Contemporary Jewish Writing in Sweden Peter Stenberg,2004-01-01 This book brings together for the first time the works of Jewish authors writing in Swedish who describe the special circumstances confronting Jews in the twentieth century in Sweden and Scandinavia During the Second World War Sweden s small long established and well assimilated Jewish community was never subject to the open and ultimately fatal ethnic identification that most European Jews suffered Older and middle aged Swedish born Jewish authors tend to think of themselves only as Swedes Within the last few decades however Sweden has become an immigrant country and a younger generation writes from a different perspective Twenty of the twenty two authors represented in this anthology are still very active and many of the pieces were

written in the last fifteen years Each work chosen illustrates some aspect of Jewish identity in Sweden either today or in the course of a century in which Sweden played a crucial controversially neutral role in a war that had a catastrophic impact on Europe and led to the near annihilation of the European Jews This volume provides the complex historical framework in which these events occurred and elucidates the role played by the largest Scandinavian country within it Contemporary Jewish Writing in Sweden brings together superb work by major writers in one of Europe's foremost national literatures and includes the first English translation of an excerpt from Peter Weiss's recently discovered 1957 Swedish novel **Elsevier's International Dictionary of Literature and Grammar** Guido Gómez de Silva, 1991 Hardbound This dictionary contains concise explanations of many of the terms encountered in the study of grammar and literature The author has reduced a complex aggregate of information to a simple and clear compendium of essential facts with the intention of helping the reader who may wish to learn or brush up his knowledge of them The style is easy clear and interesting and the contents eminently practical and informative which makes this book a very useful tool for anyone who studies literature or languages Entries with titles such as Arabic literature German literature Japanese literature are meant to guide the reader to those works of artistic creation which have had the widest influence or have expressed vital ideas of civilization most clearly and convincingly works that have earned their authors a place of honour in world literature
