The Committee identified in this report several hurdles to overcome Air Passenger Duty APD despite the APD on direct long haul flights being reduced to zero this does not assist the 98.5 per cent of passengers who travel from NI airports on short haul flights Ways to reduce or preferably abolish APD on all flights into NI from GB and on all direct flights from Northern Ireland to any destination should be explored Connectivity air links to hub airports particularly Heathrow must be at least maintained at the current level and further routes should be actively sought Airports Commission review the review is being carried out by the Airports Commission into options to maintain the UK's status as an international hub for aviation As this report is not due until 2015 and the delay as to the future airport configuration and capacity in the South East of England is causing concern among the business community in Northern Ireland The Committee urged the Government to expedite the review and its decision as soon as possible given its importance to Northern Ireland's international connectivity Internal access to Northern Ireland's airports road and rail links to all three of NI airports must be improved Visas there should be introduced between the UK and Irish Government a shared visit visa for the UK and the Republic of Ireland as the current cost of two visas deters both business and leisure travellers from visiting both jurisdictions on a single visit
