attendees especially in the difficult economic climate of 2009 We hope the participants found the conference valuable both for its technical content and for its personal networking opportunities To me it is interesting to look back over the past five years not just at this conference but at the development and acceptance of open source software Since 2004 the business and commercial side of open source has grown enormously At that time there were only a handful of open source businesses led by RedHat and its Linux distribution Companies such as MySQL and JBoss were still quite small
