literature which overturns the East West or dual personality model Yamamoto Kingston and Kogawa interweave speech and silence narration and ellipses autobiography and fiction as they adapt and recast Asian and Euro American precursors Drawing freely from both traditions they reinvent the past by decentering disseminating and interrogating authority but not by reappropriating it A fresh and subtle response to issues relating to cultural diversity Articulate Silences will be important reading for scholars and students in the fields of literary theory and criticism women's studies Asian American studies and ethnic studies
