

NATIONAL BESTSELLER

"Quite simply, one of the most extraordinary war diaries ever written. Innocent and knowing at once, it portrays the death of Old Europe through the eyes of a beautiful young aristocrat whose world itself is dying with the events that she describes."

McDonough completes his brilliant two volume history of Germany under Hitler's Third Reich. At the beginning of 1940 Germany was at the pinnacle of its power. By May 1945 Hitler was dead and Germany had suffered a disastrous defeat. Hitler had failed to achieve his aim of making Germany a super power and had left her people to cope with the endless shame of the Holocaust. Despite Hitler's grand ambitions and the successful early stages of the Third Reich's advances into Europe, Frank McDonough convincingly argues that Germany was only ever a middle ranking power and never truly stood a chance against the combined forces of the Allies. In this second volume of *The Hitler Years*, Professor Frank McDonough charts the dramatic change of fortune for the Third Reich and Germany's ultimate defeat.

Treating Mind and Body Geoffrey Cocks, As historians rediscover human society to be as much about desire, fantasy and irrationality as it is about interest, reality and reason, the history of psychoanalytic thought takes on an increasing significance. Its growth and interconnection with other fields appealed to the eclectic and holistic interests of historians so much so that the term psychohistory was coined, admiringly, ambivalently or perjoratively. The methodological intersection of psychology and history also helped move us toward a more inclusive social history through investigation of the institutional history of medical sciences of the mind. *Treating Mind and Body* examines the recent history of psychotherapy, psychoanalysis and medicine in Germany through a series of original essays by Geoffrey Cocks. The first section, Psychotherapy, analyzes the history of psychotherapy in the Third Reich and includes such essays as *The Professionalization of Psychotherapy in Germany and The Nazis* and *C. G. Jung*, which examines Jung's association with the Nazi regime and the rift between Jungians and Freudians. Section two, Psychoanalysis, considers the repression of memory evident among German psychoanalysts, a more disturbing historical reality than the traditional view of a Nazi destruction of psychoanalysis. Essays include *Psychoanalysis and Psychotherapy in Germany Since 1939* as well as a discussion of Heinz Kohut's self psychology in light of Kohut's life experience in Austria and America. In section three, Cocks treats medicine, the history of professions and the increasing awareness among historians of the place of medicine in Nazi plans and projects. Essays include *Jews and Medicine in Modern German Society* and *The Nuremberg Doctor's Trial and Medicine in Modern Germany*. As a historian of Germany, psychoanalysis and medicine, Cocks's writings reflect an abiding interest in the intersections of psychology and history. To his selection of previously published essays, he adds a new introduction placing the essays in newer, richer contexts. This book will be of interest to psychologists, psychiatrists and psychotherapists as well as those in the fields of medicine, history and sociology.
