Best Of John Brunner:

The Best of John Brunner John Brunner, Joe W. Haldeman, 1988 A collection of 15 stories by one of contemporary science fiction's finest writers

John Brunner Jad Smith, 2013-01-30 Under his own name and numerous pseudonyms John Brunner 1934-1995 was one of the most prolific and influential science fiction authors of the late twentieth century. During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation: robotics, racism, drugs, space exploration, technological warfare, and ecology. In this first intensive review of Brunner's life and works, Jad Smith carefully demonstrates how Brunner's much neglected early fiction laid the foundation for his classic *Stand on Zanzibar* and other major works such as *The Jagged Orbit*, *The Sheep Look Up*, and *The Shockwave Rider*. Making extensive use of Brunner's letters, columns, speeches, and interviews published in fanzines, Smith approaches Brunner in the context of markets and trends that affected many writers of the time, including Brunner's uneasy association with the New Wave of science fiction in the 1960s and 70s. This landmark study shows how Brunner's attempts to cross-fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk, slipstream, and biopunk.

From This Day Forward John Brunner, 2014-04-01 Speculation is compounded with suspense in these thirteen short works of sci-fi from the Hugo Award-winning author of *Stand on Zanzibar*. Genuine startlers, Kirkus Reviews starred review. Collected when Brunner was at the peak of his writing form, this even dozen of his short stories, with a bonus poem thrown into the mix, offers provocative ideas and thrilling action mixed with conceptions of the inevitable future, the inventable future, the alternate future, the future to be avoided, and the future that is sometimes right now. A heady brew. For each generation there is a writer meant to bend the rules of what we know. Hugo Award winner, Best Novel, *Stand on Zanzibar*, and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now many of his classic works are being reintroduced. For readers familiar with his vision, this is a chance to reexamine his thoughtful worlds and words; while for new readers, Brunner's work proves itself the very definition of timeless.

The Wrong End of Time John Brunner, 2013-07-25 The time is the future. The place, an America so isolated by fear that it is cut off from the rest of the world by a massive defence system. Into this armed, barricaded state comes a young Russian scientist bearing a strange and almost unbelievable story: Superior intelligent life on a far higher order than any on earth has been detected near the planet Pluto. Immune themselves by virtue of their far greater intelligence, these aliens are about to destroy the planet Earth.

The Ladder in the Sky John Brunner, 2011-09-29 The man in black picked up something which had been leaning beside him. A ring, perhaps two feet wide, yet when the man in black laid it down on the floor, it was as large as he was tall. The light went out. A bluish glow now emanated from the ring, revealing Bryda's face, ghastly gray as she

leaned forward and Yarco's also set and serious and the conjurer's impassive And within the ring where moments before there had been the bare planks of the floor a shape that moved and opened eyes glowing like coals and spoke What world is this the awful voice inquired First published 1962 *The World Swappers* John Brunner, 2011-09-29 The inhabited galaxy was caught in the crushing vice of a struggle for power The political titans of the planets of mankind were making their bids for supremacy The contestants Cornice man of strange powers authority in the spheres of the intellect and Bassett man of money power financial and business wizard As the association of human worlds drew near the teetering edge of internal revolutions one of these men would be in a position to triumph The only thing that neither side could foresee was that there were Others hovering among the stars loo ling for new worlds to conquer First published 1959 **The Whole Man** John Brunner, 2014-04-01 This story of a severely handicapped man in a Dystopic world very much reminds you of the Cyberpunk novels that would appear 20 years later Wanderings In A Whole Man a baby boy is born in a hospital surrounded by the chaos of battle and civil unrest The birth is unremarkable and little noted but the child Gerald Howson turns out to be very special He is afflicted by infirmities and bodily flaws but his mind becomes a miraculous device capable of telepathic marvels that can and do change the world But the power fantasies that sometimes tempt him are deadly to those near him and can ultimately threaten the whole of the world And a man in a physical envelope that inspires pity and fright turns out to be the embodiment of a superman This ebook was originally published in the United Kingdom under the title Telepathist For each generation there is a writer meant to bend the rules of what we know Hugo Award winner Best Novel Stand on Zanzibar and British science fiction master John Brunner remains one of the most influential and respected authors of all time and now many of his classic works are being reintroduced For readers familiar with his vision it is a chance to reexamine his thoughtful worlds and words while for new readers Brunner's work proves itself the very definition of timeless *To Conquer Chaos* John Brunner, 2011-09-29 The barrenland lay on the face of the world like a sore nearly round more than three hundred miles in circumference It had been there so long that it was endured as were the twisted monsters that wandered out of the barrenland and killed Conrad living on the edge had visions of a time when the barrenland was a rich region full of powerful magical people people who travelled to other worlds He was ruled by a burning need to know what none could tell him the explanation of the mysterious visions which had plagued him all his life Then he met Jervis Yanderman a soldier who knew of these visions Yanderman was convinced there was an island in the barrenland where people still clung to life And Yanderman knew that a man had come out of it within living memory First published in 1964
