Bergsonian Bridge To Phenomenological Psychology:

A Bergsonian Bridge to Phenomenological Psychology Helmut R. Wagner, Ilja Srubar, 1984 **Getting Bergson Straight: The Contributions of Intuition to the Sciences** Pete A.Y. Gunter, 2023-04-25 This study concerns the ideas of one particular philosopher Henri Bergson whose views of time intuition and creativity have had a significant impact on art literature and the humanities both in his time and in our own Although it is generally recognized that Bergson s ideas have significantly impacted the arts and the humanities it has not been recognized how they have also had a creative influence on the sciences as well Nor has it been realized that this was one of his most basic contentions Bergson s conception of intuition his fundamental insight into reality was not limited to fugitive insights into human existence By realizing previously unsuspected possibilities for research and discovery his endeavors were also meant to make possible new advances in the sciences If it enabled his cousin by marriage Marcel Proust to explore human memory in depth it also inspired psychologists like Daniel Schachter to use Bergson s ideas to make real contributions to contemporary memory science If his notion of creative evolution brought many thinkers to a belief in human creative freedom it brought others notably Alexis Carrel and Pierre Lecomte de No y to a scientific study of biological time Among his successful speculations was the theory of the Big Bang cosmology Getting Bergson Straight shows many points at which Bergson s ideas anticipated future developments in the sciences This was seen clearly by the Nobel Prize winning physicist Luis de Broglie who viewed Bergson s physics as presaging quantum physics Thus the text is well situated for arts humanities social science and natural science classrooms studying creative thinking and or intellectual history *Alfred Schutz's Sociological Aspect of Literature* Lester Embree, 2013-03-14 The maintext in the present volume has been constructed out of passages found scattered about in thirty five years of Alfred Schutz s writings and it has been constructed by following a page of notes for a lecture that he gave in 1955 under the title Sociological Aspect of Literature The result can be considered the substance of Schutz s contribution to the theory of literature More detail about how this construction has been performed is offered in the Editor s Introduction The complementary essays are by scholars from Germany Japan and the United States from several generations and from the disciplines of anthropology philosophy and sociology These researchers were invited to reflect in their own perspectives on the main text and in relation to matters referred to within and beyond it Draft versions of most of these complementary essays were presented for critical discussion in a research symposium held at the Graduate Faculty of Political and Social Science of the New School for Social Research on April 28 29 1995 under the sponsorship of The Center for Advanced Research in Phenomenology Inc Florida Atlantic University The Department of Philosophy of The Graduate Faculty of the New School Richard 1 Bernstein Chair and Evelyn and George Schutz the philosopher s children Revised versions of these presentations and also several essays subsequently recruited are offered to begin yet another stage in the history of scholarship on Schutz and the phenomenological research inspired by him Northwestern University Press is thanked for permission to quote

Beauty's Appeal International Society for Phenomenology, Fine Arts, and Aesthetics. Conference, 2008 Beauty fulfils human existence As it registers in our aesthetic experience beauty enhances nature's enchantment around us and our inward experience lifting our soul toward moral elevation This collection of art explorations seeks the elemental ties of the Human Condition It endeavors to explain the relation of beauty and human existence and explores the various aspects of beauty

The Visible and the Invisible in the Interplay between Philosophy, Literature and Reality Anna-Teresa Tymieniecka, 2012-12-06 Merleau Ponty's categories of the visible and the invisible are investigated afresh and with originality in this penetrating collection of literary and philosophical inquiries Going beyond the traditional and current references to the mental and the sensory mind and body perceptual content and the abstract ideas conveyed in language etc these studies range from the hidden spheres of reality to the play of the visible and the invisible left as traces in works of human genius the origins of intellect and language the real and the imaginary in literature and the hidden realities in the philosophy of the everyday world These literary and philosophical probings collectively reveal the role of this disjoined conjoined pairing in the ontopoietic establishment of reality that is in the manifestation of the logos of life In tandem they bring to light the hidden play of the visible and the invisible in the emergence of our vital societal intimate intellectual and creative involvements

Phenomenology 2010. Volume 1, Selected Essays from Asia and Pacific Yu, Chung-Chi, 2010-01-01 *Dialogical Approaches and Tensions in Learning and Development* Nathalie Muller Mirza, Marcelo Dos Santos Mamed, 2021-10-26 The book pursues the goal of exploring and strengthening a dialogical approach of communication and cognition It brings together contributions from world leading researchers related to the dialogical approach in education and psychology It presents among others the place of language and materiality in the development of communication and thinking as well as the role of the methods in the relationship between researchers and participants This leads to an innovative definition of the dialogicality and how a dialogical approach can provide heuristic conceptual and methodological tools to better understand how people think communicate and learn in a complex world The authors hereby develop an epistemological framework inspired by scholars

such as Michael Bakhtin, Lev Vygotsky and Herbert Mead under the assumption that dialogue or dialogicality and therefore the presence of the other is fundamentally entangled into the human thinking and development. This book contributes to the understanding of human communication, cognition and mind and participates in a scientific dialogue which helps to advance future research. It includes theoretical and empirical chapters and presents innovative methods of inquiry which makes it a useful tool for both teaching and research.

