1998 and has played a leading role in the recent resurgence of Danish cinema Yet despite his success von Trier remains something of an polarising and enigmatic figure hailed as the new Godard by some and a charlatan by others In this new study Jack Stevenson explores the achievements as well as the paradoxes of Lars von Trier assessing his life work and critical reception The book follows von Trier from his early life as a troubled son of Cultural Radical parents through to his student days at the Danish Film School diligently spent making films that were as innovative and disturbing as his later features have proved to be These films consisting of the *Europa* and *Gold Hearted* trilogies are fully examined together with considerations of his creative detours into other media and his current work in progress *Dogville* Based in Denmark the author brings a unique perspective to Lars von Trier creating a multi dimensional portrait of the director Utilising sources heretofore unavailable in English Stevenson's lively yet fact filled narrative is accessible to students and film enthusiasts alike The book is indispensable to anyone interested in Lars von Trier and the broader issues that surround modern Danish film and its current renaissance