Explorations of the Life-World M. Endress, George Psathas, H. Nasu, 2005-06-22

This anthology originated from three conferences which were held at Waseda University Tokyo Japan on March 26-28 1999 at the University of Konstanz Germany on May 26-29 1999 and a session at the SPHS annual meeting at the University of Oregon USA on October 5-7 1999. With one exception the contributions to this volume are revised versions of papers read at these meetings. Each of these conferences took place in order to celebrate the centennial of the birthday of Alfred Schutz who was born April 13 1899 and died May 20 1959. First of all we would like to thank Evelyn Schutz Lang the daughter of Alfred and Ilse Schutz for her continuing support and encouragement. Moreover Evelyn Schutz Lang as well as Claudia Schutz the granddaughter of Alfred and Ilse Schutz and the daughter of his son George gave us the honor of visiting the Konstanz conference in 1999. Evelyn also came to the Oregon conference and sent her personal greetings to those attending the Tokyo conference. We would like to thank Waseda University the Waseda Sociological Association the Waseda University International Conference Center and the Center for Research in Human Sciences in Japan for their generous financial support as well as the German Research Council Deutsche Forschungsgemeinschaft the University of Konstanz the Alfred Schutz Memorial Archives in Konstanz and the Sparkasse Konstanz for their considerable financial assistance in making the conferences possible.

Collected Papers IV A. Schutz, 2013-04-09

Following the thematic divisions of the first three volumes of Alfred Schutz's Collected Papers into The Problem of Social Reality Studies in Social Theory and Phenomenological Philosophy this fourth volume contains drafts of unfinished writings drafts of published writings translations of essays previously published in German and some largely unpublished correspondence. The drafts of published writings contain important material omitted from the published versions and the unfinished writings offer important insights into Schutz's otherwise unpublished ideas about economic and political theory as well as the theory of law and the state. In addition a large group contains Schutz's reflections on problems in phenomenological philosophy including music which both supplement and add new dimensions to his published thought. All together the writings in this volume cover Schutz's last 15 years in Europe as well as manuscripts written after his arrival in the USA in 1939. Audience: Students and scholars of phenomenology social theory and the human sciences in general.

Schutz is the pre eminent phenomenological philosopher of the social sciences New materials from his Nachla concerning barriers to equality of opportunity including a report co authored with the political scientist Harold Lasswell are also included *The Participating Citizen* Michael D. Barber,2012-02-01 Winner of the2007 Edward Goodwin Ballard Book Prize in Phenomenology presented by the Center for Advanced Research in Phenomenology with interest from a fund raised from Professor Ballard s family students and friends Vienna born philosopher and social scientist Alfred Schutz 1899 1959 is primarily responsible for applying to the social sciences the resources of phenomenology the prominent philosophical movement begun by Edmund Husserl in the early twentieth century Drawing on previously unavailable letters this biography depicts Schutz s childhood adolescence first visit to the United States struggle to secure asylum for family and friends after the Austrian Anschluss family and business life and connections with phenomenologists worldwide the New School for Social Research and close friends As a philosophical biography it examines the ethical dimensions of his philosophical work including its resistance to ethical theory and shows how during the civil rights movement he articulated a standard for assessing democracy in terms of ability to facilitate individual citizen participation **JBSP** British Society for Phenomenology,1986 **Phenomenology 2010** Yu Chung-Chi,2010 **French Prose and Criticism, 1790 to World War II** Harold Bloom,1990 A collection of twenty six critical essays on French prose and criticism from 1790 to World War II **Phenomenological Inquiry** ,1999 **Worldly Phenomenology** Lester Embree,1988 Although Alfred Schutz thought focused on the phenomenological founding of interpretive sociology he also believed it relevant for other social and even historical sciences His thought has been internationally appreciated in a wide range of human scientific disciplines This collection of essays assesses Schutz impact and potential beyond sociology and philosophy It includes essays from a geographer and an economist and addresses topics such as communicology computerization politics and literature as well as psychology and sociology The sixteen contributors to this volume were asked to prepare essays that reviewed the impact of Schutz in their discipline discussed the potential and attempted novelly to actualize some of that potential *Eric Voegelin and the Foundations of Modern Political Science* Barry Cooper,Eric Voegelin,1999 Annotation This important new work is a major analysis of the foundation of Eric Voegelin s political science Barry Cooper maintains that the writings Voegelin undertook in the 1940s provide the groundwork for the brilliant book that is one of his best known *The New Science of Politics* At the time of that book s publication however few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating although sometimes baffling formulations By focusing on several of the key chapters in Voegelin s eight volume *History of Political Ideas* especially the studies of Bodin Vico and Schelling Cooper shows how those studies provide the basis for Voegelin s thought Investigating Voegelin s study of Oriental influences on Western political ideas especially Mongol constitutional law and his study of Toynbee Cooper seeks to demonstrate the vast range of materials Voegelin used Cooper contends that as with other great thinkers political crisis specifically the world war of 1939

1945 stimulated Voegelin's intellectual and spiritual achievement. He provides an analysis of Voegelin's immediate concern with the course of World War II, his ability to understand those dramatic events in a large context and his ability to provide an insightful account of the causes, the significance and the consequences of the spiritual and political disorder that was evident all around him. In *Eric Voegelin and the Foundations of Modern Political Science*, Cooper makes the connection between Voegelin's political writings of the 1940s and the meditative interpretations that began to appear with the publication of *Anamnesis* and with the later volumes of *Order and History* much more intelligible than does any existing discussion of Voegelin. Scholars in intellectual history and political science will benefit enormously from this valuable new addition to Voegelin studies. *Phenomenology and Sociology* George Psathas, 1989-10-12 [Phénoménologie et sciences sociales](#)
